ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is **APPROVED** Date 5-20-91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Extension approved by Norman Young Approval Date 4/21/92

This extension is valid for 12 months beyond the above extension approval date.

SPECIFIC CONDITIONS OF APPROVAL FOR DRILLING PERMIT
34-91-Z-003

1. The drilling permit authorizes only deepening of the well drilled under drilling permit 34-89-E-008, but does not authorize construction of a new well.
2. The permit holder shall notify the Department (phone 525-7161) at least five (5) days prior to the start of construction in order that the Department can observe the work.
3. The well shall be cased with unperforated casing and sealed to a minimum depth of 150 feet or to the first confining layer, whichever is deeper. Both the owner and the well driller are charged with the responsibility of taking whatever steps might be necessary to prevent the shallow "perched" ground water from entering the well.
4. Maximum rate of diversion from the well shall not exceed 4.4 cfs. The original well shall not be pumped at the same time this well is pumped unless a transfer to add a point of diversion is approved.
5. A measuring device (which can be a weir in the ditch near the discharge from the well) and a locking control valve shall be installed before using the well.
6. Diversion and use of water from the well is subject to the control of the watermaster of Water District No. 34, the Big Lost River.
7. The Director retains jurisdiction of the construction of the well to require mitigation or reconstruction of the well if prior water rights are injured as determined by the Director.
8. Acceptance of this drilling permit and deepening of the well as herein authorized, constitutes recognition of IDWR's authority to monitor the well discharge and adjust the flow rate to not exceed 4.4 cfs whenever necessary.

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS

Dated this 21st day of April, 1989.

Dear Mr. Techick:

Upon checking our files we find that we do not have the log on your well. The log is an important part of your recorded water right, and state law requires that they be filed in this department.

Since we have four different people by the name of Cushman who are licensed to drill wells we need a little more information as to the name and address of the one who did your drilling so that we may contact him for the log. Below are the names and addresses of the different Cushmans. Please check the one who drilled your well and return to us.

Dear Mr. Techick:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Arco Advertiser, all submitted in proof of completion of works and beneficial use on Permit No. E-23769.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-28769

Mr. John Techick,
Moore, Idaho.

Dear Mr. Techick:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-28769. The proofs are to be made at 9:00 o'clock A.M., on the 10th day of June, 19 63 before Charles A. Jones, Box 245, Arco, Idaho, Notary Public.

As of this date we have mailed the Notice to the Arco Advertiser Arco, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
