WATER RIGHT LICENSE

License of Water Right No. 34-7044 Priority September 19, 1973 Amount 3.21 cfs

THIS IS TO CERTIFY, that Terrence V. Donahue
of Mackay, Idaho, has complied with the terms and conditions of Permit
No. 34-7044 issued pursuant to Application for Permit dated September 19, 1973
and has submitted proof to the Department of Water Resources on September 22, 1978
that he has applied water to a beneficial use, to wit: examination by the Department indicates that the works have a
capacity for the diversion of 3.21 cfs of water from a groundwater source
tributary to _____ that the permit holder applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from April 1 to October 15	at 3.21 cfs and	720.0 acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	
(both dates inclusive)			

Subject, however, to the condition that no more than 3.21 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and returned is for the purpose
aforementioned and is limited to the amount which is actually or beneficially used and shall not exceed
720.0 acre feet per year, and waters to be diverted within the SE1/4, Section 14, Twp.
8N, Rge. 22E _____ in the County of Custer

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 1999.
2. Subject to all prior water rights.
3. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
4. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
5. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
6. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 34-07585

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 34-07585

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 34-07585

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

SEP 18 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

1. Name of Applicant Terrence V. Donahue Phone 588-2298
Post Office address 5448 Fish Hatchery Rd Mackay, Idaho 83251
2. Source of water supply ground water which is a tributary of N-A
3. Location of point of diversion is NE 1/4 of SE 1/4 of SE 1/4, Govt. Lot _____
Sec. 14 Township 8N Range 22E B.M. Custer County; additional points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 1.6 for irrigation purposes from Apr 1 to OCT 15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 1.6 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Ditch & ditches
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet; period of year when water will be diverted to storage: _____ to _____ inclusive.
c. Proposed well diameter is 20 inches; proposed depth of well is 125 feet.
d. Is ground water with a temperature of greater than 85°F being sought? NO
e. If well is already drilled, when? 1973; Drilling firm Lambert Well Drilling
Well was drilled for (well owner) Terrence V. Donahue (1)
7. Time required for completion of works and application of water to proposed beneficial use is NA years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
a. Hydropower; show total feet of head and proposed capacity if KW. _____
b. Stockwatering; list number and kind of livestock _____
c. Municipal; show name of municipality. _____
d. Domestic; show number of households. _____
e. Other; describe fully. _____

MICROFILMED

SEP 18 1998

We drilled this well in 1973. The same pump motor is still in operation today. The 1983 earthquake damaged the boulders beyond repair. We had to replace them and the inside casing as it was egg-shaped rather than round after the quake. The new boulders are of the same exact dimension as the originals. Also, neither well depth or well diameter have been enhanced from the original specs given on the 1973 application or subsequent 1978 license.

This additional diversion occurred prior to the moratorium on new ground water appropriations in Big Lost River Valley. We are just asking for the diversion rate that we originally applied for in 1973.

There are no wells within one mile of our well, so I would not think we would infringe on any other water rights by our additional diversion rate.

Also, any water that does not go into the ~~spin~~ system goes right back into the aquifer of the Big Lost River.

RE: Application for Permit #34-07585

Dear Applicant:

This office is currently in the process of advertising the application in the Challis Messenger on July 16 and 23, 1998. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

Re: Terrence Donahue
Well # 315 Power Pole #257

To Whom It May Concern:

The irrigation well #315, pole #257 owned by Terrence and Carol Donahue has been measured for volume two times.

The first time it was measured by Doug Rosenkrance, Water-master for Water District #34 in Mackay, Idaho. It measured 4 CFS which is equal to 200 Miners Inches. This measurement was made by using a Square. It was taken in July of 1993.

The second time that it was measured was by Scott King and Doug Rosenkrance. Scott King was representing the Idaho Department of Water Resources. It measured 1800 Gallons Per Minute which is equal to 200 Miners Inches. This measurement was taken in July of 1993 by using a Sonic Flow Meter.

Conditions which may have effected the volume at which the pump was pumping was the fact that this was taken following the second driest year in recorded history for Water Dist. #34 which was 1992. The underground water table level may have been low which possibly could have affected the volume that the well was pumping.

Thank you,

Sincerely,

Doug Rosenkrance
Watermaster, Water
Dist. #34

Re: Terrence Donahue Well Pump
34-07044

Dear Mr. Jones,

I measured the well for water right #34-07044 in 1987 using a square and found it to be pumping 200 Miner's Inches at that time.

I recently inspected his pump again and identified it as being the same pump that I inspected and measured in 1987.

The pump model # is 5K6258XHIA serial #BKJ213503. It is a Ge tri-clap pump. It is a 75 Horse power Johnson V.T. 5030, and it is located at power pole #257.

This same pump was measured in 1994 with a Sonic Flow Meter and found to be pumping 200 Miner's Inches.

Please let me know if I can be of any more assistance.

Thank you.

Sincerely,

Doug Rosenkrance

RE: Water Right No. 34-7044

Dear Mr. Donahue,
A representative of this Department made an examination of the works covered by your Permit No. 34-7044 on June 27, 1979, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 3.21 cfs Source: groundwater

The maximum quantity diverted shall not exceed 720.0 acre feet
per year.

Point of diversion: SESE Sec. 14, Twp 8N, Rge 22E.

Beneficial use: Irrigation of 16 acres in the SWSW Sec. 13, 36 acres
in the SESE Sec. 14, 7 acres in the NENE Sec. 23, 136 acres in the
NW, 55 acres in the N1/2SW Sec. 24.
Priority date established: September 19, 1973

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Sincerely,

Jim Johnson
Water Rights Supervisor

Department of Water Resources

License of Water Right No. 34-7044 Date September 19, 1973 Page 3 of 21 cfs

THIS IS TO CERTIFY that Terrence V Donahue
of Mackay, Idaho is composed with the City of Bonanza of Bonanza
No. 34-7044 associated with a Permit dated September 19, 1973
and has submitted proof to the Department of Water Protection September 22, 1978
that he has applied water to a beneficial use as required by the Department of Water Protection
applies for the diversion of 3.21 cfs to the City of Bonanza a groundwater source
entirely to the City of Bonanza for the purpose of irrigation and
the City of Bonanza is a water user.

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from April 1 to October 15	at 3.21 cfs	720.0 acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	
	(both dates inclusive)		

Subject, however, to the condition that no more than 3.21 cfs of water, diverted at any time and that the amount of water so diverted shall not be used for any other purpose than the purpose so mentioned and is limited to the use of the water for the purpose of the water right shall not exceed 720.0 acre feet per year and the water right shall be subject to the provisions of SE, SE', Section 14, Township 8N, Range 22E, County of Lincoln, Nebraska, and the provisions of the Nebraska Water Compact (Chapter 17, R.S.Neb.)
