NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that the Bureau of Land Management, P. O. Box 430, Salmon, Idaho, has received an approved Permit No. G-32899/34-2476 issued by the Idaho Department of Water Administration authorizing the diversion of 0.4 cubic feet per second of water from a ground water source. The priority to be established under this permit is July 30, 1966 and the permit was approved June 1, 1966.

Water is to be diverted by well and pump from a point within the SE $\frac{1}{4}$ -SE $\frac{1}{4}$ Sec. 2, T. 7N, R. 23E, B. M., Custer County, to be used for domestic and irrigation purposes in the SE $\frac{1}{4}$ Sec. 2, T. 7N, R. 23E, B.M.

(Mackay Reservoir Recreation Site)

Proof of the application of the water to beneficial use was submitted to the Department on August 4, 1971. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

Dear Mr. Ford:

We acknowledge receipt of the affidavits of publication submitted in connection with the above referenced permits.

Before licenses can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the systems. If someone other than you should be contacted, please advise.

Gentlemen:

Recently a water right exam was made on the camp ground at the Mackay Reservoir. In order to properly license the camp ground an idea of the possible volume used in acre feet per annum is necessary, so that we may compute this amount, this Department needs to know the total number of camp sights on the grounds and if possible the design of the system in capacity of same.

Your immediate reply will be appreciated. If you have any problems concerning this, please do not hesitate to contact this office.

Dear Mr. Ford:

We acknowledge receipt of the affidavits submitted as proof of beneficial use in connection with the above referenced permits. Enclosed please find two orders which reinstate these permits; you will note that the priority dates have been advanced.

Rules of Practice and Procedure, adopted by the Department on August 1, 1968, require that a notice be published at your expense in a newspaper as prescribed by the Department for two consecutive weeks. The notice will advise that these permits have been issued and give the public an opportunity to protest the intent of the permits.

Enclosed are copies of the proposed notices for publication and authorizations for the Department to publish the notices at your expense. Please review the notices and if you agree with the contents, sign the authorizations and return the forms to this office in order that the Department may cause the notices to be published. If a major discrepancy exists in the proposed notice, please advise us by return mail so that we may assist you in clarifying the issue.

Dear Sirs:

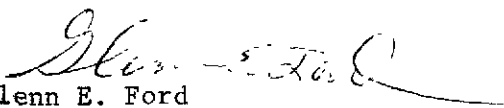

Your letter of June 8, 1971, called the attention of this office to the fact that the following Permits have lapsed:

G-32899/34-2476
G-32898/72-2139

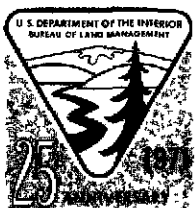

We have checked our records and have been unable to identify these numbers in the water permits of which we have a record.

Would you please give us additional information about these permits, whether they are for wells, pipelines, ditches, etc., the date they were issued, and the legal description of their location. With this additional information, we will check our records again.

Gentlemen:

One of the conditions of approval of your water Permit Nos. G-32899/34-2476 and G-32898/72-2139 was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1971. Enclosed are affidavit forms which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavits or requests for extensions of time must be received by this Department on or before the above mentioned date, otherwise the permits will lapse and be of no further force or effect.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
