Dear Sir:

Enclosed are copies of your approved applications for permit. We direct your attention to the conditions of approval on the fourth pages.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and must proceed diligently until the project is completed. The enclosed blue cards must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

Please be advised that numerous prior applications for permit have been filed to appropriate water from your sources, listed on Permit Nos. 34-7415 and 34-7417, to be used on desert land entry and/or Carey Act lands. Development of these water rights is currently prevented by the U.S. Bureau of Land Management. However, if the lands are released for development, the associated water rights will receive water prior to your water rights enclosed. Therefore, be sure to analyze the future impact of these rights before making a major investment in a water supply system.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licenses.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section
