WATER RIGHT LICENSE

License of Water Right No. 34-7225 Priority January 4, 1979 Amount 2.18 cfs

THIS IS TO CERTIFY, that A. Larry Quist
of Arco, Idaho, has complied with the terms and conditions of Permit
No. 34-7225 issued pursuant to Application for Permit dated January 4, 1979,
and has submitted proof to the Department of Water Resources on August 8, 1983,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 9.11 cfs of water from Big Lost River,
tributary to sinks, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to November 1</u>	<u>at 2.18 cfs and</u>	<u>327.0 acre feet</u>
_____	<u>from _____ to _____</u>	<u>at _____ cfs and</u>	_____
_____	<u>from _____ to _____</u>	<u>at _____ cfs and</u>	_____

(both dates inclusive)

Subject, however, to the condition that no more than 2.18 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
327.0 acre feet per year, said waters to be diverted within the NE1SW1 Section 17,
Twp 3N, Rge 27E in the County of Butte

Description and location of place of use:

CONDITIONS OF APPROVAL

a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

Use of water under this license is subject to control by the watermaster of State Water District No. 34, Big Lost River.

A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

The maximum combined rate of diversion under this right and Right No. 34-7149 shall not exceed 9.11 cfs.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 18th day of September, 19 86.

Dear Mr. Quist:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power. While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

MEMORANDUM

TO: File

DATE: February 28, 1979

FROM: Jim Johnson

This morning I talked to Ernie Carlson to get additional information about this Application.

The purpose of the Application is so water can be diverted directly from the Big Lost River during the early part of the growing season.

The applicant has a 150 inch decreed right for the same land from the Big Lost River which is delivered through the Arco Canal; however, he does not receive this water until after the growing season has begun. This Application will give him opportunity to irrigate his land before the Arco Canal starts their diversions.
