JUL 12 2002

Department of Water Resources

Dear Water Right Claimant(s):

Attached to this letter is a copy of an **Order Amending Irrigation Period of Use Element in Partial Decree, Nunc Pro Tunc** (hereinafter "**Order**") for water right number 34-10568. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The purpose of the **Order** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the **Order**, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This **Order** also incorporates into the **Partial Decree** an express statement that the **Partial Decree** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This **Order**, in combination with the **Partial Decree** that was issued for this water right on February 24, 1998, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the **Partial Decree** to show evidence of this water right. The original of this **Order** and the original of the **Partial Decree** for this water right are on file with SRBA Court. If you do not have a copy of the original **Partial Decree**, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the **Order** is entered **Nunc Pro Tunc**, meaning that the **Order** will be treated as if it were issued on the same date that the **Partial Decree** was originally issued.

Sincerely,

Diana Delaney

A *Partial Decree* was entered for the above-captioned irrigation water right on February 24, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist v Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report. Reporting Area 1, IDWR Basin 34, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 05-01 to 10-15

The period of use for irrigation described above may be extended in seasons of unusual characteristics to a beginning date of 04-20 and an ending date of 10-31 at the discretion of the Director of the Idaho Department of Water Resources.

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

34-10562, 34-10567/68

Dear Mr. & Mrs. Donahue:

The Department of Water Resources acknowledges receipt of the information you submitted in support of your Notice of Change in Water Right Ownership filed on July 17, 2002 for the water right no(s) referenced above. The Snake River Basin Adjudication (SRBA) Court issued a partial decree describing the water rights with a place of use different than your property as described in the documentation you originally submitted. We have reviewed your information and found that it is not sufficient to resolve the place of use discrepancy.

In order to process your change in ownership, we need documentation to show that you own the water right(s) or the property described as the place of use for the water rights. (This involves **2 acres in SWSE of T8N, R22E, S14.**) If you believe that the SRBA Court issued the partial decree(s) with an error in the description of the place of use, you may be able pursue one of the following options with the Court

- 1) Motion to set-aside – a motion filed with the SRBA Court which, if granted, would provide a process to correct the partial decree. You would need to provide justification for the correction.
- 2) Motion to file late claim – a motion filed with the SRBA Court which, if granted, would allow you to file a new claim for your existing water use. A late claim would be investigated for validity and accuracy by the Department.

Please contact Roxanne Brown of this office at 327-7900 if you have questions related to the SRBA. Ms. Brown can assist you with the SRBA Court's processes.

MICHAEL J. BROWN

July 29, 2003

As additional alternatives, you could pursue one of the following options with the Department.

- 1) New Appropriation – an application for permit filed with the Department to develop a new water right. If a permit is approved, the priority date is the date that the application is filed. Some areas of the state are closed to new development. Please note that a water right permit is not required for certain domestic uses from a ground water source.
- 2) Water Right Transfer – an application filed with the Department to change an existing water right. In this case, the purpose of the transfer would be to change the place of use (and possibly the point of diversion) to your property description. You would need to provide evidence of ownership or authorization from the current owner of record before the Department could process the application.

If you choose to file an application for permit or transfer with the Department, you may be able to apply any fees submitted with your Notice of Change in Water Right Ownership to the application. Please contact staff from the Water Right Permits section of this office if you have additional questions related to the applications described above.

Please let us know within **30 days** how you plan to proceed. If we do not hear from you within 30 days we will return your Notice of Change in Water Right Ownership and all attachments and refund any fees submitted with your notice.

Sincerely,

Kari Lynn Townsend
Secretary

34-774, 34-774, 34-10567, 34-10568

Dear Mr Donahue

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

✓ **Legal Description of Property**

During our review of the documentation you submitted we found some discrepancies between that documentation and the legal description of the place of use for the water right(s) indicated in your notice. Each of the above listed water rights includes land in the SWSE of Section 14 but your documentation shows land in the SESE of Section 14. Please provide documentation showing your ownership of land in the SWSE of Section 14. If a split of each water right needs to occur, there will be additional filing fees required.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

If you have any questions regarding this matter, please call me at 208-327-7941.

FROM: Pam Skaggs^{PS}/State Office

SUBJECT: Transfer 4087

DATE: July 22, 1999

Transfer 4087 changes the place of use under the above referenced rights, shifting 6 acres to accommodate installation of a pivot. This is the second of three (3) transfers reconfiguring the groundwater (Transfer 4086) and surface water (Transfers 4087 & 4088) rights used to irrigate a total of 410 acres.

The transfer was originally delayed due to SRBA recommendations including expansion claims. The issue was resolved and the rights reformatted to reflect the enlargement statute and partial decrees issued. See Carter Fritschle review memo of 03-29-99 for the specific changes made under these three transfers

Recommended conditions include watermaster control, measuring device, irrigation overlap, combined right limits and standard transfer conditions.

Dear Mr. Donahue:

On February 4, 1993, the Department of Water Resources (IDWR) received your Application for Transfer of the above referenced right(s). Though processing of the application(s) was initiated, final administrative action is being withheld.
