RE: Permit No. 20535

Mr. Floyd J. Fruit
Notary Public
Rupert, Idaho

Dear Mr. Fruit:

We acknowledge receipt of your letter of September 5, 1953, enclosing deposition of Wilbert H. Moller and two witnesses, also affidavit of publication in the Minidoka County News all submitted in proof of Completion of Works and Beneficial Use on permit No. 20535 in the name of Wilbert H. Moller.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact Mr. Moller at the time he makes the examination in order that he may arrange to show him over the ground.

Very truly yours,

Mark R. Kulp,
State Reclamation Engineer

Permit No. 20535

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Wilbert H. Moller, Rupert, Idaho, Farmer, 824 Sixth Street

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ----

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #20535 dated July 16, 1948. Date of priority - July 9, 1948.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean source. Point of diversion is a well located in the SW corner of the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 16, TWP 8 S., Range 24 EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Works consist of a 125 h.p. Peerless turbine pump, 141 ft. of 10" column with 2 $\frac{1}{2}$ " shafting, 20" well to depth of 200 ft. with private ditches and laterals, capable of delivering all of the water claimed to place of use. The pump delivers 225 inches and was determined by pisometer test by a registered engineer and the pump dealer.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes in the following subdivisions:

NW $\frac{1}{4}$ (160 acres) and SW $\frac{1}{4}$ (160 acres) of Sec. 16, Twp. 8 S., Rge 24 EBM

20535

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. -----

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 4.5 cu. ft. per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Purchased from Fred L. Wilson, original holder of the permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This water was first applied to beneficial use in May, 1949, and has been used for irrigation of crops every since then. 4.5 cu. ft. of water has been applied to the land through private ditches.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Walbert H. Wolfe

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Rupert, County of Minidoka, State of Idaho, on this 4th day of September, A. Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. GEORGE E. REDFORD, 33 years of age, 917 5th Street, Rupert,
Idaho, Lawyer, P.O. Box 276, Rupert, Idaho.

Ques. 2. Are you acquainted with Wilbert H. Moller, the
holder of Permit No. 20535? How long have you known him and where does
he reside?

Ans. Yes. I have known him my entire lifetime.

He resides at 824 Sixth St., Rupert, Idaho

Ques. 3. Have you read or heard read said Permit No. 20535, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source of water supply is subterranean, place of diversion is in
the NW 1/4 of Sec. 16, Twp. 8 S., Rge. 24 EBM, and works consist of a deep
well turbine pump which delivers the water to private ditches and on to
place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 6.4 cu. ft. I have seen 4.5 cu. ft. of water conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver 225 inches of water by measurement
of a registered engineer and the pump dealer (pisometer test).

20535

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of crops in the following subdivisions:
NW $\frac{1}{4}$ (160 acres) and SW $\frac{1}{4}$ (160 ares) of Sec. 16, Twp 8 S., R. 24 EBM

The land is cultivated and has been improved by leveling and building
ditches for conveying water.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of the land reclaimed is desert with sagebrush, and I
estimate the amount of water required for profitable cultivation would
be at least 225 inches.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ----- No. -----

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the application to beneficial use of this water
on crop seasons for 4 years. It has been applied by use of private
ditches in the amount of at least 225 inches to the best advantage of
irrigating the crop planted at the time.

Dear Mr. Duffin:

We have your letter of July 25, 1953, requesting forms to be used for proof of completion of works and beneficial use on Permit No. 20535, originally issued to Fred L. Wilson and assigned by him to Wilbert H. Moller.

On May 1, 1953, notice was mailed Mr. Moller calling attention to the fact that proof of completion of works was due on or before July 16, 1953. As you know, this date is past and the proof has not been made.

However, if the works are completed and the water applied to beneficial use, notice can be made on Form 36 enclosed, both copies returned to this department together with Form 11.

We shall then send a copy of the notice to the designated newspaper for publication.

When the proofs are made, Mr. Moller and his two witnesses should definitely state that the works were completed on or before July 16, 1953, if such is the case. Otherwise, the permit is subject to cancellation.

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 20535.....you are required to complete your diversion works on or before July 16, 1953..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
