Dear Sir:-

I have your letter of March 12, addressed to my late husband, Harvey K. Walker in regard to Permit No. 30244/34-2440.

My son took these papers to Boise to you and was told that you had to have a copy of the will in order to make the necessary transfer and that I was to send you \$15.00 for licensing fee plus \$10.00 for filing fee, a total of \$25.00.

I am inclosing my check for \$25.00, also a photo copy of the will and the "Application for Amendment" which you sent to be signed and filled out.

Am sorry this has been held up, but thought my son could take care of all this in Boise.

I hope this is all the information that you need.

Thank you for your help.

Yours truly,

Quantity of water diverted: 1.55 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.55 cfs

The maximum quantity diverted shall not exceed 357.2 acre feet per year.

Beneficial use: For stockwater purposes within the SW 1/4 NE 1/4, Sec. 6; & for irrigation of 110 acres within the NW 1/4 SE 1/4, S 1/2 SE 1/4, Sec. 6; N 1/2 NE 1/4, Sec. 7; Twp. 3 N, Rge. 27 E

Point of diversion: SW 1/4 NE 1/4, Sec. 6, Twp 3 N, Rge. 27 E, B.M.

Priority date established: October 10, 1961

The place of use and the land to be irrigated was found by our examiner to differ from that listed under your permit, therefore, it will be necessary for you to amend the permit before a water license can be issued. We have enclosed a partially completed application for amendment for your use. Please sign and return the application along with a \$10.00 filing fee.

Please be advised that there is also a \$15.00 licensing fee due. Therefore, we must receive the completed application for amendment and a fee totaling \$25.00 within 30 days of the date of this letter in order to be able to issue a water license as set forth above.

If you do not concur with these findings or have any questions, please contact this office within the 30 day period.

Dear Mr. Walker:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-30244 are due not later than Oct. 12, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER
