Department of Water Administration

TO: Bob Fleenor
FROM: Norm Young
SUBJECT: Permit No. 34-2490
DATE: November 26, 1971

Mr. Milan Stewart visited our office today with regard to your letter of November 18, 1971 to Mr. Mounty L. Dick of Arco. In that letter you indicated that the department had examined the works covered by Permit No. 34-2490, and had issued a license for 2.09 c.f.s. You also indicated in the letter that the examiner had found the applicant was irrigating 157.5 acres in the SE $\frac{1}{4}$ of Section 14 which was not covered by the permit, and urged him to file a permit on this.

Mr. Stewart showed me a license, No. 34-2289, allowing him to pump 1.0 c.f.s. on the afore mentioned land. I told Mr. Stewart that he would not absolutely have to file a new permit to continue pumping, but he intends to do so because he does not, at this time, have adequate water. He will make this new application after he determines how much more water he can get from his well.

Dear Mr. Dick:

A representative of this Department has made an examination of the works covered by your Permit No. 33113/34-2490 and has found the following:

Quantity of water diverted: 2.09 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 2.09 c.f.s.

The maximum quantity of water diverted shall not exceed 357 acre feet per season.

Beneficial use: Irrigation of 119 acres within the N $\frac{1}{2}$ NE $\frac{1}{4}$ (80), SE $\frac{1}{4}$ NE $\frac{1}{4}$ (39), Sec. 23, Twp. 3 N, Rge. 26 E, B.M.

The priority date established is: October 25, 1966

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

We have also been advised by our field examiner that you are irrigating 157.5 acres within the SE $\frac{1}{4}$ of Sec. 14, Twp. 3 N, Rge. 26 E, B.M. which is not covered by this permit. Since Idaho is under a mandatory permit system for ground water appropriation, you will be required to obtain a permit for this additional acreage. We are enclosing an application for permit form along with instructions for filing an application for your use in this matter.

If you have any questions regarding the above matters, please contact us at once.

Dear Mr. Dick:

Please be advised that before the Department can accept your proof affidavit submitted as proof of beneficial use for the above referenced permit, it will be necessary to have Mr. Burke assign this permit to you. We are enclosing a partially completed assignment form for your use in this matter.

We also wish to bring to your attention the fact that this permit was issued for the irrigation of 120 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 23. Dear Mr. Clay;

Early in August I completed an application for a license on my irrigation well. Later in the month Rex Chapman was out here and inspected the well and went over the land.

I am very anxious to secure this license, as I may be selling or trading soon.

Is there any reason

Will you please give this

Dear Mr. Burke:

One of the conditions of approval of your water Permit No. G-33113/34-2490 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 28, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33113 (new no. 34-2490)

Mr. N. Rulon Burke
Box 95
Arco, Idaho

Dear Mr. Burke:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dear Mr. Burke:

Returned herewith is your application to appropriate the subterranean waters of the State of Idaho, and personal check for \$5.25. The filing fee required for 120 miners inches or 2.4 cfs is \$5.50. Please remit.

It is noted you have applied for 120 miners inches of water, however, you have shown the 120 inches as 2.2 cfs, whereas, it is actually 2.4 cfs. Please make any corrections.

Under Item 12, lands to be irrigated, you show 120 acres located in the NE~~W~~, Section 23, Twp. 3 N., Rge. 26 E.B.M. However, your map also indicates 120 acres in the SE~~W~~, Section 14, Twp. 3 N., Rge. 26 E.B.M. Please advise us as to your intent as to the 120 acres in Section 14. Also, please advise us as to the ownership of the land in the NE~~W~~SE~~W~~, Section 14, Twp. 3 N., Rge. 26 E. B. M.
