RE: Water Right No. 34-7546

Sharon Weller
U.S. Dept. of Agri.
Agricultural Research Service
U.S. Sheep Experiment Station
Dubois, ID 83423

Dear Ms. Weller:

In a letter to Sharla Curtis of this office, you expressed concern over the name listed on the license which was recently issued on the above referenced right. I offer the following in response.

The license was issued in the name of U.S. Sheep Experiment Station. This incomplete name entry has since been changed in our computer records to reflect data entry standards. The entry is now listed as: US DEPT OF AGRICULTURE, AGRICULTURAL RESEARCH SERVICE, US SHEEP EXPERIMENT STATION.

It is true that our computer system can accomodate an entry such as "United States of America, Acting Through (agency name)". It is also true that the Snake River Adjudication has allowed U.S. agencies to file their claims using this format. In this matter, the United States has received the same treatment as any other claimant.

As you are probably aware, there are two distinct bureaus dealing with water rights in this agency. The Adjudication Bureau has adopted a policy of allowing a claimant the freedom to file a claim in any name format they desire. However, the "standardized" entry as highlighted above is also preserved in each of the rights. The Water Allocation Bureau (which issued the license) is involved in the process of issuing new water rights and licenses for developed permits. A large function of this bureau is to provide water right information to the public. For this purpose, it is imperative that certain data entry standards are maintained for accurate database retrieval of water rights by name.

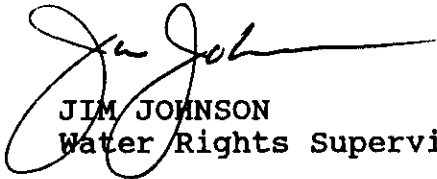

I have enclosed a couple of copies outlining some of the standard name entries we have implemented. I'm sure you can understand the problems we would have if we started allowing deviations to serve every individual agency's purpose.

Page 2

Please consider that a water right license is considered real property; proof of owning the water right is evidenced by proof of owning the land to which it is appurtenant. A license issued in the name of the US Dept. of Agriculture has no less legality than one issued in the name of the United States of America.

You made a statement in your letter that if a general adjudication were ever to address these rights, the only party over which Idaho might have jurisdiction will be the United States. Please be aware that the ongoing Snake River Basin Adjudication is addressing these rights and any further adjudication procedures would also enjoin the United States on behalf of all federal agencies. The Department's jurisdiction in water right matters is not contingent upon whether a right is listed under United States of America or the US Dept. of Agriculture.

Sincerely,

Dear Ms. Curtis:

Water Right No. 34-07546

By letter dated December 11, 1991, we advised your office that the claimant for the above right should be listed as "United States of America, on Behalf of USDA-Agricultural Research Service, U. S. Sheep Experiment Station." We note that despite this request the Water Right License dated December 20, 1991 continues to incorrectly list the claimant as "U. S. Sheep Experiment Station."

By telephone call with you on January 17, 1992, you advised our legal counsel, Kenneth P. Pitt, to send you a letter addressing this matter. You also advised Mr. Pitt that your computer system could handle the correct listing, and that those rights on the "Snake River Adjudication side" did list federal rights as being owned by the United States of America.

Pursuant to Idaho Code 42-202 (1991) the United States only requests the same treatment as any other claimant in that it be able to have its rights listed in a correct and legal manner. Indeed, should a general adjudication ever address these rights, the only party over which Idaho might have jurisdiction will be the United States, rather than one of its agencies (43 U.S.C. 666; see generally, American Falls Reservoir Dist. No. 2 v. Crandall, 82 F.2d 973 (1936)).

Thank you for your attention to this matter. I look forward to working with your office to resolve this issue in a manner which will satisfy our respective legal needs.

Sincerely,

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

$$Q = \frac{hp (8.814) (eff)}{Lift + (PSI \times 2.308)}$$

$$hp = 25 \quad eff = 70\%$$

$$psi = 15 - 30psi = 22.5psi$$

$$Lift = use static level = 163'$$

$$Q = \frac{25 (8.814) (0.7)}{163 + (22.5 \times 2.308)} = 0.717 \text{ cfs}$$

$$assume Lift = 163 + 62' = 225' \text{ pumping depth}$$

$$Q = \frac{25 (8.814) (0.7)}{225 + (22.5 \times 2.308)} = 0.556 \text{ cfs}$$

$$Even @ pumping depth = 540' \quad Q = 0.26 \text{ cfs}$$

∴ System can easily deliver 0.26 cfs under permit.

Re: Permit No. 34-7546

The department received the proof of beneficial use form and \$100 license exam fee. The proof was submitted, however, with a diversion rate of 0.17 cfs. The license exam fee for this amount is \$50. I have requested a \$50 refund be prepared and sent to you.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Eastern Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions, please contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 34-07546

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 31-7412

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

PLEASE NOTE THE REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.

CONVERSATION MEMORANDUM

DATE March 6, 1986

FILE 31-7412

NAME OF PARTY Charles Parker

EMPLOYEE Ernest Carlsen

RE: Quantity requested for irrigation:

During a telephone conversation I explained the statutory limitations on the amount of water the Department could approve for irrigation without the justification. After comparing crop requirements with volume delivered at different diversion rates he agreed to a reduction from 0.12cfs to 0.09cfs for irrigation, and the corresponding reduction in total amount requested for appropriation from 0.29 to 0.26.

Mr. Parker also asked that the time required to complete development be changed from one year to five years.

To expedite these changes Mr. Parker consented to the application being modified based on our telephone conversation.
