Enclosed is a copy of the Water Right License issued on the above referenced permit along with a copy of the approved Application for Amendment. Also enclosed is Departmental Receipt No. 39281 in the amount of \$20.00.

During the field examination under this permit, the examiner noted that irrigation of additional land not covered under this water right was occurring. A research of our files did not show a water right appurtenant to these lands. We therefore recommend that you apply for a water permit.

If we can be of any assistance or if you have any questions, please let us know.

Dear Mr. Waddoups:

We are in receipt of the licensing amendment for the above referenced permit, your Check No. 92-361/1241 - 1175 in the amount of \$20.00 and your note stating that Mr. McCormick has sold the property under the permit to you. We cannot, however, accept your signature on the licensing amendment until we have received verification of your ownership.

In Idaho, a water right permit is considered personal property and only the permit holder can take action to amend the permit. In this case, we must return your check and the licensing amendment until we have received either an "Assignment" of the permit or a copy of your purchase agreement. If you submit a copy of your purchase agreement it must specifically list the water right permit by number in order to be acceptable. In case the permit is not specifically identified on your agreement I have enclosed an "Assignment of Permit" form for your convenience. This form must be signed in the presence of a notary public by Mr. McCormick, as he is the permit holder.

Once you have submitted your proof of ownership we will be able to accept the licensing amendment and your check. We will not take any further action towards licensing this permit until October 15, 1986. If we have not received your proof of ownership, the amendment and \$20.00 fee by then, we will once again request Mr. McCormick take action towards licensing the permit.

If you have any questions in regard to this matter, please feel free to contact our office.

Dear Mr. Bleak:

One of the conditions of approval of your water Permit No. 34-7066 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

I have a request from Mr David Bleak to furnish you with some soils data for his farm.

He has soils that are moderately deep and gravelly loam. It takes a large head of water to push the water through on the border type irrigation. It would be my recommendation in his situation to allow more than the One I.M.I to the acre on this farm. This farm also has high ditch losses because of soils
