The Office of Idaho Reclamation Engineer
State House, Boise, Idaho

Gentlemen; Attention of Mr Kulp

First I want to try and explain my failure to be at the right well last Friday after what seemed to have been a very definite appointment with your Mr Humphrey.

The mix up was caused I believe, by the fact that we have what appears to be a final instrument from the U.S. Department of the Interior, Land Management conveying title to the land and well in Jerome County. This coupled with the fact I did not know an inspection was required before final clearance of title after water and land was in full operation and production by the entryman, caused my hasty assumption that it was the later well and land in Lincoln County. My arrival at the well was at Eleven O'clock and I waited until after 2 PM; and finally concluded that Mr Humphrey had been unavoidably detained and could not fill the appointment.

While I deeply regret the misunderstanding and failure to meet Mr Humphrey at the right well, I would appreciate hearing from you as to present status and penalty if any, for my failure in meeting him.

Yours very truly,

Permit No. 21577

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Enoch M. Wall, residence is Buhl, Idaho, occupation is farming and agriculture and P. O. Address is 86, Buhl, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is 21577, the date is 7/6/50, the date of priority is 6/30/50.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source of my water is underground water (subterranean) and my drilled well is located in the NW corner of NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 13, T. 10 S. R. 20 E. B. M. This is my point of diversion.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. My works consist of drilled well 437' deep with 22" casing which has a lift of 340' and is equipped with turbine type pump and motor (200 h.p.) cased approximately 10'. I have a private ditch, 18" bottom, 2 $\frac{1}{2}$ ' deep and 3' top and some 4 miles in length. All distribution is by gravity system and is capable of diverting my works, the ditches and my well is capable of producing 219". This was measured by the pump company (Layne-Bowler

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. The place of use is T. 10 S. R. 20 E. Section 13, SW $\frac{1}{4}$, Section 24, NW $\frac{1}{4}$. I irrigate the entire area, there is a small acreage out for roads, ditches and feed lots as well as dwelling. This is by cultivation, there is no natural meadow on the land and as a result of this irrigation use, I have spent \$6100.00 on well, \$12000.00 on pump and motor, \$2560.00 clearing and breaking the land, \$17000.00 in seed bed preparation and leveling and irrigation ditches, \$1600.00 in concrete pipe line and \$300.00 in concrete irrigation checks and dams, making a total here of \$39,560.00. All this improvement made is a direct result of this irrigation use.

21577

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

1 Ans. In my opinion, the 219 inches is the minimum that could be used on this amount of land for agricultural production.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who took out this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This water was first tested in 1953 and I raised crops in 1954 and 1955 (1953 I had the full acreage and also in the other two years)/219 miner's inches.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are no other waters diverted or used to any beneficial use on this land.

Permit No. 21577

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Glen Massey, my age is 68, I reside at 624 14th Ave. So. Nampa, Occupation is office manager, P. O. address is 88, Nampa, Idaho.

Ques. 2. Are you acquainted with Enoch M. Wall, the holder of Permit No. 21577? How long have you known him and where does he reside?

Ans. I have known him 30 years and know that he resides at Buhl, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21577, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A drilled well, point of diversion is NW corner of NW 1/4 SW 1/4, Sec. 13, T. 10 S. R. 20 E. The works consist of drilled well 437' deep, lift of 340', 22" casing and is equipped with turbine type pump and 200 h.p. motor, cased approximately 10'. Private ditch with 18" bottom, 3' top and 2 1/2' deep and 4 miles in length. All distribution is by gravity and the works are capable of producing 219 miner's inches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate said works will produce 219 miner's inches and I have seen this so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 219 inches and I make this estimate from my experience in having seen pumps measured and in irrigating.

21577

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Purpose of water is for irrigation on SW¹/₄ Section 13, NW¹/₄ Section 24, T. 10 S. R. 20 E. B. M. The entire area is irrigated except for small acreage for roads, dwelling, etc. This is by cultivation and there is no natural meadow land. The improvements are: well, pump & motor, concrete pipe line and concrete irrigation checks and dams, clearing and breaking, seed bed preparation, leveling and ditching, and all improvements are made as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Only irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is deep, fertile portneuf silt loam, very productive when irrigated and in my opinion the 219 miner's inches is the minimum that could be used for cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have gone through this area more than once a year since it has been developed and have examined it carefully at least once a year.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Enoch M. Wall
Box 68
Buhl, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21577 you are required to complete your diversion works on or before July 6, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
