Dear Mr. Fullmer:

The date of priority under your application for permit has been changed to September 5, 1961 to agree with the application of Albert W. Fullmer which is acceptable as received today. Also the name Albert W. Fullmer has been deleted.

This is being done as per your letter dated September 1, 1961.

We trust this has corrected all the troubles we have had in regard to the applications.

Dear Sir: Permit # D-50156

On the papers returned from your office the drawing of the land didn't look right. So we went to the A.S.C. office in Mackay & had our farm drawn from their aerial photo.

We own the section with the blue X's. The I added to your drawing receive some parts of well water - (the ^{Part of it} land is under & along the river) The well (in your map) should be moved just north into the next section of ground. (The red square by the well is Albert Fullmer house. 13" The red square 4 in 18" is Wm Ross Fullmer house. Ed Rockwell who owns the land wrote it this way.

S. E 1/4 of N.W 1/4 Section 13.

Place the water on the map as you see fit. Thanks.

Re: Permit No. G-30156

William Ross Fullmer
Route #1
Darlington, Idaho

Dear Mr. Fullmer:

Thank you for your letter of April 25, 1968. After reviewing the amendment you submitted and researching our correspondence dated January 16, 1967, February 15, 1968, and March 8, 1968, there appears to be some confusion as to what is required. Therefore; the department has prepared a new application for amendment showing the lands irrigated during our July 1, 1966 field examination.

The department can only issue a license under this permit for 100 acres. Therefore, you are requested to sign the new amendment and return it with a \$5.00 filing fee. You will also be required to publish a correction notice in connection with the amendment. The cost of the publication is to be paid by yourself. The department is enclosing its form 11, authorization for the department to publish the correction notice at your expense. Please sign the form 11 and return it with the new amendment form and \$5.00 filing fee.

The amendment which we received on April 26, 1968 did not correct the permit as required; therefore, if the department was to process this amendment, we could only take your fees and deny the amendment.

If we may be of further assistance please contact us.

Dear Mr. Fullmer:

Thank you for your letter of February 20, 1968 on the above referenced permit.

We have reviewed the map submitted and have determined that the map and the field examination correspond. You are actually irrigating 114 acres and the well is producing 4.52 cubic feet per second. However, your permit was approved originally for 100 inches or 2.0 cubic feet per second. This will be the maximum water that can be licensed under this permit.

Also, your permit was approved for 100 acres; whereas, you are actually irrigating 114 acres. We cannot approve an amendment which would expand your permit. Therefore, the maximum that water license G-30156 could contain would be 100 miners inches or 2.0 cubic feet per second for 100 acres of ground.

However, you have changed the lands irrigated under the permit; therefore, we will still require a land list amendment before we can issue a license to cover the 100 acres of ground that the permit will allow.

You are requested to complete the amendment and return with a \$5.00 fee so that we may proceed with the licensing of your permit.

Very truly yours,

Donald W. McEldowney

On the permit 100 Acres of land
are listed - to correspond to the 100
inches of water from the pump.
If more land is needed then the
permit can be extended to cover the
next 40 acres. Will this solve the

all the land be under this permit?

Dear Mr. Fullmer:

Please be advised that the Department of Reclamation has conducted a field examination of the lands and irrigation system covered by Permit No. G-30156.

The results of the examination indicated that the lands which you are actually irrigating do not correspond with the lands listed under the permit. Therefore, before we can issue a license for your well, you will be required to file an application for amendment and publish the amendment for two consecutive weeks in the county newspaper.

We are enclosing an application form for amendment showing the proposed land amendment. You will note that the amendment covers only 100 acres of ground; whereas, the field examination actually found 114 acres. Due to the limits of your permit, 100 acres will be the maximum covered by this permit.

Inasmuch as your source of water is a well, you should file an additional permit to cover the 14 acres which are not covered by this proposed license.

If you agree with the proposed amendment, please sign the amendment and return it with a \$5.00 application fee. Also enclosed is the department's form 11, authorization for the department to publish the amendment at your expense. Please sign the authorization and return it with the amendment and \$5.00 fee.

Please contact us if we may be of further assistance. Your prompt attention will be appreciated.

Dear Mr. Fullmer:

Permit No. G-29638 cannot be renewed; however a new permit could be issued if you file another application. This would be a completely different permit and would require payment of another filing fee.

If the water under Permit No. G-30156 is used on land other than that listed in the permit the enclosed land list amendment form should be filled out and returned to this office with \$1.00 recording fee.

An assignment form is also included. If you want to assign part of the permit to Albert W. Fullmer fill it out and return it with \$0.50 recording fee.

Permit No. G-30156 must be proved in the name of the holder(s).

Very truly yours,

CARL E. TAPPAN

Dear Sir,

Thanks for the papers etc in
regard to Well Permit # S.
29638.

It was decided after we
had our permit taken out
to drill a well with Albert
W. Fullmer in another location
so the well wasn't dug.

I do want to keep the permit
in force & understand it
can be renewed - at a cost
of \$50.00. would you please
help me with this matter.
As I fill out another set
of papers. As per the
ones I have & let you change
them. I have a set of papers
"Application for Permit" if they

30156

we needed to renew permit
D. 29638.

In regard to my other
Permit - # 30156 It is
good till Sept 11. 1966.

This is made out to myself -
Wm Ross Fullmer, however
the well is owned by my
brother Albert W. Fullmer.

To Prove up on this one which
we dug & use - also we prove
up together, or each prove
up. My Permit has just my
name on it, & just the
drawing of my land that
the water is used on.

Thank you
Wm Ross Fullmer

Dear Sir:

In April 1961 I received
a permit # D. 29638 for a
well for irrigation on my farm
of 400 Acres.

Since that time I've
decided to join with my brother
& draw a well on another piece
of ground, owned by a third party
& mortgaged to his father.

My brother has 160 Acres of
ground. So I will draw 160
Acres from my original permit
to add to this joint permit

or what is the right signature.
I plan on drilling a well later
on, on my home place, but at
present will join my brother.
Thanks for any help ^{or advice} you can
give me.

Would you please send me
enclosed application for Permit.

Yours Truly,

Wm Ross Sullivan

Can ^{we} take a 99 year lease on
the ground for the well, or do
we have to have a clear title &
have said name on the deed?

Dear Mr. Fullmer:

The date of priority under your application for permit has been changed to September 5, 1961 to agree with the application of Albert W. Fullmer which is acceptable as received today. Also the name Albert W. Fullmer has been deleted.

This is being done as per your letter dated September 1, 1961.

We trust this has corrected all the troubles we have had in regard to the applications.

RE: Application for Permit

William Ross Fullmer
Rt 1
Darlington, Idaho

Dear Mr. Fullmer:

Enclosed is Form 3, Application for Permit, with instructions for use by you and your brother.

We are not interested in ownership of land or easements for rights-of-way. The agreement concerning location of the well is between you and the owner of the land.

You do not need to relinquish any part of your ^{ac}present permit; however it should be shown as existing right on the application. You can obtain a right to a maximum of one miner's inch per acre of ground from a total of all sources of subterranean water.

Very truly yours,
