Dear Mr. Waters:

One of the conditions of approval of your water Permit No. G-33099/34-2485 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 16, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33099 (new no. 34-2485)

Mr. Derrald J. Waters
Box 73
Mackay, Idaho

Dear Mr. Waters:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney

Re: Application for Permit

Mr. Derrold J. Waters,
Box 73,
Mackay, Idaho.

Dear Mr. Waters:

Returned herewith your personal check for \$5.00 and application to appropriate the subterranean waters of the State of Idaho.

It is noted you have listed the point of diversion as NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 28, Twp. 7 N., Rge. 24 E.B.M, however, you have failed to show the diversion on the maps. Also, your application lists the lands to be irrigated as NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 28, Twp. 7 N., Rge. 24 E.B.M., however, your map shows the land to be located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 28, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 21, Twp. 7 N., Rge. 24 E.B.M. The map and the application must agree so please revise both, and re-submit all papers and fees.

Please contact us if we can be of further assistance.
