SUBJECT Permit No. 34-2489, Leon L. Williams

In a telephone conversation today with Mr. William's a corrected land list resulted. I have made the necessary changes which are reflected on the rough draft and on the proof of beneficial use exam.

At the time of Proof of Beneficial exam, Williams' representative failed to include the extra acreage, because no irrigation had taken place on those lands for 3 irrigation seasons.

Dear Mr. Williams:

One of the conditions of approval of your water Permit No. G-33112/34-2489 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 25, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33112 (new no. 34-2489)

Mr. Leon L. Williams
Route #1
Darlington, Idaho

Dear Mr. Williams:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mr. Williams:

This department has received a log of a well that you have had drilled by Bill Findlay in the NE¹/₄ NW¹/₄, Sec. 15, T. 6 N, R. 25 E, B.M., Custer County but is unable to correlate the log with a permit to appropriate groundwater. Would you please identify the permit under which this well was drilled.

If no permit has been issued for the well in question, please be advised that Idaho law requires a permit to appropriate groundwater for all uses except those using less than 13,000 gallons of water per day, and a permit application should be filed with this department at once.

Very truly yours,

Dear Mr. Watts,

My correct name is Leon L. Williams and my address is Rt 1, Darlington, Idaho. Our well permit is Permit No. G 33112 which you received Aug 16, 1966 - Recorded in Book 116 Page 33112 and approved Aug 25, 1966. Apparently Mr. Findley has made a mistake on the description of the well log which you received from him.

The description on this permit is
Location of the well: SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of
section 18 Twp 6 No. Rge 26 EBM County
of Custer. Let us know if you
need a new well log or anything
to correct this error.

Sincerely

Leon L. Williams
