ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

I, A. KENNETH DUNN, Director of the Department of Water Resources hereby APPROVE Application for Amendment of Permit No. 34-7037 pursuant to the Order Adopting Proposed Memorandum and Proposed Memorandum Decision and Order.

Witness my hand this 19th day of May, 19 86

A. Kenneth Dunn
Director

March 2, 1981

Idaho Department of Water Resources
150 Shoup Ave
Idaho Falls

I am protesting the drilling of these wells in this area as I contend that the only additional wells in Lost River Valley should be drilled on the parcel of land where they are to be used; that is, used for supplementing the existing water rights on that particular parcel of land. I believe that wells drilled to take water out of the district is unnecessarily lowering the watertable until the time will come that present wells will be dry

Reuben W Babcock

PUBLIC NOTICE

NOTICE OF PROPOSED AMENDING OF WATER PERMIT

Notice is hereby given that Permit No. 34-7037 in the name of Crater Farms Inc. was issued for the diversion of 12.0 cfs of water from a ground water source with the points of diversion within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E, B.M., Butte County; to be used for the irrigation of 1,680 acres from April 1 to November 1 within the W½, Sec. 14; Sec. 15; N½, Sec. 22; NW¼, E½SW¼, SE¼, Sec. 23; T. 3N, R. 26E, B.M.

The permit holder now proposes to amend Permit No. 34-7037, changing the points of diversion to within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; NE¼NW¼, Sec. 3, T. 4N, R. 26E, B.M., Butte County. Groundwater from the last two wells listed will be discharged into the Island Canal, then conveyed through the East Side Canal to the Big Lost River where it will be rediverted to the place of use through the Muncey Ditch.

Any protest to the proposed amending of this permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401 on or before March 2, 1981.

To the Idaho Dept. of Water resources.

I protest this water permit and two counts.

1. That there are too many wells in the vicinity of the proposed diversion of water.

2. With the great amount of pumping under ground water and not using it on the adjacent property to recharge the side; but conveying it 8-10 miles down stream, is having an adverse effect upon flood irrigators especially because of the depletion of the underground supply.

Thank you

Seth E. Beal

Idaho Dept of Water Resources

Dear Sirs

I Lamar Andersen protest the amending of water permit # 34-7037 for the following reasons.

1- The wells that are permitted to pull water from the under ground and take it out of the valley is effecting the sub-irrigated land. Also it is lowering the water table and effecting the irrigated land. Also the Canal system isn't big enough to handle the water for the users now.

Dear Sirs;

I protest the granting of the amendment of Permit # 34-7037-

My reasons are as follows:

1. the proposed water cannot be carried by the existing canals, as they are used to capacity now- the irrigation district cannot afford to expand facilities in order to transfer water out of the district-

2- According to the water regulations, no amendment will be allowed to increase the amount of water used or available to a piece of property- In this case, the existing well will also be used, so the permit will be doubling the amount of water-

3. No more wells should be permitted until a study is done to show whether more water is available than has been filled on-

thank you-

David B Bleak

MICROFILMED

Moore, Idaho
February, 25, 1981

Idaho Department of Water Resources
150 Shoup Avenue
Idaho Falls, Idaho

To: Mr. Stephen Allred

As a long time farmer in Lost River Valley, (Since 1953) I have watched this water transfer from the valley proper via dug wells for some time and with growing apprehension. It is beginning to have its effect. Within the existing water District we are suffering more water srink in our canal systems, flood irrigated lands will not irrigate through like they used to, some will not carry the water through at all any more like they used to because of a lowered water table, and my well with a patent right of 1961 decreases about 40% in volume of output when the big wells a few miles above me are started up.

I feel that we are losing our birth right. Also I feel that the total capabilities of the water resources in this valley now is streched to the limit. I feel it is far better to arrest this transfer now than let it continue to the point towhere it places our entire valley in jeopardy.

Mr. Stephen Allred,

I am a land owner and tax payer here in Butte County. I live with in the boundries of the Big Lost River irrigation District. I own 50% of a deep well.

I feel that this drilling and any more applied for in the future with in the Big Lost irrigation district should be TURNED DOWN AND REFUSED for the survival of the wells already drilled. Some people feel the wells drilled in the past five years has done damage now.

Please consider the older irrigation wells before giving the water to some-one else.

Sincerely,
Craig Stewart

NOTICE OF PROPOSED AMENDING OF WATER PERMIT

Notice is hereby given that Permit No. 34-7037 in the name of Crater Farms Inc. was issued for the diversion of 12.0 cfs of water from a ground water source with the points of diversion within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E, B.M., Butte County, to be used for the irrigation of 1,680 acres from April 1 to November 1 within the W½, Sec. 14; Sec. 15; N½, Sec. 22; NW¼, E½SW¼, SE¼, Sec. 23; T. 3N, R. 26E, B.M.

The permit holder now proposes to amend Permit No. 34-7037, changing the points of diversion to within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; NE¼NW¼, Sec. 3, T. 4N, R. 26E, B.M., Butte County. Groundwater from the last two wells listed will be discharged into the Island Canal, then conveyed through the East Side Canal to the Big Lost River where it will be rediverted to the place of use through the Muncey Ditch.

Any protest to the proposed amending of this permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401 on or before March 2, 1981.

With the number of wells that have been drilled the last few years upstream in the aquifer from my well, ~~the~~ which had its permit issued in 1961 the output of my well has begun to drop. This New site would only agriviate the Situa-tion I therefore file a Protest.

MICROFILMED

Dear Sirs;

I would like to protest the issueing of this well permit because I feel there has been far too many wells drilled in the valley proper and the water taken on ~~by~~ past the pre-existing farms and not put back to restore the underground.

Since so many wells have been drilled and the water taken out of the valley proper - sprinklers have been installed - coupled with dry years; it how takes me twice the time to irrigate, plus a bigger stream to flood the same ground. On some of the ground the water will not reach the bottom end of my shortest lands because the water table has been depleted to such an extent. (My farm lies along the original channel of Big Lost River)

The only regret I have is that we never protested 8 or so years ago when this movement first started.

I regret having to protest these later filings, but I definitely feel there has to be a stopping point somewhere.

Yours Truly,

Jay F Pearson

NOTICE OF PROPOSED AMENDING OF WATER PERMIT

Notice is hereby given that Permit No. 34-7037 in the name of Crater Farms, Inc. was issued for the diversion of 12.0 cfs of water from a ground water source with the points of diversion within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; B.M., Butte County; to be used for the irrigation of 1,680 acres from April 1 to November 1 within the W½, Sec. 14; Sec. 15; N½, Sec. 22; NW¼, E½SW¼, SE¼, Sec. 23; T. 3N, R. 26E, B.M.

The permit holder now proposes to amend Permit No. 34-7037, changing the points of diversion to within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; NE¼NW¼, Sec. 3, T. 4N, R. 26E, B.M., Butte County. Groundwater from the last two wells listed will be discharged into the Island Canal, then conveyed through the East Side Canal to the Big Lost River where it will be rediverted to the place of use through the Muncey Ditch.

Any protest to the proposed amending of this permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401 on or before March 2, 1981.

PUBLIC NOTICE

34-7037

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Crater Farms, Inc., P.O. Box 596, Arco, Idaho has on 5/4/73 submitted Application No. 34-7037 for a permit to appropriate 12.0 cubic feet per second of water from a ground-water source by means of wells and pumps within the NE¼SW¼, NW¼SW¼, Sec. 2, T. 3N, R. 26E, B.M., Butte County, (approximately 1 mile SW of Arco); to be used from Apr. 1 to Nov. 1 for the irrigation of 1,720 acres within the W½, Sec. 14; Sec. 15; N½, Sec. 22; NW¼, SE¼, SW¼NE¼, E½-SW¼, Sec. 23, T. 3N, R. 26E, B.M.

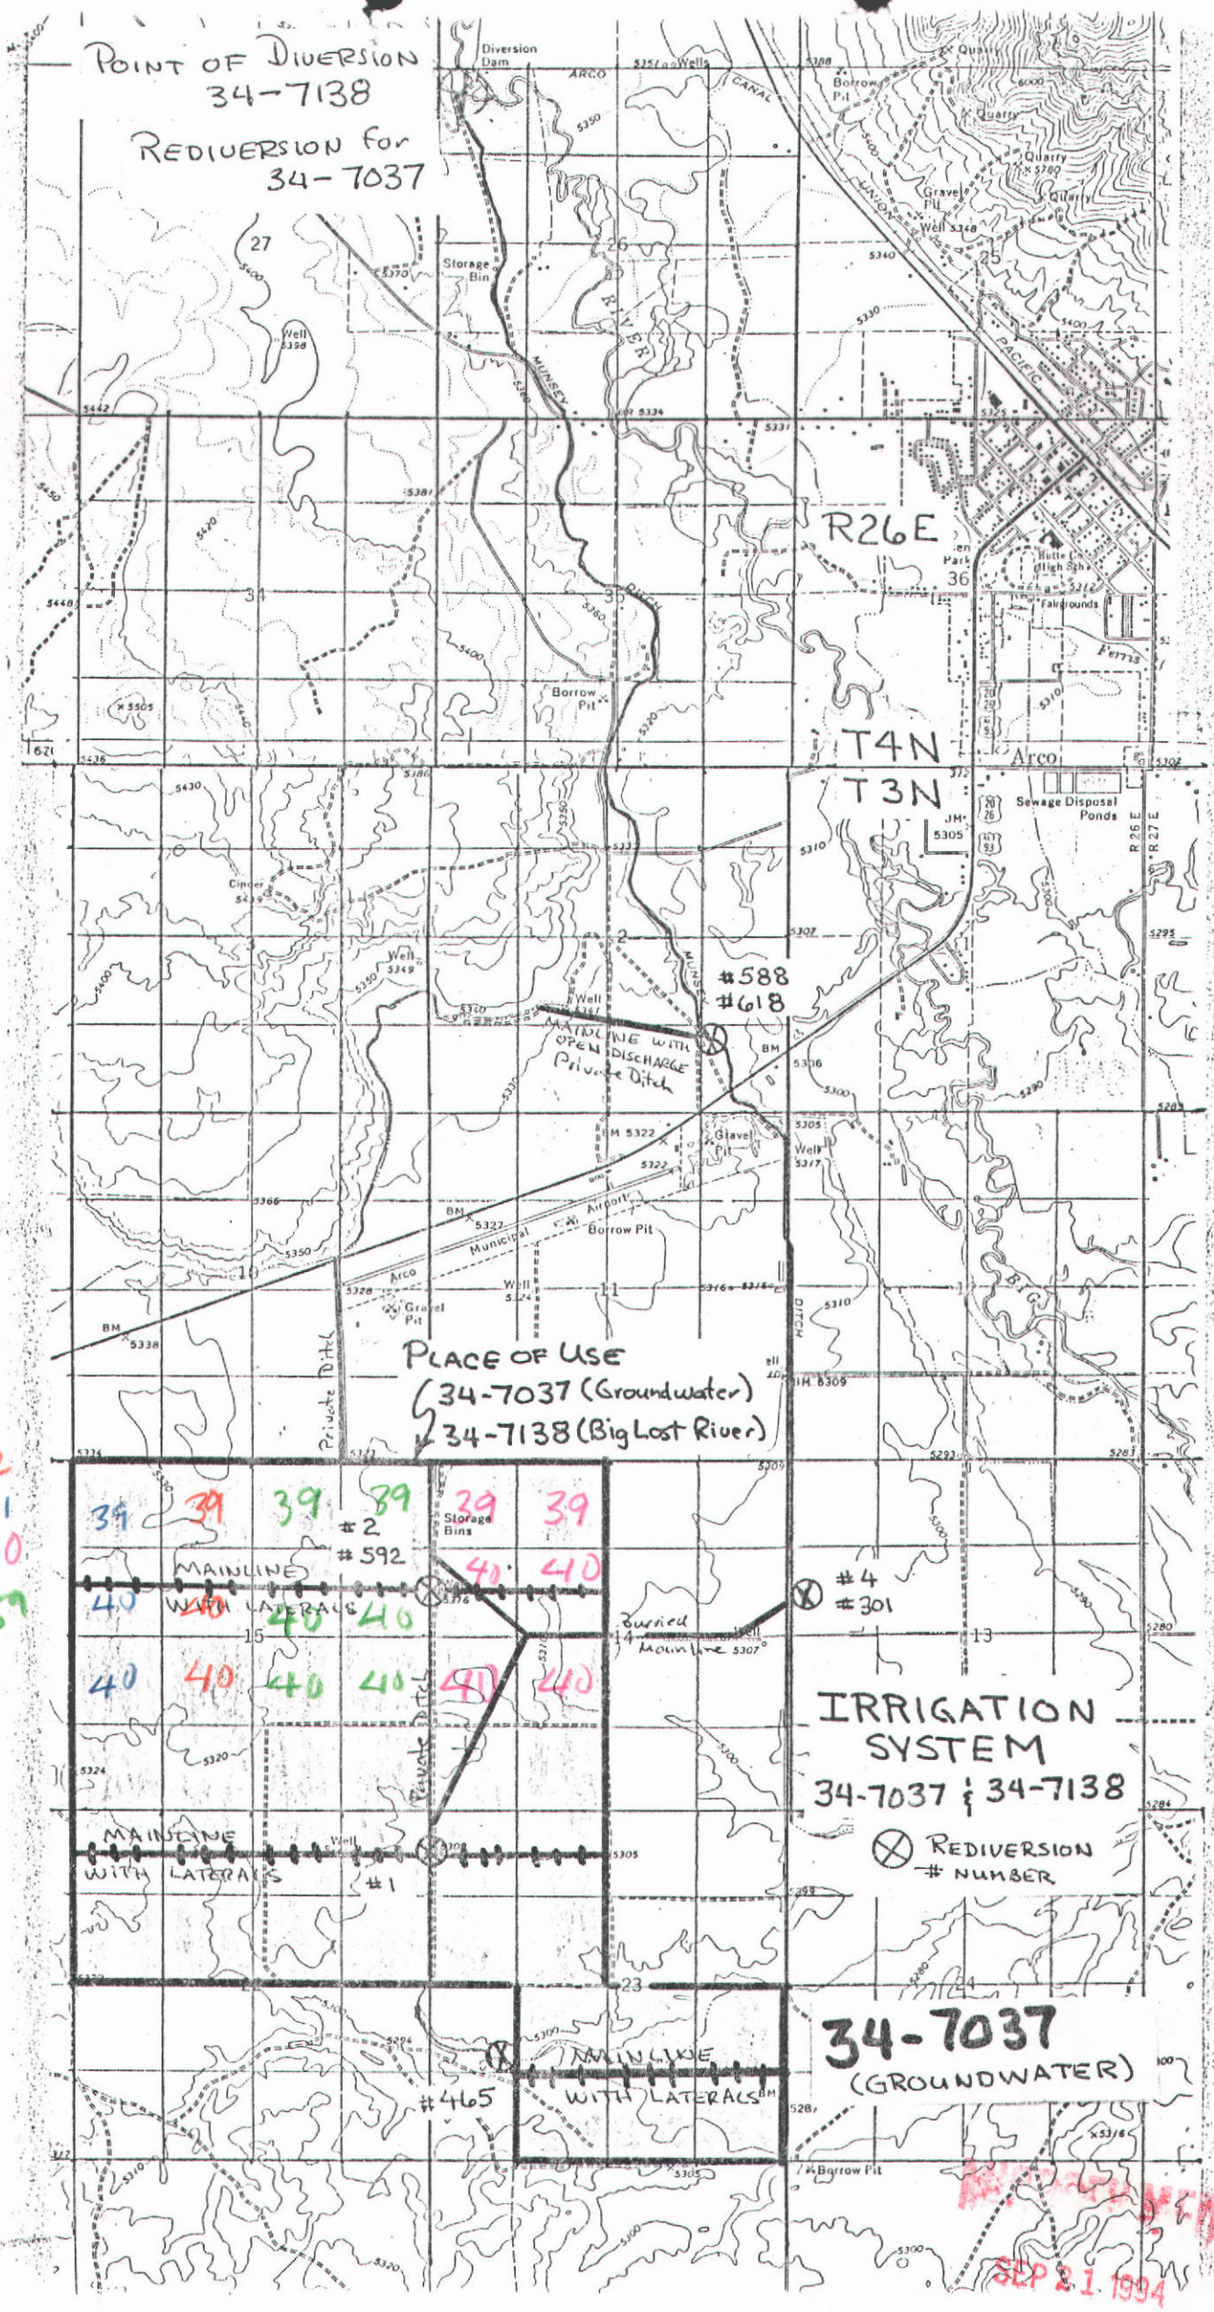

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, 240 South Holmes, Idaho Falls, Idaho, 83401 on or before May 29, 1973.

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 34-07037

CONDITIONS/REMARKS:

3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 34.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
6. The combined annual volume of water under this right and Right Nos. 34-02459/02460/02461/02462/07138/10925 shall not exceed 6930.0 acre feet.
7. This right is limited to the irrigation of 1664 acres in the place of use described above in a single irrigation season.
8. Measuring devices of a type approved by this Department shall be maintained at the points of diversion, point of rediversion from the Big Lost River into Munsey Ditch and at all points described below where water is again rediverted from ditches or a pond onto irrigated acres.
   - Munsey Ditch - SESE, S2, T3N, R26E (2 points)
   - Munsey Ditch - SWNW, S13, T3N, R26E (2 points)
   - Private Ditch - SENE, S15, T3N R26E (2 points)
   - Private Ditch - NENE, S22, T3N R26E
   - Pond at end of Private Ditch - NWSW, S23, T3N, R26E
9. Water is discharged from the wells into Island Ditch which then flows into the East Side Ditch. It is then injected into the Big Lost River and rediverted into the Munsey Ditch. Water can be rediverted from the Munsey Ditch into mainlines or a private ditch and pond for delivery to the acres irrigated.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 2ND day of SEPTEMBER, 1994.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 34-07037 with the following;

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 34.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
6. The combined annual volume of water under this right and Right Nos. 34-02459/02460/02461/02462/07138/10925 shall not exceed 6930.0 acre feet.
7. This right is limited to the irrigation of 1664 acres in the place of use described above in a single irrigation season.
8. Measuring devices of a type approved by this Department shall be maintained at the points of diversion, point of rediversion from the Big Lost River into Munsey Ditch and at all points described below where water is again rediverted from ditches or a pond onto irrigated acres.

   Munsey Ditch - SESE, S2, T3N, R26E (2 points)
   Munsey Ditch - SWNW, S13, T3N, R26E (2 points)
   Private Ditch - SENE, S15, T3N, R26E (2 points)
   Private Ditch - NENE, S22, T3N, R26E
   Pond at end of Private Ditch - NWSW, S23, T3N, R26E

   Water is discharged from the wells into Island Ditch which then flows into the East Side Ditch. It is then injected into the Big Lost River and rediverted into the Munsey Ditch. Water can be rediverted from the Munsey Ditch into mainlines or a private ditch and pond for delivery to the acres irrigated.

MICROFILMED

BEFORE THE DIRECTOR OF THE DEPARTMENT

OF WATER RESOURCES OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR AMENDMENT OF PERMIT NO. 34-7037 IN THE NAME OF CRATER FARMS, INC.	**ORDER ISSUING PROPOSED MEMORANDUM DECISION**

A. Kenneth Dunn, Director of the Department of Water Resources, having reviewed the attached proposed decision prepared by his appointee, Bobby D. Fleenor, who conducted the hearing or who has read the record in this case, hereby approves the same as a proposed decision pursuant to Idaho Code, §67-5211.

Each party to these proceedings who appeared at the hearing is given the opportunity, pursuant to Idaho Code §§42-1701A and 67-5211, to file exceptions to the proposed decision and to present briefs and oral arguments. If no timely and proper exceptions are received, an order by the Director will be entered adopting the proposed decision as his final decision.

I.
EXCEPTIONS

A. To be considered by the Director, exceptions must:

1. be received by the Director on or before the 15th day following the day of service of this Order and the proposed decision,

2. specifically identify the portions of the proposed decision to which exceptions are made and specifically state the grounds for those exceptions, and

3. be sent to each of the parties who appeared or their attorneys.

II.
BRIEFS

A. Any briefs in support of exceptions to the proposed decision shall be filed with the Director at the same time that party's exceptions are filed with the Director.

B. All response briefs to the exceptions must be filed with the Director within 15 days after the exceptions were served upon the responding party.

MED

III.
ORAL ARGUMENTS

A. No oral arguments before the Director on the proposed decision will be held unless specifically requested by a party filing exceptions to the proposed decision and unless that request is filed with the Director concurrently with the filing of that party's exception.

B. If oral arguments have been properly requested by a party filing exceptions, any other party, upon reasonable notice to the Director, shall have the right to present oral arguments in response to the exceptions filed.

C. Oral arguments before the Director on exceptions to the proposed decision shall be heard at the discretion of the Director, pursuant to Idaho Code, §42-1701A. If oral arguments are to be heard, the Director will, within a reasonable time, notify each party of the place, date and hour the oral arguments will take place and of the period of time allocated for the arguments of this case. Unless the Director orders otherwise, all oral arguments shall be heard in Boise, Idaho.

IV.
CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral arguments and other matters filed with the Director in connection with the proposed decision shall be served on all other parties to these proceedings in accordance with Rule 7.2.

V.
FINAL DECISION

Following the submission of all exceptions, briefs and oral arguments, if they are heard, the Director shall issue a final decision adopting, modifying or rejecting and replacing the proposed decision. Copies of the decision and order shall be served on all parties.

Dated this 17th day of March, 1986.

PROPOSED MEMORANDUM DECISON AND ORDER
APPROVING APPLICATION FOR AMENDMENT OF PERMIT NO. 34-7037

BY HEARING OFFICER BOBBY D. FLEENOR

Crater Farms, Inc. (Applicant) having filed with the Department of Water Resources an application to amend the point of diversion of Permit No. 34-7037; protests having been received; and a hearing having been held, the Department finds and concludes as follows:

FINDINGS OF FACT

Background of Permit

1. Crater Farms, Inc. originally filed with the Department of Water Resources on May 4, 1973, for a permit to appropriate 12.00 cubic feet per second of water from a groundwater source for the irrigation of 1,720 acres of land. In this original application, the applicant requested two points of diversion; one in the NE1/4SW1/4, and one in the NW1/4SW1/4, Sec. 2, Twp. 3N, Rge. 26E B.M. The land to be irrigated was described as Sec. 15, W1/2, Sec. 14, N1/2, Sec. 22, SW1/4NE1/4, NW1/4, E1/2SW1/4, SE1/4 Sec. 23, all in Twp. 3N, Rge. 26E B.M., Butte County. After the requisite advertising and processing period,

MICROFILMED

Crater Farms, Inc. was granted Permit No. 34-7037 on June 18, 1973.

2. On March 12, 1974, Crater Farms requested an amendment of Permit No. 34-7037 which would allow them additional points of diversions in the SE1/4SE1/4, Sec. 22, and SW1/4SE1/4, Sec. 23, in Twp. 4N, Rge. 26E. Water from the well proposed in Sec. 23 would be pumped into the Arco Canal within the SW1/4SE1/4, Sec. 23, Twp. 4N, Rge. 26E, and exchanged for water diverted from the Big Lost River through the Munsey ditch at a point within the NW1/4NW1/4, Sec. 26, Twp. 4N, Rge. 26E. Water from the well proposed in Sec. 22 would be comingled with Big Lost River water and also diverted at the Munsey Ditch. This proposed amendment of Permit No. 34-7037 was approved by the Director of the Department of Water Resources on April 26, 1974.

3. A second request for amendment was received from Crater Farms on April 5, 1976. Through this application Crater Farms requested a change in their permit to provide for an additional well to be located in the NW1/4SW1/4, Sec. 34, Twp. 5N, Rge. 26E, and the elimination of the well previously proposed in the SW1/4SE1/4, Sec. 23, Twp. 4N, Rge. 26E. In addition, the place of use was reduced to 1,680 acres by the elimination of 40 acres contained within the SW1/4NE1/4, Sec. 23, Twp. 3N, Rge. 26E. No protests against the approval of this amendment were received and on May 14, 1976, these changes proposed for Permit No. 34-7037 were approved by the Director of the Department of Water Resources.

Substance of Amendment and Protests

4. A third request to amend Permit No. 34-7037 was received from Crater Farms on January 20, 1981. This application for amendment proposes to add a well in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E as a point of diversion. Notice of this change was advertised in the Arco Advertiser on February 12 and 19, 1981. Protests against the approval of this application were received from

MICROFILMED

Seth E. Beal, Joe Smith, Larman D. Andersen, Elden Reynolds, Albert Babcock, M. G. Babcock, David B. Bleak, Gerald Stewart, Richard E. Reynolds, Craig Stewart, Richard Taylor, Larry Reynolds, Jay F. Pearson, and Rueben H. Babcock all of Moore, Idaho. A hearing in the matter was held in Arco, Idaho, on April 22, 1981. All protestants appeared at this hearing except Seth E. Beal, whose protest is therefore set aside. At this hearing the protestants argued that the additional well would result in the diversion of more water than originally permitted and that the water rights of others in the area, both groundwater and surface water, would be adversely effected by the proposed change.

5. Evidence and information considered in this matter includes the following:

a) Application for Permit No. 34-7037

b) Application for Amendment approved April 26, 1974

c) Application for Amendment approved May 14, 1976

d) Application for Amendment received by the department on January 20, 1981.

e) Protests received to approval of the Application for Amendment received on January 20, 1981.

f) The hearing tape of testimony received on April 22, 1981.

g) The well driller's report of the 224 foot deep well drilled by Pete Cope Drilling Co., Inc. in NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E B.M.

h) U.S.G.S. open-file Report 70-93, 109 p. E.G. Crosthwaite, C. A. Thomas and K. L. Dyer; 1970, Water Resources in the Big Lost River Basin, South-Central Idaho.

Additional Findings

6. A well drilled for Crater Farms under this permit in the NW1/4-

MICROFILMED

SW1/4, Sec. 34, Twp. 5N, Rge. 26E, in August of 1976, had a static water level of nine (9) feet and a total depth of 171 feet. The driller's log for this well shows perforations in the well casing between 35 and 165 feet.

7. The additional well proposed under this application would be located about 1/2 mile south of and closer to the place of use than the well described in Finding No. 1. The well would be nine miles due north of the place of use and would require the use of the East Side and Munsey Ditches to transport the water to its proposed place of use. This well is also located further from the Big Lost River than the existing well in Finding No. 1.

8. Available data indicate a relatively unrestricted interchange between surface and groundwater. In the area of the proposed well this interchange primarily takes place with the water table perched above a clay layer which is normally encountered between 25 and 50 feet below land surface.

9. Well driller logs in the area of the proposed well indicate water is normally encountered between 5 and 50 feet before penetrating a clay confining layer. Below this layer additional water bearing strata has been encountered within 150 feet of the land surface.

10. The well proposed in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E was constructed in May 1982.

11. The well log for the well in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E shows that the surface seal depth is twenty (20) feet, that the well casing has been perforated from 35'5" to 134'6" below land surface and that the clay confining layer in between 30 and 34 feet below land surface.

CONCLUSIONS OF LAW

1. By casing out the water encountered above the first confining layer, groundwater pumped will not effect the flows of the Big Lost River to a measurable extent.

MICROFILMED

2. The well in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E as presently constructed intercepts water above the first confining layer and does not minimize the effect on surface water flows.

3. The department may approve the amendment with certain conditions in order to prevent the diversion and use of more water than originally permitted and to prevent injury to other water users.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Application for Amendment No. 34-7037 is APPROVED subject to the following conditions:

1. Flow meters of a type approved by the Department of Water Resources shall be installed and maintained on each diversion to assure that the total pumping rate does not exceed 12.00 cubic feet per second at any time.

2. Diversion and use of water from the well in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge. 26E is subject to the control of the Watermaster of Water District 34 and shall be considered together with the surface water priorities of the Big Lost River.

3. Upon reconstruction of the well under a plan with prior department approval, or upon a showing satisfactory to the Department that minimal hydraulic connection exists between the well and surface water flows, the Director may waive condition No. 2.

4. The permit holder shall comply with the original conditions of permit approval.

Dated this 17 day of March, 1986.

Idaho Falls

I am protesting the drilling of these wells in this area as I contend that the only additional wells in Lost River Valley should be drilled on the parcel of land where they are to be used, that is, used for supplementing the existing water rights on that particular parcel of land. I believe that wells drilled to take water out of the district is unnecessarily lowering the watertable until the time will come that present wells will be dry

To the Idaho Dept. of Water resources.

I protest this water permit on two counts.

1. That there are too many wells in the vicinity of the proposed diversion of water

2. With the great amount of pumping under ground water and not using it on the adjacent property to recharge the side; but conveying it 8-10 miles down stream, is having an adverse effect upon flood irrigators especially because of the depletion of the underground supply

Thank you

Seth E. Beal
Box 46 B

Idaho Dept of Water Resources

Dear Sirs

I Lorman Andersen protest the amending of water permit # 34-7037 for the following reasons.

1- The wells that are permitted to put water from the underground and take it out of the valley is effecting the sub-irrigated land. Also it is lowering the water table and effecting the irrigated land. Also the Canal system isn't big enough to handle the water for the users now.

Dear Sir,

I protest the irrigation Well permit No 34-7037 from being tranferal from its present location to a new location, on the grounds that the deversion of water from this source Could lower the water table on dry years and dry up Local domestic Wells.

Uncontrolled pumping of water should be studyed futher, to determine if the water table can maintain its present level if more pumps or Wells are added to the existing Wells

Yours truly

Albert Babcock

Dear Sirs;

I protest the granting of the amendment of Permit # 34-7037.

My reasons are as follows:

1. the proposed water cannot be carried by the existing canals, as they are used to capacity now. the irrigation district cannot afford to expand facilities in order to transfer water out of the district.

2- According to the water regulations, no amendments will be allowed to increase the amount of water used on available to a piece of property. In this case, the existing well will also be used so the permit will be doubling the amount of water.

3. No more wells should be permitted until a study is done to show whether more water is available than has been pumped on.

thank you.

To: Mr. Stephen Allred

As a long time farmer in Lost River Valley, (Since 1953) I have watched this water transfer from the valley proper via dug wells for some time and with growing apprehension. It is beginning to have itss effect. Within the existing water District we are suffering more water srink in our canal systems, flood irrigated lands will not irrigate through like they used to, some will not carry the water through at all any more like they used to because of a lowered water table, and my well with a patent right of 1961 decreases about 40% in volume of output when the big wells a few miles above me are started up.

I feel that we are losing our birth right. Also I feel that the total capabilities of the water resources in this valley now is streched to the limit. I feel it is far better to arrest this transfer now than let it continue to the point towhere it places our entire valley in jeopardy.

Mr. Stephen Allred,

I am a land owner and tax payer here in Butte County. I live within the boundries of the Big Lost River irrigation District. I owne 50% of a deep well.

I feel that this drilling and any more applied for in the future within the Big Lost irrigation district should be TURNED DOWN AND REFUSED for the survival of the wells already drilled. Some people feel the wells drilled in the past five years has done damage now.

Please consider the older irrigation wells before giving the water to some-one else.

Dear Sirs;

I would like ~~to~~ protest the issueing of this well permit because I feel there has been far too many wells drilled in the valley proper and the water taken on ~~by~~ past the pre-existing farms and not put back to restore the underground.

Since so many wells have been drilled and the water taken out of the valley proper - sprinklers have been installed - coupled with dry years; it how takes me twice the time to irrigate, plus a bigger stream to flood the same ground. On some of the ground the water will not reach the bottom end of my shortest lands because the water table has been depleted to such an extent. (My farm lies along the original channel of Big Lost River)

The only regret I have is that we never protested 8 or so years ago when this movement first started.

I regret having to protest these later filings, but I definitely feel there has to be a stopping point somewhere.

Yours Truly,

Jay F Pearson

State of Idaho)
County of Bonneville) Permit No. 34-7037

Crater Farms, Inc. (name) of P.O. Box 809, Arco, Idaho 83213 (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. 34-7037.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before June 1, 19 78.

That he has heretofore performed the following work described under said permit:
The construction of three wells have been completed. Sprinkler delivery system has been installed. Also, a double pump station on the Muncie Ditch has been constructed.

Costing $ 500,000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: One more well needs to be drilled to complete the system

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to June 1, 19 83.

APPROVED

STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION
APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

(TYPE OR PRINT IN INK)

1. Name of applicant CRATER FARMS, Inc.

   post office address P.O. Box 596, Arco, Idaho

2 Source of water supply Ground Wate r which is a tributary of ---

3. a. Location of point of diversion is NE ¼ of SW ¼ of Section 2 Township 3N Range 26E B.M. Butte County; additional points of diversion if any: NW¼SW¼, Sec. 2, T. 3N, R. 26E, B.M.

   b. If water is not consumed, it will be discharged into _____ at a point in _____ ¼ of _____ ¼ of Section _____ Township _____ Range _____ B.M. _____

4. Water will be used for the following purposes:

   Amount 12.0 (cfs) for irrigation purpose from Apr. 1 to Nov. 1 (both dates inclusive)

   Amount _____ (cfs or acre-feet per annum) for _____ purpose from _____ to _____ (both dates inclusive)

   Amount _____ (cfs or acre-feet per annum) for _____ purpose from _____ to _____ (both dates inclusive)

5. Total quantity to be appropriated:

   a 12.0 cubic feet per second

   b _____ acre feet per annum.

6 Proposed diverting works:

   a. Description of ditches, flumes, pumps, headgates, etc. Deep wells, turbine pumps, electric motors, sprinklers

   b Height of storage dam _____ feet, active reservoir capacity _____ acre feet; total reservoir capacity _____ acre feet, materials used in storage dam: _____

   Period of year during which storage will occur _____ (Mo. Day) to _____ (Mo. Day) inclusive.

   c Proposed well diameter is 18 inches; proposed depth of well is 250 feet.

7 a Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years

   b Estimated construction cost is $ 50,000.

8 Description of proposed uses:

   a. If water is **not** for irrigation: NA

   (1) Give the place of use of water _____ ¼ of _____ ¼ of Section _____ Township _____ Range _____ B.M.

   (2) Amount of power to be generated: _____ hp under _____ feet of head

   (3) List number of each kind of livestock to be watered _____

   (4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

   (5) If water is to be used for other purposes describe _____

34-7037

34-7037

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

TWP	RANGE	SEC	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

RE: PERMIT NOS. 34-07037 and 34-07138

Dear Water Right Holder(s):

The above referenced water rights are in the process of being licensed. However, before licenses can be issued, your permits must be amended to correspond with the findings of the Department's field examiner.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the filing fees ($20.00 for each amendment) within 14 days.

Please note the list of CONFDITIONS/REMARKS proposed for the licenses when they are issued. These conditions/remarks may be modified upon further administrative review.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

MEMORANDUM

TO: **Files 34-07037 and 34-07138**

FROM: **Sharla**

DATE: **April 14, 1994**

RE: **License Review**

These two files have been reviewed for license issuance. A licensing amendment was previously sought for Permit No. 34-07138, however, the information contained in it was not complete. Therefore, a new licensing amendment will be requested but no fee will be solicited. Permit No. 34-07037 also needs to be amended and a fee will be required for this one.

The permissible place of use of 1980 acres has been used for both rights. The same land base is also applicable to Right Nos. 34-02459/02460/02461/02462/10925. A condition has been added to both rights limiting the combined annual volume under all rights to 6930.0 acre feet (3.5 af/acre). The two rights to be licensed have further been conditioned to limit each individually to the irrigation of 1664 acres/season.

Permit No. 34-07037 is for the diversion of groundwater. Water is discharged from the two wells into Island Ditch which flows into the East Side Ditch. From the East Side Ditch it is injected into the river and rediverted into the Munsey Ditch. Water can be rediverted from the Munsey Ditch in Section 2 into mainlines which then transport the water to a private ditch. Here, water is also discharged into the private ditch from two additional wells which are covered under Right Nos. 34-02459/02460/02461/02462/10925. Five additional points of rediversion from the private ditch and a pond at the end of the private ditch are used to irrigate the place of use. Water can also be rediverted from the Munsey Ditch at two points in Section 13. These points of rediversion from ditches and the pond have not been listed in the point of diversion field, however, they have been listed in remarks along with a description of the entire system. The point of injection into the river and the rediversion from the river at the headgate of the Munsey Ditch have been listed in the point of diversion field.

Permit No. 34-07138 is for the diversion of surface water from the Big Lost River. Water is diverted from the river into the Munsey Ditch and then is rediverted from the same points listed above. Again, the rediversions have not been listed in the point of diversion field but are covered in the remarks field.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

LICENSING REPORT

34-7037
Permit No.

1. **Measurement Calculations**

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

$$Q = \left[\frac{C(id)^2\sqrt{\text{INCHES}}}{448.8}\right] K$$

K = 1.067

C = 3.99 for 12" annubar
= 4.01 for 13.25" annubar

$$Q_{402} = \left[\frac{4.01(13.75)^2\sqrt{49}}{448.8}\right] 1.067 = 12.62 \text{ cfs}$$

$$Q_{583} = \left[\frac{3.99(12.5)^2\sqrt{66}}{448.8}\right] 1.067 = \frac{12.04 \text{ cfs}}{24.66 \text{ cfs}}$$

Q LIMITED BY PERMIT TO 12.0 cfs

b) Volume Calculations for Irrigation:

V_{IR} = (Acres Irrigated) x (Irrigation Requirement) = 1720 x 3 afa = 5160 afa
V_{DR} = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = 12(1.9835)(214) = 5093.6
V = Smaller of V_{IR} and V_{DR} = 5093.6

c) Volume Calculations for Other Uses:

2. **Overlap Review**

a) Other water rights with same place of use: GROUNDWATER 34-2459/2460/2461/2462
Big Lost River 34-7138

b) Other water rights with same point of diversion: NONE: SEE PAGE 9 of 40

c) Analysis:

SEE PAGE 9 of 40

SEP 21 1994

OVERLAP ANALYSIS:

CONSIDER WELLS #217 & #182 (PUMP DIRECTLY INTO PRIVATE DITCH), THAT ARE NOT REGULATED BY THE WATER MASTER, AS THE SOURCE FOR THE FOLLOWING LICENSES:

34-2459 @ 4.17 cfs/ 238 ac
34-2460 @ 4.17 cfs/ 238 ac
34-2461 @ 2.08 cfs/ 119 ac
34-2462 @ 2.08 cfs/ 119 ac

TO ELIMINATE HAVING TO HAVE THE WATERMASTER REGULATE WELLS #217 & #182 (THAT PUMP INTO A PRIVATE DITCH) THE FOLLOWING SHOULD BE CONSIDERED:

1. THE POINTS OF DIVERSION FOR THIS RIGHT 34-7037 SHOULD BE LIMITED TO WELLS #402 / #583.

2. GROUNDWATER WELLS #402 & #583 SHOULD BE CONSIDERED A SEPARATE SOURCE.

3. GROUNDWATER WELLS #402 & #583 SHOULD BE UNDER WATERMASTER CONTROL.

IF P/D'S #402 & #583 ARE CONSIDERED AS A SEPARATE SOURCE THERE WOULD BE NO POINT OF DIVERSION OVERLAP, AND THE ONLY CONSIDERATION NECESSARY WOULD BE TO LIMIT IRRIGATION TO 0.02 CFS/ACRE ON 1720 ACRES WITHIN THE 1982 ACRES OF THE PERMISSIBLE PLACE OF USE.

RECOMMENDATIONS:

1. P/D'S FOR 34-7037 LIMITED TO WELLS #402 / #583.
   #402 - SE¼NW¼SW¼ SEC 34, T05N, R26E
   #583 - NE¼SE¼NW¼ SEC 03, T04N, R26E

2. P/D'S #402 & #583 ARE TO BE CONSIDERED A SEPARATE SOURCE.

3. P/D'S #402 & #583 ARE TO BE UNDER WATERMASTER CONTROL.

4. P/U 1720 ACRES WITHIN 1982 ACRES OF PERMISSIBLE P/U

B OVERLAP REVIEW

1 Other water rights with same place of use

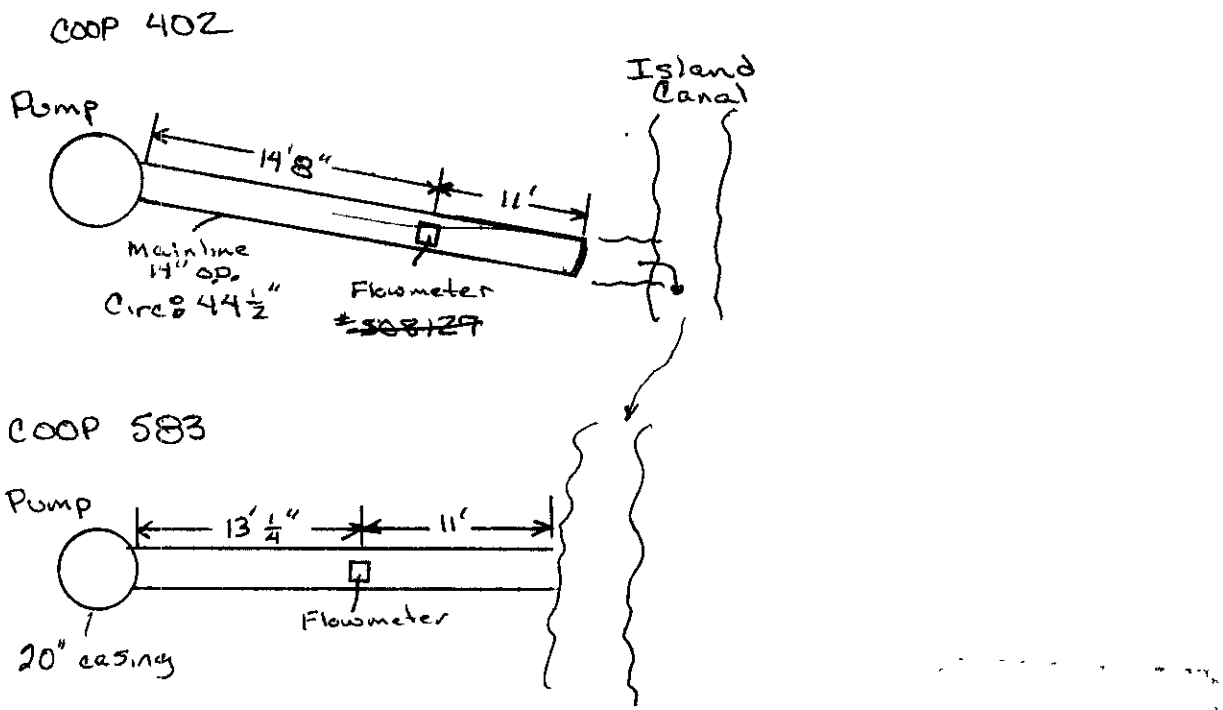

☐ Copies Attached

2 Other water rights with same point of diversion

☐ Copies Attached ☐ Copies of Field Exam's Attached

C. SYSTEM DESCRIPTION

1 **Diversion System Diagram:** Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i d as applicable ☐ Alternative diagram attached

SEP 21 1994

Scale: 1" = _____.

2. ☐ Copy of U S G.S. Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required)
☐ Aerial Photo Attached (required for irrigation of 10 acres or more)
☐ Photo of Diversion and System Attached (required for all but single household domestic groundwater, and stockwater

System Description (continued)

3 **Narrative:** Description (As operating at time of measurement Indicate pressure, number of sprinklers, etc.)

See Exam 8 Aug 85

☐ See Remarks on page 4 for continuation

4. also see attached System description

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
COOP 402	General Elect	125	EA552617[illegible]	Aurora	V77-71337
COOP 583	General Elect.	100	CWJ3162860	Berkeley	8200408

**Code to correspond with No. on map and aerial photo*

5 **Point(s) of Diversion:** See Original Exam 8 Aug 1985 also attached system description

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2 **Measurements:**

3250 gpm .01 ~~AF~~ Gal (x10⁵) / 18.48 sec (COOP 402)

in-mainline flow meter

COOP 583 31000 gpm .01 x10⁵ gal / 16.164

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method $Q_{402} = (0.01 \times 10^5 \text{ gal} / 18.48 \text{ sec})(60 \text{ sec/min}) = 3246.8 \text{ gpm} = 7.23 \text{ cfs}$

$Q_{583} = (0.01 \times 10^5 \text{ gal} / 16.64 \text{ sec})(60 \text{ sec/min}) = 3605.8 \text{ gpm} = 8.03 \text{ cfs}$

2 Alternate Method for Checking Purposes.

F PUMP EFFICIENCY DATA (Optional)

Discharge Pressure. _____ psi x 2 31 = _____ ft (1); Dynamic pumping level _____ ft (2)

Total Head (1) + (2) = _____ (3) . Flow rate _____ cfs (4)

Water HP (3) x (4) ÷ 8 8 = _____ (5)

Meter Input KW 3 6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP. (6) x 1.34 = _____ (7)

Panel Input KW _____ Ave PF x _____ Ave Volts x _____ Ave Ampsx .001732 = _____ (6)

Panel Input HP. (6) x 1 34 = _____ (7) Efficiency (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation

V_{IR} = (Acres Irrigated) x (Irrigation Requirement) = _____

V_{DR} = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = _____

V = Smaller of V_{IR} and V_{DR} = _____

2 Volume Calculations for Other Uses

SEP 21 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

I. RECOMMENDATIONS

1 **Recommended Amounts**

Beneficial Use	Period of Use From	Period of Use To	Rate of Diversion Q (cfs)	Annual Volume V (afa)
		Totals:		

2. **Recommended Amendments**

☐ Change P.D. as reflected above ☐ Add P.D as reflected above ☐ None

☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

Department of Water Resources

WELL INSPECTION FORM

If well is associated with water right, provide WR# 34-7037
Coop # 583

Otherwise provide legal description and a sketch map and/or address so that the well can be located easily.

1. Legal Description: TWP 4N, Rge 26E, Sec. 3, SE 1/4 NW 1/4 or Lot _____.

2. Owner: Willard Bell / Crater Farms

   Address P.C. Box 91, City Arco, St Id

3. Casing ≥ 12 inches above ground: Yes ✓ No _____

4. Access Port: Yes ___ No ✓ Static Water Level: cannot measure
   Pressure Gauge: Yes ___ No ✓ Casing Diameter: 20"
   Flowing: Yes ___ No ✓ Temperature: _____

5. Are there any obvious construction problems that may be a source for contamination or waste of water: Yes ___ No ✓

   If answer to Item 5 is Yes, describe in remarks and attach photo.

Remarks: _____

WELL INSPECTION FORM

If well is associated with water right, provide WR# 34-7037
COOP# 402

Otherwise provide legal description and a sketch map and/or address so that the well can be located easily.

1. Legal Description: TWP 5N, Rge 26E, Sec. 34, NW 1/4 SW 1/4 or Lot ____.

2. Owner: Willard Bell / Crater Farms

   Address P.O Box 91, City Reo, St Id

3. Casing ≥ 12 inches above ground: Yes ✓ No ____

4. Access Port: Yes ___ No ✓ Static Water Level: cannot measure
   Pressure Gauge: Yes ___ No ✓ Casing Diameter: ≈ 20"
   Flowing: Yes ~~XX~~ No ✓ Temperature: ____

5. Are there any obvious construction problems that may be a source for contamination or waste of water: Yes ___ No ✓

   If answer to Item 5 is Yes, describe in remarks and attach photo.

Remarks: ____

SEP 21 1994

System Description (continued) Permit No. 34-07037

3. NARRATIVE: Description.

NOTE: TO BETTER UNDERSTAND THE FOLLOWING NARRATIVE REFER TO THE ATTACHED PAGES OF MAPS & PHOTOS.

Well #402 (PHOTOS 1a, 1b, 1c) discharges into the Island Ditch, then Well #583 (PHOTOS 2a, 3b, 2c) also discharges into the Island Ditch. The Island Ditch carries the water to the Eastside Ditch. The Eastside Ditch carries the water and discharges the water into the Big Lost River just across from the headgate of the Munsey Ditch (PHOTO 3, & MAP 3). The Munsey Ditch delivers water to the rediversion pumps #588 & #618 (PHOTOS 4a, 4b, & MAP 4) in Sec 2, T03N, R26E, and rediversion pumps #4 & #301 (PHOTO 5, & MAP 5) in Sec 13, T03N, R26E.

Rediversion pumps #588 & #618 (MAP 6) deliver water through a buried mainline that discharges into a private ditch just beside Well #182 (PHOTO 6a, 6b, & MAP 6). The water from Well #182, the rediversion pumps #588 & #618, and then water from Well #217 (PHOTO 7 & MAP 6) is carried to rediversion systems #2 & #592 (PHOTO 8, & MAPS 6 & 7), #1 (PHOTO 9 & MAP 8), and #465 (PHOTO 10 & MAP #9)(pond). The water is pumped through mainlines from rediversion systems #2 & #592, #1, and #465 (pond), to laterals with sprinklers.

Rediversion pumps #4 & #301 (PHOTOS 11a, 11b, 11c, MAP #10) from the Munsey ditch pump water into a buried mainline, that splits, and carries water to the irrigation systems at rediversion pumps #2 & #592, and #1(MAP #10).

Gentlemen:

Re: Permit No. 34-7037

Enclosed is a copy of the approved Application for Amendment of Permit No. 34-7037 along with a copy of the Proposed Memorandum Decision and Order and Order Adopting the Proposed Memorandum. Please direct your attention to the conditions of approval as set forth in the proposed memorandum.

Any person who does not agree with the decision of the department may request a rehearing before the director within 20 days, or may appeal directly to the district court within 30 days of the date the decision is mailed.

Sincerely,

L. Glen Saxton

L. GLEN SAXTON

Re: Application for Amendment of Permit No. 34-7037
(Crater Farms, Inc.)

Dear Glen:

For what it is worth, I would object to the use of the U.S.G.S. open-file Report 70-93 in making the determination in the request for amendment of our permit on the grounds of irrelevancy.

The reason I feel the report is irrelevant, is it fails to distinguish any difference from well site to well site. Obviously, the report is relevant as to the ground water or surface water in the area. The intermingling of surface and ground water throughout the basin was not disputed at the hearing. As a matter of fact, anyone with common sense could have written this report from first hand knowledge having irrigated in that basin for any period of years. The point is not whether surface or ground water co-mingle and that there are areas of water flows that surface and subsurface alternately. My objections to the report being used are that it does not prove any advantage to be gained by the applicant in making the transfer of the point of diversion, nor does it show there is anybody being injured by the change of point of diversion from one well site to the other.

My main objection to the whole file report and the reason why I have been confused about your refusal to issue a permit is that the applicant previously had a right to drill for a certain amount of water and unless there is a direct showing of injury to some party, as a result of the change, applicant should be allowed to have his application amended. I fail to see that the open-file report in any way lends any evidence that would indicate that changing from one proposed well site to the other in fact injures any party.

MICROFILMED

If the report is used and a determination is made, on the basis of the report, that a change from the applicant's original well site to the proposed new well site would injure any prior applicant or license holder, I would very much like for you to point out that provision of the report that would substantiate your finding.

Thank you for your attention to this letter.

Sincerely yours,

ROBERT C. WEAVER

Re: Application for Amendment to Permit No. 34-7037
Crater Farms, Inc.

Dear Mr. Saxton:

I have no objection to the additional information being used to determine the Crater Farms application for amendment. I would, however, like to receive a copy of the U. S. Geological Survey open-file Report 70-93. And, I would like, if necessary, sufficient time to object to the relevance of those findings, if necessary.

The reason for my requesting of additional time regarding the relevance is, as near as I can understand from the original application, and the purpose of the amendment is there would be no distinct difference between either one of the well locations insofar as the open-file report showing of the resources in the Big Lost River Basin. If there were water available for one there should be water available for both and we had previously received an approval of the water right for the first and I fail to see where taking the official notice of the open-file report is really relevant to the requests for the amendment.

At any rate, if you would be kind enough to send me the copy of the open-file report, I will not object to the information being a portion of the Department's records if I may object after having the availability of the report.

Thank you for your attention to this matter.

Sincerely yours,

ROBERT C. WEAVER

Re: Application for Amendment to Permit No. 34-7037
Crater Farms, Inc.

On April 23, 1981, a hearing was conducted by the department as a result of protests against the approval of the above referenced application for amendment. Before a decision was issued on the contested matter, the Swan Falls water right controversy arose and essentially stopped department action on many pending applications. Since progress has been made toward resolution of the Swan Falls matter, the department is attempting to resolve outstanding matters.

A well driller's report submitted to the department in July 1982, shows that the well which was the subject of the protested amendment was drilled in May 1982.

Since the well driller's report showing the construction of the well was not available at the time of the hearing, but has a direct bearing on the issues raised at the hearing, the department will consider the well log as part of the evidence in the matter pending before the department.

Enclosed for your information is a copy of the well driller's report. The copy is provided in compliance with provisions of Section 67-5213, Idaho Code.

The department also will take official notice of the U.S. Geological Survey open-file Report 70-93, 109 p. E. G. Crosthwaite, C. A. Thomas and K. L. Dyer; 1970, entitled Water Resources in the Big Lost River Basin, South-Central, Idaho.

If you have objections to the use of this information in the department's consideration and decision in the protested application for amendment, please advise the department by February 15, 1985 describing specifically the reasons for the objections.

If you have questions, please feel free to contact the department.

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

> 42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

SINCERELY,

L. Glen Saxton

M E M O

TO: Glen Saxton DATE: May 29, 1985

FROM: Paul Castelin PMC

SUBJECT: Review of construction of Willard Bell well, Big Lost River Valley.

You requested that I review the well construction of the above well for adequacy with respect to (1) the surface water/ground-water relationships in that part of the Big Lost River basin, and (2) Stan Szczepanowski's March '83 draft open-file report. Since there is a question as to whether the well is located in T4N or T5N, R26E, I reviewed conditions at both locations.

T5N, R26E, NENW Sec. 3

This location places the well about 3 miles above Moore, on the east side of the valley about 4000-4500 feet from the Big Lost River. There are no other well logs on file near enough to verify it, but the driller's lithologic description of the Bell well fits the known geology.

The well penetrates 224 feet of sand, gravel and clay. The 20" casing is perforated from 35'5" to 134'5" (90 feet) and utilizes a 20" diameter screen from 134'5" to 214"5" (80 feet). The well log also indicates a gravel pack from 0 to 20 feet, which is certainly in error; elsewhere on the log a surface seal of puddling clay is shown for the same interval. In addition, the litho log shows first water was encountered between 14 and 30 feet in depth, immediately above a gray clay layer from 30-34 feet, yet the static water level is shown as being 9 feet. This implies that moderate artesian pressure may have been encountered below the gray clay, in which case the surface seal should have extended to at least 30 feet. Since it does not, water under artesian pressure is leaking upward around the casing to the shallow surficial material.

MICROFILMED

The well-head elevation at this location would be about 5680-5720 elevation; about 140-180 feet above the river, which would require a gradient of about 174 feet per mile in order for the well to be hydraulically connected to the river. Although not an impossible gradient, it seems unlikely. I must conclude that a well constructed as this one, located at this point would have little if any measurable effect on the Big Lost River, which in this reach is a generally losing stream.

T4N, R26E, NENW Sec. 3

The drill log best fits the geology at this location, as verified by other well logs in the vicinity. The well would be located between Spring Creek and Big Lost River about 2½ miles SSE of Moore. It would be about 1200 feet from James Creek, 3000 feet from the Big Lost River, and about 2500 feet from Spring Creek. It is highly likely that the well is in hydraulic connection with James Creek and/or Big Lost River, and as constructed, would affect them during the course of an irrigation season, assuming reasonable pumping rates and aquifer characteristics; which are pretty much the conclusions of Stan Szczepanowski's draft report.

February 15, 1985

Robert C. Weaver
WEAVER & DYKAS, P.A.
130 N. Broadway
Buhl, ID 83316

Dear Mr. Weaver:

RE: Application for Amendment of Permit No. 34-7037
Drater Farms

I have received and reviewed your letter of February 6, 1985 relative to action on the above-referenced application for amendment of permit.

As brief background, the department's past concern in approval of the amdnément has been in connection with the effect on surface water flows. A decision on the matter was drafted in 1982 for review. Shortly, thereafter, the Swan Falls matter became apparent and additional action was set aside on the amendment since the permit was named in the "7500" suit filed by Idaho Power Company. Although the permit has not yet been dismissed in any of the three dismissals filed by Idaho Power Company, it would appear to be a candidate for dismissal because of the recognition of "substantial investment" provided in the S 1180 contract.

On February 6, Willard Bell contacted this office and advised that the final well had been drilled and requested action on the pending amendment. The department has corresponded with Mr. Bell requesting a copy of the well log. The well log will be reviewed to evaluate the likely effect on surface flow of pumping the well, given the particular subsurface lithology encountered at the well site and the specific well construction techniques used. If this review indicates the effect on the surface flows will be insignificant, action will be taken to approve the amendment.

I will instruct my staff to expedite this matter to the extent possible. If you have any questions, please feel free to contact Norm Young of this office.

Sincerely,

A. KENNETH DUNN
Director

ATTENTION: Kenneth Dunn, Director

Re: Application for Amendment and
Permit No. 34-3037 in the name of
Crater Farms, Inc.

Dear Mr. Dunn:

I am writing this letter in the hopes that the above water right can be reviewed by you as the Director.

Crater Farms, Inc., has been ready for approximately 2-2½ years to finalize the beneficial proof of water right No. 34-3037. The only thing holding up the water right from being finalized is an amendment of the one drilling site which was heard on the 22nd day of April, 1981, approximately four years ago by the Department. No determination has been made of that hearing to date.

My frustration is that I have made countless calls as has Mr. Willard Bell, one of the principals of Crater Farms, Inc., to your office in Boise and to Mr. Carlson in your Eastern Idaho district office concerning finalizing the decision, without ever having been given a satisfactory answer as to why that decision has not been made. The purpose of this letter is to not chastise the Department for not having the decision out but only to see if there is a possibility that you can get the file and review the matter so that a decision can be made. Crater Farms is most anxious to get all of their water rights finalized and licensed. The particular application was for the sole purpose of changing a place of diversion for ground water in the Lost River Basin. I was present at the hearing representing Crater Farms and to the best of my knowledge there was no legitimacy to the protests regarding the change in the point of diversion and have been so informed by Mr. Carlson. Mr. Carlson in fact informed me that a decision that we were to receive the grant for the change would be forth coming. He has told us that for the last 18 months and we haven't received anything.

MICROFILMED

Again, I am in hopes there is a possibility that this matter could be expedited and we could proceed to filing final proof on our water rights when the waters are turned on in the Spring of 1985. Your assistance in this matter would be greatly appreciated.

Sincerely yours,

ROBERT C. WEAVER

MICROFILMED

June 12, 1985

Willard Bell
Crater Farms, Inc.
P. O. Box 91
Arco, ID 83213

Dear Mr. Bell:

Re: Permit No. 34-7037
Crater Farms

On May 6, 1985, you called me and advised that a particular well log which I needed to review was filed under the name of "Willard Bell" rather than "Crater Farms, Inc." I have located the well log, but have determined a discrepancy related to the legal description. The well log shows the well to be located in the NE1/4NW1/4, Sec. 3, Twp. 5N, Rge. 26E. The application for amendment which is pending before the Department shows the well was to be in the NE1/4NW1/4, Sec. 3, Twp. 4N, Rge 26E.

Please advise me of the actual location of the well in order that the Department may consider further action on the permit file.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

MICROFILMED

February 14, 1985

Willard O. Bell, President
Crater Farms Inc.
P. O. Box 91
Arco, ID 83213

Dear Mr. Bell:

Re: Permit No. 34-7037

Enclosed is a copy of the approved request for extension of time. The time within which to submit the proof of beneficial use is extended to September 1, 1985.

In connection with the development of a water right under this permit, the Department wishes to call to your attention an Idaho Supreme Court decision issued in November 1982 which has affected your use of water.

The decision in the case of Idaho Power Company vs the State of Idaho, et al stated in part that Idaho Power Company's use of water for power generation purposes at the Swan Falls Dam on the Snake River is not subordinated to upstream depletion by later-in-time uses. Ongoing negotiations to resolve this water right controversy without further court action has resulted in the signing of a contract in October 1984, between the State of Idaho and Idaho Power Company. The contract essentially describes certain categories of water uses from which the company will seek no restitution for depletion of water availability at Swan Falls Dam in exchange for certain concessions. In addition, an agreement was also signed by the Attorney General, Governor, and Idaho Power Company. The agreement outlines additional actions which could be implemented to further resolve the Swan Falls controversy. Some of the additional actions include suggested changes in legislation, suggested changes in the State Water Plan, and the reduction of Idaho Power Company's water rights provided certain concessions are made to the company.

The Department urges you to follow the actions taken relative to the contract and agreement, since your water use could be affected.

MICROFILMED

As you know, the Department is holding an Application for Amendment for action. Upon receipt of a well log for the final well drilled, the Department will be able to consider further action on the amendment.

If you have any questions concerning this water right, please feel free to contact this office.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

Well 17, feet Deep.

Well near Arco Diversion –

Expansion Issue –
Injury Issue –

Hearing –
Witness for Applicant
– Robert Weaver – part owner of Crater Farms
Better well site.
No expansion in Q or acreage →

Anticipate three
1 north of airport ½ mile –
1 in Sec. 34 Phelps – ~~300~~ 450 inches
1 in Sec 3

Mary Babcock – will ditch be enlarged –

David Bleak – what will be rate of loss –

Larry Reynolds – Q is at the point of diversion
Mr Stewert

MICROFILMED

Protestant –

Larry Reynolds

Concerned because they have wells between old and proposed P.D.

Concerned because of expansion – he is concerned that applicants wells already produce 12.0 cfs – have reached

Susan Bell → Question –

Well at lower P.D. wouldn't affect Mr Reynolds

Statement by Mr Bleak

Mr Weaver – Question

Well 170 feet – terminated a clay layer –

Water Level – 49 feet last Fall

Stock well 125' deep 65' W.L. dropped to 105' in 197?

Well pumped only in dry years –

Mr Babcock –

Moving the water that distance upstream would be enlargment

Joe Smith – Moore → Agree with Mr Babcock

Larman Andersen – Wells no matter where they are drilled will affect the rising waters

MICROFILMED

Gerald Stewart – Concerned about area drying up there is only a limited amount of water –

Craig Stewart, Moore —
Wants protection for his well
Would like a moritorium until a study —
Question
Well location —

Mr. Weaver
Injury —
Existing well located between ½ - ¾ mile away drilled 1976
- water level has not fluctuated.
How far away → Neighbors well pumping doesn't affect well in Sec 34 —
- Not aware of interrelationships between surface and groundwater
Take notice of existing reports published →
- Doesn't feel the change will cause injury —

Questions
Lake went dry
David Black
Concerned about time necessary to enforce shut off
Well 1 mile west
Mr Andersen —
Why move well upstream —

Injury
Mr. Reynolds — Croswaite study —
Injury possible because of drawdown and depletion of water from the strata —
Feels there is constant interchange of water between surface and ground wtr

MICROFILMED

The further downstream the wells is moved the better

Mr Ruben Babcock

Well went dry for stockwater - 1969 40 w.l. well 69 feet
1979 - drilled 22 feet deeper -

Question Mr Weaver [redacted] Pump 1 mi west of Moore.
Several wells located above -

Question -

Joe Smith -

Q decresed in his well from 300 to 200 inches - Haney place.
Well located 1½ mile south of Moore - 1979
Last year Q came back -

Larman Andersen

Well drilled 1960 Q 380 inches
last few year Q decreases about 100 inches during season -
Well located - 4½ miles south of Moore -
Water in gravel pit runs from the West?

Eldon Reynolds - Moore

Wants study done
Hasn't noticed change in Q of irrigation water -

MICROFILMED

David Bleak -

Place [redacted] located ½ South ¼ mile west of Phelps place Sec 34

has difficulty continuing to irrigate because the sub is being drawn down by the existing well, a new well will cause further problems. —

→ Question of well water being carried in the canal forcing out decreed water since canal doesn't have sufficient capacity.

Six years ago Irrig well W.L 39 feet
Well used for supplemental supply —

Gerald Stewart —
Uses well — produces 240 inches, after upstream wells begin pumping Q drops to ~~150~~ ? inches in a couple of days
Therefore there is an effect —
Crater Farms well pr

Jay Pearson — Moore
Flood irrigator —
can't install sprinkler system —
Wells have caused problem in declining sub water —
Stock well has dropped from 6 feet to 34 feet —
located 3½ miles south of Moore —

MICROFILMED

Jake Aikle = For Mr Bell of Crater Farms —
There are many acres above that are now sprinkled that previously flood irrigated

- His wells are different - Some drop and some don't decline
Wells grouped seem to affect

Mr Weaver question -
Sprinkling has changed sub-level
Some problems of being

Mary Babcock -

David Bleak
Isn't sprinkler irrigation superior to water being pumped by well with no chance of return flow.

Mr Andersen
Cost of irrigation has increased
The sub-irrigation has dropped and therefore the water applied to the surface simply percolates into the ground -
Wants the water table to stay within two feet of surface

MICROFILMED

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR AMENDMENT NO. 34-7037 IN THE NAME OF CRATER FARMS, INC.	NOTICE OF HEARING

On January 20, 1981, Crater Farms, Inc. filed with the Department of Water Resources an application to amend Permit No. 34-7037. The Department received protests against approval of said application from Reuben Babcock, Seth E. Beal, Joe Smith, Larman D. Andersen, Elden Reynolds, Albert Babcock, M. G. Babcock, David B. Bleak, Gerald Stewart, Richard E. Reynolds, Craig Stewart, Richard Taylor, Larry D. Reynolds, and Jay F. Pearson.

The Department has set the matter of protest for hearing for Wednesday, April 22, 1981, at 1:00 p.m., in the District Courtroom, Butte County Courthouse, Arco, Idaho. The hearing will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. A pre-hearing conference may be held beginning at the above set time and prior to the hearing.

In accordance with Idaho Code, Section 42-211, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed change result in the diversion and use of more water than originally permitted?
2. Will the rights of others be adversely effected by the proposed change?

MICROFILMED

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 13 day of April, 1981.

Ronald Carlson

Hearing Officer

Crater Farms, Inc.
P.O. Box 91
Arco, Idaho 83213

Gentlemen:

Enclosed please find copies of the protests filed against the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for amendment:

1. Will the proposed change result in the diversion and use of more water than originally permitted?

2. Will the rights of others be adversely effected by the proposed change?

You will be notified at a later date as to the time and place set for conferance and/or hearing to discuss the matter of protest. If we may be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON

RE: Application for Amendment No. 34-7037 CRATER FARMS, INC.

Joe Smith
Rt. #1, Box 22
Moore, Idaho 83255

Dear Mr. Smith:

This is to acknowledge receipt of the protest to issuance of the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for amendment:

1. Will the proposed change result in the diversion and use of more water than originally permitted?

2. Will the rights of others be adversely effected by the proposed change?

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matter of protest. If we may be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON
Eastern Regional Supervisor

RE: Application for Amendment of Permit No. 34-7037

Gene Gabert, Watermaster
Water District No. 34
413 Elm
Mackay, ID 83251

Dear Gene:

Enclosed please find a copy of Permit No. 34-7037 and an application for amendment of the permit. We thought you may appreciate an opportunity to review the amendment application since the proposed wells near Moore will divert groundwater into the Island Canal and then the East Side Canal.which will spill the groundwater into the Big Lost River, before it is rediverted into the Muncey Ditch. If you have any comments concerning the amendment application, please submit them to our Department as soon as possible. The last date of protest is March 2, 1981, and we are required to take final action shortly thereafter.

You may also want to advise the Big Lost River Irrigation District of this amendment application since it proposes the conveyance of co-mingled water thru district canals.

If we may be of further assistance, please feel free to contact us.

Respectfully submitted,

ERNEST CARRSEN
Sr. Resource Analyst

Gentlemen,

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. We have allowed ample time for you to submit a galley proof to this office for review before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before MARCH 2, 1981.

Yours truly,

RONALD D. CARLSON

NOTICE OF PROPOSED AMENDING OF WATER PERMIT

Notice is hereby given that Permit No. 34-7037 in the name of Crater Farms, Inc. was issued for the diversion of 12.0 cfs of water from a ground water source with the points of diversion within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; B.M., Butte County; to be used for the irrigation of 1,680 acres from April 1 to November 1 within the W½, Sec. 14; Sec. 15; N½, Sec. 22; NW¼, E½SW¼, SE¼, Sec. 23; T. 3N, R. 26E, B.M.

The permit holder now proposes to amend Permit No. 34-7037, changing the points of diversion to within the NE¼SW¼, Sec. 2, T. 3N, R. 26E; NW¼SW¼, Sec. 2, T. 3N, R. 26E; SE¼SE¼, Sec. 22, T. 4N, R. 26E; NW¼SW¼, Sec. 34, T. 5N, R. 26E; NE¼NW¼, Sec. 3, T. 4N, R. 26E, B.M., Butte County. Groundwater from the last two wells listed will be discharged into the Island Canal, then conveyed through the East Side Canal to the Big Lost River where it will be rediverted to the place of use through the Muncey Ditch.

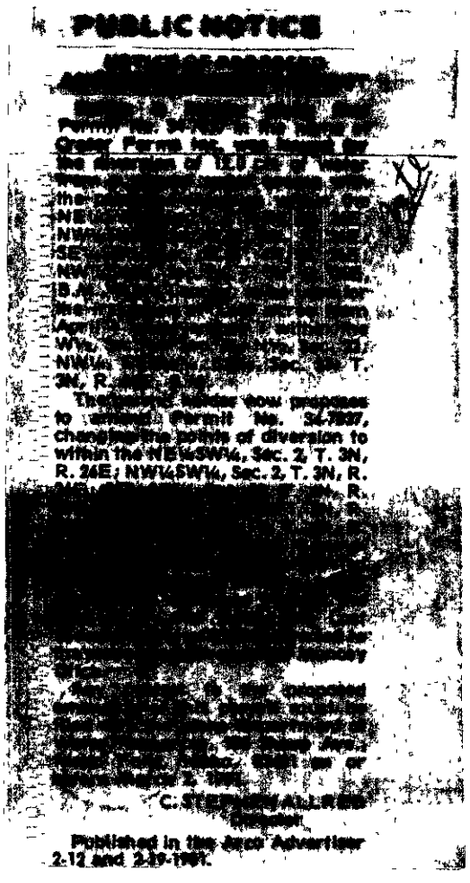

Any protest to the proposed amending of this permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401 on or before March 2, 1981.

Twin Falls, Idaho 83301

Dear Mr. Barnhill:

Enclosed are copies of water right licenses 34-2459, 34-2460, 34-2461 and 34-2462, as you requested during our recent telephone conversation.

We have also included a copy of Permit 34-7037 along with its latest amendment. Final proof of beneficial use is due on or before June 1, 1978.

We also found permit no. 34-7003 for the diversion of 16 c.f.s. of 800 inches of water from Wood River that was filed in 1968. This permit was never completed as proof of beneficial use of water was never made and it lapsed on August 1, 1973, and, therefore, is no longer valid.

We hope this provides the information you are seeking.

Sincerely,

BOBBY D. FLEENOR
