Gentlemen:

One of the conditions of approval of your water Permit No. 34-7211 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Sirs -

In order to obtain a water license we evidently need an application of beneficial use. We have the pump in the well and will be irrigating hay in the spring. Our mobile home is established and the well is hooked up to it for domestic use.

Dear Sirs:

Your approved copy of Application for Permit No. 34-7211 is enclosed and we direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

MICROFILMED

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

Dear Sirs:

We recently received your application for permit to appropriate the public waters of the State of Idaho. As no statutory filing fee was submitted with the application and as several corrections are necessary, we are returning the application to you for revision.

The following corrections have been determined to be necessary:

Under item 3(a), 8(a)1, 8(b), indicate the point of diversion and place of use as the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 31, Township 4N, Range 27E, B.M., Butte County.

Under item 10 (remarks), you may wish to indicate why Mr. Jardine's name appears as an applicant as you indicate ownership of both the proposed irrigated lands and ownership of land occupied by the point of diversion.

After making the above corrections, please resubmit to the Department the revised application together with the statutory filing fee of \$10.00. If I can be of any further assistance, please call me at the Department of Water Resources.

Very truly yours,

ANTHONY R. KOZLOWSKI
