NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10:00 A.M. on the 15th day of
September, 1952, at Rupert,
County of Minidoka, State of Ida-
ho, before Floyd J. Fruit, a No-
tary Public, proof will be sub-
mitted of the application to
beneficial use of 9.67 cubic feet
per second of the waters of two
wells in accordance with the terms
and conditions of Permit No.
21707 heretofore issued by the
Department of Reclamation of the
State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are D. P. Blincoe,
Heyburn, Idaho.

The use to which said water
has been applied is irrigation of
640 acres.

The amount applied to bene-
ficial use is 9.67 cubic feet per
second.

The place where said water is
used All of Section Sixteen (16),
in Township Eight (8) South,
Range Twenty-three (23) East of
the Boise Meridian.

The name of the canal or ditch
or other works by which said
water is conducted to such place
of use is Well No. 1 & 2 in the
SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec-
tion 16, Twp. 8 South, Range 23
East, B. M.

The right to take water from
such works is based upon Permit
No. 21707.

The source of supply from
which such water is diverted is
subterranean from wells.

The date of priority which said
user is prepared to establish is
September 20, 1950.

NOTICE FOR PUBLICATION

Notice is hereby given that at
10 a. m. on the 21st day of Sep-
tember 1951, at Rupert, County of
Minidoka, State of Idaho, before
F. J. Fruit, Notary Public proof
will be submitted of the comple-
tion of works for the diversion of
ten cubic feet per second of sub-
terranean water pumped from two
wells in accordance with the
terms and conditions of a certain
permit heretofore issued by the
State Reclamation Engineer of the
State of Idaho.

1. The name of the person or
corporation holding said permit is
D. P. Blincoe.

2. The postoffice of such person
or principal place of business of
such corporation is Heyburn,
County of Minidoka, State of
Idaho.

3. The number of such permit
is 21707, and the date set for the
completion of such work is Sep-
tember 21, 1951.

4. Said water is to be used for
irrigation purposes.

5. Said works of diversion will
be fully completed on the date set
for such completion, and the
amount of water which said
works are capable of conducting
to the place of intended use, in
accordance with the plans accom-
panying the application for such
permit, is ten cubic feet per
second.

6. The amount of lands for
which said water is available is
640 acres, particularly described
as follows: all of Section 16,
township 8 south of range 23 E.
B. M.

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29418
PERMIT No. 21707
DISTRICT No.

1. Name of Applicant: D. P. BLINCOE

Postoffice address: Heyburn

County: Minidoka

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand: \$10,000.00

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources: Real property \$100,000; Personal property \$50,000.

2. Quantity of water claimed: Ten (10) cubic feet per second.

3. Source of water supply: Subterranean from wells which is a tributary of

4. Location of point of diversion: See Remarks feet distant from the

corner of Section , T. , R. , B. M., and is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$

of Section 16 , T. 8 S. , R. 23 E. , B.M., County of Minidoka.

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the

of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 30,000.00

8. Kind of works: Wells- 20" to depth of approximately 400 feet, with water level of approximately depth of 200 ft.

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width Est. 21" feet; height Est. 21" feet

11. Ditch: Width at bottom 6 feet; width at water line 4 feet; depth of water 3 feet;

dimensions of flume: None

Diameter of pipe None inches; length of conduit Four miles.

Average grade per mile Two feet.

12. The time required for the completion of such work is One (1) years.

13. The time required for the complete application of the water to the proposed use is One (1) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

D. P. BLINCOE Applicant.

DATA ENTRY LOG[illegible]

July 16, 1953

RE: Permit No. 21707

Mr. D. P. Blincoe
Heyburn
Idaho

Dear Mr. Blincoe:

We enclose License and Certificate of Water Right issued under Permit No. 21707, confirming your right to the use of 9.67 second feet of water from two wells in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 16, Township 8 South, Range 23 East, B.M., with priority of September 20, 1950, for the irrigation of land in Section 16, Township 8 South, Range 23 East, B.M.

We also enclose departmental receipt No. 26054 for the \$32.00 license fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

July 7, 1953

RE: Permit No. 21707

Mr. D. P. Blincoe
Heyburn
Idaho

Dear Mr. Blincoe:

The report of our field engineer on examination for beneficial use on your Permit No. 21707 shows that your two wells in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16, Township 8 South, Range 23 East, B.M., will deliver 9.67 second feet and that you have irrigated 625 acres in said section.

Therefore, upon receipt of the statutory fee of \$32.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located, License will be issued for 9.67 second feet of water from said wells.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 21707

Mr. D. P. Blincoe
Heyburn
Idaho

Dear Mr. Blincoe:

We have received from Mr. Floyd J. Fruit the depositions of yourself and two witnesses, also affidavit of publication in the Minidoka County News, all in proof of beneficial use under your Permit No. 21707.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10:00 A.M. on the 15th day of
September, 1952, at Rupert,
County of Minidoka, State of Ida-
ho, before Floyd J. Fruit, a No-
tary Public, proof will be sub-
mitted of the application to
beneficial use of 9.67 cubic feet
per second of the waters of two
wells in accordance with the terms
and conditions of Permit No.
21707 heretofore issued by the
Department of Reclamation of the
State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are D. P. Blincoe,
Heyburn, Idaho.

The use to which said water
has been applied is irrigation of
640 acres.

The amount applied to bene-
ficial use is 9.67 cubic feet per
second.

The place where said water is
used All of Section Sixteen (16),
in Township Eight (8) South,
Range Twenty-three (23) East of
the Boise Meridian.

The name of the canal or ditch
or other works by which said
water is conducted to such place
of use is Well No. 1 & 2 in the
SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec-
tion 16, Twp. 8 South, Range 23
East, B. M.

The right to take water from
such works is based upon Permit
No. 21707.

The source of supply from
which such water is diverted is
subterranean from wells.

The date of priority which said
user is prepared to establish is
September 20, 1950.

MARK R. KULP
State Reclamation Engineer
No. 1066 Aug.21-Sept. 11

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21707

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. D. P. Blincoe, Heyburn, Idaho, farmer, Heyburn, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. individual

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. September 20 1950, Permit No. 21707, September 20 1950

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. two subterannean wells, one well located in $SE\frac{1}{4}SW\frac{1}{4}$ and one well located in the $SE\frac{1}{4}NW\frac{1}{4}$, Sec. 16. T 8 S R 23 E B M

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Two subterranean wells, capable of pumping approximately 9.67 fee of water; diversion made on the land at the wells, and water conducted by private irrigation ditches on the land and used in the irrigation of all of Sec. 16, T 8 S R 23 E B M; Wells discharged approximately 9.67 acres and measurement has been made by weir; One well 265 ft. in depth; other 260 feet in depth; depth to water 199 ft. and north well 204 ft., casing both wells; discharge pipe 10 in.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for the irrigation of all of Sec. 16, T 8 S R 23 E B M approximately 640 acres; land is principally row cropped; 1952 crops 152 ac. sugar beets; 350 ac. wheat; 35 ac. potatoes and balance summer fallow.

21707

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. entirely for irrigation purposes

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Requires both wells and all water available from them to adequately irrigate the land; all water available can be beneficially used.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. original applicant

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. In 1950 farmed 150 acres potatoes; in 1951 300 acres wheat, approximately 15 acres potatoes; approximately 100 acres oats; 1952 approximately 152 ac. sugar beets; 350 wheat, 35 potatoes; 1953 summer fallow.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign) D. P. Blunson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Rupert, County of Minidoka, State of Idaho, on this 15th day of September, A. D. 1952,

My commission expires Feb. 19th 1956

D. P. Blunson
Notary Public

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21707

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Willard H. Shillington, age 39, Rupert, Idaho, farmer, Rupert, Idaho

Ques. 2. Are you acquainted with D. P. Blince, the holder of Permit No. 21707? How long have you known him and where does he reside?

Ans. I have known Mr. Blincoe 10 or 12 yers, resides at Heyburn, Idaho

Ques. 3. Have you read or heard read said Permit No. 21707, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two subterannean wells, one well located on SE $\frac{1}{2}$ SW $\frac{1}{2}$ and one well located on the SE $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 16, T 8 S R 23 E B M, diversion points at the wells, thru private ditches on the Sec. 16, T 8 S R 23 E BM

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so-conveyed?

Ans. Two wells, are capable of pumping approximately 9.67 cubic feet of water; and have seen these wells delivering approximately that amount.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 9.67 cu. Beet; and measurements made by weirs at discharge points at wells.

21707

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used on Sec. 16, T 8 S R 23 E B M and for irrigation purposes only; approximately the entire section is being cropped.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. irrigation only

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Approximately the entire area of Section 16, T 8 S R 23 E B M has been reclaimed and I estimate that the amount of water required for beneficial of the land will require the full output of the two wells.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been farming past three years in the neighborhood of the land irrigated under this permit; and have seen the wells in operation and the lands in cultivation during the said past three years.

(Signed)

William N. Phellington

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rupert, County of Minidoka, State of Idaho, on this 15th day of September, A. D. 1952.

Permit No. 21707

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Henry A. Bill, age 27, Heyburn, Idaho, farm labor, Route 1,
Heyburn, Idaho

Ques. 2. Are you acquainted with D. P. Blincoe, the
holder of Permit No. 21707? How long have you known him and where does
he reside?

Ans. I have known Mr. Blincoe about 7 years and he resides on
farm near Heyburn, Idaho

Ques. 3. Have you read or heard read said Permit No. 21707, and are you
familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Two subterranean wells, diversion from the wells and
irrigation of the land is by corrugation or ground flow

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct-to-place of-use, and how much water have you seen being so conveyed?

Ans. About 9.67 second feet of water, and have seen this amount being
conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. The two wells deliver approximately 9.67 second feet of water;
measurement made by weir.

21707

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation; water has been used on all legal subdivisions of Sec. 16; Township 8 South, Range 23 East B.M.; and practically the entire area of Section 16 is now under irrigation. 1952 crop area about 152 acres sugar beets; about 350 Acres wheat; about 35 acres potatoes; 105 acres summer fallow

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Approximately the entire area of Section 16, T 8 S R 23 E B M has been irrigated and It is my estimate that the flow of the two wells in this section are adequate for the irrigation thereof.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have worked on this property for 3 years and have done the irrigating of the land as an employee of permit holder. _____

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at ~~12:00~~ 15:00 A. M. on the 15th day of September, 1952,
at Rupert, County of Minidoka, State of Idaho, before
Floyd J. Fruit, a Notary Public, proof will be submitted of the
application to beneficial use of 9.67 cubic feet per second of the waters of two wells
in accordance with the terms and conditions of Permit No. 21707
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

D. P. Blincoe, Hayburn, Idaho.

The use to which said water has been applied is irrigation of 640 acres

The amount applied to beneficial use is 9.67 cubic feet per second.

The place where said water is used (if for irrigation give the best accurate description of the lands irrigated)

All of Section Sixteen (16), in Township Eight (8) South, Range
Twenty-three (23) East of the Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Well No. 1 & 2 in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 16, Twp. 8 South, Range 23 East, B.M.

The right to take water from such works is based upon Permit No. 21707

The source of supply from which such water is diverted is subterranean from wells.

underground

The date of priority which said user is prepared to establish is September 20, 1950
~~December 21, 1951~~

Mr. D. P. Blincoe

Heyburn, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 21707. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than September 21, 1952, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Dear Sir:

Re: Permit No. 21707

In accordance with yours of the 3rd of May I am enclosing herewith my check for \$5.00 to cover the statutory fee in connection with my certificate of completion of works.

Yours very truly

D. P. Blincoe
Heyburn, Idaho

21707

May 3, 1952

RE: Permit No. 21707

Mr. D. P. Blincoe
Heyburn
Idaho

Dear Mr. Blincoe:

The report of our field engineer on examination for completion of works under Permit No. 21707 shows that your two wells, located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 16, Township 8 South, Range 23 East, B.M., will deliver 9.67 cubic feet per second.

Therefore, upon receipt of the statutory fee of \$5.00, a certificate of completion of works will be issued for that amount.

We regret that there was any misunderstanding in regard to the proof which you made on ^{July} ~~December~~ 21, 1951, which was for completion of works and not for beneficial use.

As explained to you in office letter addressed you September 27, 1951, the published notice, as well as the correspondence show that this proof was for completion of works, although through an oversight in this department, Mr. Fruit, Notary Public, was furnished the forms for making beneficial use proof.

Beneficial use proof is not due on this permit until September 21, 1952, although it can be made at any earlier date that you are prepared to do so.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

REPORT OF ENGINEER

Permit No. 21707

This proof is for Completion of works In Water District No. _____1. Name of applicant D. P. Blincoe, Heyburn, Idaho2. Source of water supply: Subterranean from two wells3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ & SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 16T. 8 S. R. 23 E. County of Minidoka

4. Describe works as they exist, giving dimensions and capacities of same: This set up consists of two large wells with a pump in each and a network of irrigation ditches, several of which are in levees, that irrigate almost the whole of Sec. 16. No. well is 260 ft. deep by 20 in. diameter, cased 10 ft. to rock. Pump bowls set down 240 ft. Static water H is 204 ft. Draw down unknown. The motor is 150 h.p. U. S. motor, 440 V. 180 amps. 1800 r.p.m. 3 phase 60 cycle, No. 848057. Pump is Worthington vertical turbine, size 14 QGE-3 Serial No. T 1332133. Switch is Mongerson switch panel, No. 29265, mounted close by the pump. A large bank of transformers is mounted approximately 30 ft. to the East of the pump. There is a concrete base approx. 6 ft. square supporting the pump and motor. Delivery is through a 10 in. pipe 12 ft. long to the North into a large concrete sump 4 ft. by 5 ft. by 8 ft. high. From this sump there is an 18 in. concrete pipe to the No. that lifts water into a dike ditch. Another 18 in. concrete pipe makes delivery to the East. The So. well is 260 ft. deep by 20 in. diameter, cased 10 ft. to rock. Pump bowls set down 240 ft. Static water H is 199 ft. U.S. motor; 150 h.p. 440 V. 180 amps. 1800 r.p.m. 60 cycle, 3 phase, No. 7419995. Pump is Worthington vertical turbine 14 QGE-3, Serial No. T 1332137. Bulldog switch panel 29264, mounted close by the pump. A large Idaho Power transformer installation located 50 ft. No. of the well. Pump and motor are mounted on a concrete base 6 ft. by 6 ft. delivery to the So. through a 10 in. pipe, 10 ft. long into a large concrete sump 4 ft. by 5 ft. by 6 ft. high. There is an 18 in. concrete pipe leading to a ditch to the East and also to one to the West. There is no house nor protection for either the No. or the So. well. Ditches are 2 $\frac{1}{2}$ to 4 ft. wide in the bottom and are laid out as per diagram on the map.

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

All of Section 16, Twp. 8 South, Range 23 East, B. M.All is under irrigation except approximately 15 to 25 acres in the SE corner of the Sec.

4. ft. deep by 20 in. diameter, cased down 10 ft. pump bowl is down 240 ft. Static water H is 199 ft. U.S. motor; 150 h.p. 440 V. 180 amps. 1800 r.p.m. 60 cycle, 3 phase, No. 7419995. Pump is Worthington vertical turbine 14 QGE-3, Serial No. T 1332137. Bulldog switch panel 29264, mounted close by the pump. A large Idaho Power transformer installation located 50 ft. No. of the well. Pump and motor are mounted on a concrete base 6 ft. by 6 ft. delivery to the So. through a 10 in. pipe, 10 ft. long into a large concrete sump 4 ft. by 5 ft. by 6 ft. high. There is an 18 in. concrete pipe leading to a ditch to the East and also to one to the West. There is no house nor protection for either the No. or the So. well. Ditches are 2 $\frac{1}{2}$ to 4 ft. wide in the bottom and are laid out as per diagram on the map.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: These wells were measured at Mr. Blincoe's request by 2 men from the Rupert sub-office of the Burley office of the Bureau of Reclamation. See enclosed letter.

The So. well covers only a limited area of the place while the No. well can be used to irrigate all portions of the section.

This examination was made on the 24th day of April, 19 52(Signed) E. H. Humphrey Examiner.

Report 228

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

April 25, 1952

RECEIVED
APR 26 1952
Department of Reclamation

Mr. Mark R. Kulp
State Engineer
State House
Boise, Idaho

Attention: Mr. Humphries

Dear Mr. Kulp:

In answer to Mr. Humphries request of April 24, 1952, we are submitting the following data on Mr. D. Blencoe's wells.

On July 28, 1951 Mr. Boyd Walter and Mr. Leslie Jones of this office measured the flow of Mr. Blencoe's wells as follows:

Well Location	Elevation of Measuring Point	Depth of Static Water Surface on 2/16/51	Elev. of Static Water Surface.	Flow in c.f.s. on 7/28/51
NW $\frac{1}{4}$ Sec 16, T.8S.R.23E Approx 1290 ft north & 30 ft West of center of Section 16	4312.04	205.8	4106.2	4.80
SW $\frac{1}{4}$ Sec 16, T8S.R23E Approx. 1000 ft. north & 425 Ft. West of S $\frac{1}{4}$ cor. of Sec. 16	4303.34	199.67	4103.7	4.87

The flow measurements were made by the use of a portable Cipolletti weir. Stilling pool conditions were good and the measurements are believed to be accurate.

Depths to static water levels were made with a steel tape. The measuring points were on the concrete foundations. Elevation datum is Bureau of Reclamation which is 49.98 feet below mean sea level datum.

Our General Map, Drawing No. 701-107-2849 is being sent under separate cover, as requested by Mr. Humphries.

Very truly yours,

O. L. Kime

RE: Permit No. 21707

Mr. D. P. Blincoe
Heyburn
Idaho

Dear Mr. Blincoe:

Reference is made to office letter addressed you on September 22, 1951, in which we acknowledged proof of beneficial use under Permit No. 21707.

According to the published notice as well as the correspondence on file, this proof was really for completion of works although, through an oversight in our department, Mr. Fruit was sent the forms for making proof of beneficial use.

However, since the essential information necessary to make proof of completion of works is contained in the depositions sent, we can accept them as proofs of completion of works, and proof of beneficial use can be made at a later date, when the land has all been completely irrigated.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 21707

Mr. D. P. Blincos
Hayburn
Idaho

Dear Mr. Blincos:

9/18 -
We have received from Mr. F. J. Fruit, Notary Public, the depositions of yourself and two witnesses, also affidavit of publication in the Minidoka County News, all submitted in proof of beneficial use under Permit No. 21707.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO

Permit No. 21707

Completed by the holder
Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. D. P. Blincoe, Heyburn, Idaho, farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 21707, dated September 1st 1950

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Two subterranean wells,; 1st well located 1000 ft. N. & 425 ft. W. of SE cor SW $\frac{1}{4}$, Sec. 16, T 8 S R 23 E B M; 2nd well is 1290 ft. North and 30 ft. West of the exact center of Sec. 16, T 8 S R 23 E B M

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Wells 20" to depth of approximately 400 ft with water level of approximately 200 ft. depth; 1st well producing 4.80 cubic feet per second; 2nd well producing 4.87 cubic feet per second; both measurements made with a 2 foot crest standard cipolletti weir

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of Section 16, T 8 S R 23 E B M; have actually irrigated and under cultivation 543 acres, in parts of all legal subdivisions; and have entire section under cultivation.

21707

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Have actually irrigated approximately 543 acres of Section 16,
T 8 S R 23 E B M and have under cultivation the entire section for
all of which will use theses wells for irrigation

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign) D. J. B. Lincoln

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Rupert,
County of Minidoka, State of Idaho, on this 21st day of September,
A. D. 1951,

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21707

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ray Goff, age 26, residence Paul, Idaho, and
occupation farming.

Ques. 2. Are you acquainted with D. P. Blincoe - yes, the holder of Permit No. 21707? How long have you known him and where does he reside?

Ans. 1 years

Ques. 3. Have you read or heard read said Permit No. 21707 - yes, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two Subterranean wells; 1st well located 1000 ft. N. & 425 ft. W. of SE cor. SW $\frac{1}{4}$ Sec. 16 T 8 S R 23 E B M; 2nd well is 1290 ft. North and 30 ft. west of the exact center of Sec. 16, T 8 S R 23 E B M; wells are 20 inch and to depth of approximately 400 ft. with water level of approximately 200 ft. to depth;

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1st well 4.80 cubic feet per second; 2nd well produces 4.87 cubic feet per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1st well 4.80 cu. feet; 2nd well 4.87 cubic feet; measurements made with a 2 foot crest standard cippolletti weir.

21707

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used ofor irrigation of Section 16, T 8 S R 23 E B M and there is now under actual coultivation and irrigation approximately 543 acres of Section 36 T 8 S R 23 E B M; and all the land in said section is now ready for irrigation; all land will be cultivated and there is no natural meadow land on this section.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All of section 16, T 8 S R 23 E BM, has been reclaimed from sagebrush land, and I estimate that it will take all the capacity of the two wells located upon this section to water this land for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Am farming land adjacent to this property; and have also worked for appliaant this past irrigation season on the above described property and have observed and helped operate the pumps and observed the water flow from the two wells.

(Signed) Ray Jeff

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rupert, County of Minidoka, State of Idaho, on this 21st day of September, A. D. 19 51.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Henry A. Bill, age 27, residence Paul, Idaho,
Occupation farm labor

Ques. 2. Are you acquainted with D. P. Blincoe, the holder of Permit No. 21707? How long have you known him and where does he reside?

Ans. yes - known applicant two years

Ques. 3. Have you read or heard read said Permit No. 21707, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two subterranean wells; 1st well located 1000 ft. N. & 425 ft. W. of SE cor SW $\frac{1}{4}$, Sec. 16 T 8 S R 23 E B M; 2nd well is 1290 ft. North and 30 ft. West of the exact center of Sec. 16, T 8 S R 23 E B M; wells 20-inch; to depth of approximately 400ft. with water level of approximately 200 ft. depth;

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1st well 4.80 cubic feet per second; 2nd well produces 4.87 cubic feet per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1st well 4.80 cu. feet; 2nd well 4.87 cubic feet;
measurements made with a 2 foot crest standard cipolletti weir

21707

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation of Section 16, T 8 S R 23 E B M
and there is now acutually under irrigation this past season about
543 acres; all the land is now under cultivation

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All of Section 16, T 8 S R 23 E B M, which will need all the
capattty of the two wells located upon this section.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Worked on this property during the season of 1951 for the
applicant, and operated the pumps and did the irrigation of the land

July 30, 1951

Mr. Mark Kulp
State Reclamation Engineer
State House
Boise, Idaho

Dear Sir:

This will certify that on July 28, 1951, Mr. Leslie D. Jones and I measured the flow of water being pumped from two wells located in Section 16, Township 8 South, Range 23 East, Boise Meridian. Both measurements were made with a 2 foot crest standard cipolletti weir.

The first well measured was located approximately 1290 feet north and 30 feet west of the center of the section and was producing 4.80 cubic feet per second. According to Mr. Richard D. Blincoe, water from this well is utilized on the north $\frac{1}{2}$ of the section which is owned by Mr. D. P. Blincoe.

The second well was located approximately 1000 feet north and 425 feet west of the south one quarter ($\frac{1}{4}$) corner of Section 16. This well was pumping 4.87 cubic feet per second. This well serves the south $\frac{1}{2}$ of Section 16 which reportedly belongs to Richard D. Blincoe.

These two wells pumped water which was used to irrigate land in Section 16, Township 8 south, Range 23 east, during the 1950 irrigation season and are being used for the same purpose during the current season.

This will certify that on July 28, 1951, Mr. Boyd H. Walter and I measured the flow of water being pumped from two wells located in Section 16, Township 8 South, Range 23 East, Boise Meridian. Both measurements were made with a 2 foot crest standard cipolletti weir.

The first well measured was located approximately 1290 feet north and 30 feet west of the center of the section and was producing 4.80 cubic feet per second. According to Mr. Richard D. Blincoe, water from this well is utilized on the north $\frac{1}{2}$ of the section which is owned by Mr. D. P. Blincoe.

The second well was located approximately 1000 feet north and 425 feet west of the south one quarter ($\frac{1}{4}$) corner of Section 16. This well was pumping 4.87 cubic feet per second. This well serves the south $\frac{1}{2}$ of Section 16 which reportedly belongs to Richard D. Blincoe.

These two wells pumped water which was used to irrigate land in Section 16, Township 8 South, Range 23 East, during the 1950 irrigation season and are being used for the same purpose during the current season.

Re: Permit No. 21707

Rupert Abstract Company
Rupert, Idaho

ATT: Mr. A. C. Delmar

Dear Mr. Delmar:

We acknowledge receipt of your letter of July 27, 1951, in regard to Permit No. 21707 in the name of D. P. Blincoe.

While Form 7 states that notice should be mailed at least 60 days prior to the date for making proof, that is only to be sure that the notice reaches this Department in ample time to allow for the statutory four weeks publication, so the Notice for Completion of Works under this Permit has reached us in ample time.

A copy of the notice will be sent to the Minidoka County News with instructions to publish it once a week for four consecutive weeks prior to September 21, 1951, and to send Mr. Blincoe the Affidavit of Publication, together with statement of costs.

The Permit allows an extra year for making Proof of Beneficial Use or until September 21, 1952.

We shall send Mr. F. J. Fruit the necessary forms of deposition to be used in making Proof of Completion of Works, consisting of one for the Permit Holder and one for each of two witnesses and at the time set, Mr. Blincoe should appear before Mr. Fruit together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation

July 27, 1951.

Mr. Mark R. Kulp,
STATE RECLAMATION ENGINEER,
Boise, Idaho.

Dear Sir:-

Permit #21707 D. P. Blincoe.

Mr. Blincoe has just brought in this permit and also a copy of the instructions issued by your office on July 2, 1951 stating that proof MUST be submitted on or before September 21, 1951 .

This Form #7 also states that a form should be filled out and mailed to your office at least 60 days prior to the date for making proof. The only form he has given us is #11.

Apparently there is not time now to give this notice 60 days prior to Sept. 21st and we would like to have you indicate what must be done. The Application for Permit has been in the hands of a local attorney.

However, we are enclosing Form #11 signed by Mr. Blincoe and two copies of Form #8, Notice for publication.

Yours truly,

RUPERT ABSTRACT COMPANY,

By

21707
A. C. Demary

Mr. Blincoe can only submit proof of completion of works, as about 100 acres of the land have been irrigated but not cropped.

b/W 9-21-52

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date)..... July 26, 1951.

(P. O.)..... Heyburn, Idaho.

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Minidoka County News of Rupert, Idaho published in
the county in which the works are situated.

D. R. Blinn

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. D. P. Blincoe

Heyburn, Idaho

Boise, Idaho, July 2, 1951

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21707.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before September 21, 1951. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A.M. on the 15th day of September, 1952, at Rupert, County of Minidoka, State of Idaho, before Floyd J. Fruit, a Notary Public, proof will be submitted of the application to beneficial use of 9.67 cubic feet per second of the waters of two wells in accordance with the terms and conditions of Permit No. 21707 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are D. P. Blincoe, Heyburn, Idaho.

The use to which said water has been applied is irrigation of 640 acres.

The amount applied to beneficial use is 9.67 cubic feet per second.

The place where said water is used All of Section Sixteen (16), in Township Eight (8) South, Range Twenty-three (23) East of the Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Well No. 1 & 2 in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 16, Twp. 8 South, Range 23 East, B. M.

The right to take water from such works is based upon Permit No. 21707.

The source of supply from which such water is diverted is subterranean from wells.

The date of priority which said user is prepared to establish is September 20, 1950.

NOTICE FOR PUBLICATION

Notice is hereby given that at 10 a. m. on the 21st day of September 1951, at Rupert, County of Minidoka, State of Idaho, before F. J. Fruit, Notary Public proof will be submitted of the completion of works for the diversion of ten cubic feet per second of subterranean water pumped from two wells in accordance with the

terms and conditions of a certain permit heretofore issued by the State Reclamation Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is D. P. Blincoe.

2. The postoffice of such person or principal place of business of such corporation is Heyburn, County of Minidoka, State of Idaho.

3. The number of such permit is 21707, and the date set for the completion of such work is September 21, 1951.

4. Said water is to be used for irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is ten cubic feet per second.

6. The amount of lands for which said water is available is 640 acres, particularly described as follows: all of Section 16, township 8 south of range 23 E. B. M.
