 - (b) None (cubic feet per second, inches or gallons per minute) is for new lands.

As I am a grower of Certified Russett seed potatoes, it is very necessary that we have at all times adequate supplies of water for irrigation purposes, with delivery on demand, and this application is for the purpose of insuring our crop with this supplemental water right. Our present water right has been fairly dependable, however now it looks like that we are about to have a dry period in which we will need additional water for irrigation, or the supplemental water that we are asking for in this application, as the value of land here will decrease fast without water. I thank you kindly for your consideration in this matter.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Dear Sir.

There has been a long delay in this matter. But it has not been my fault. on Monday 22 of June I rec'd the letter with the depositions in. I did not notice^{at} that time that they had been mailed in Boise May the 20th. The letter had been misplaced or lost for that long.

When I did get it one of the witnesses was away and did not get back untill last night, and I thought it proper to have them both know what had to be done on the papers again. I regret the delay in this matter and hope it will go thru without trouble.

As it is very important to get this thru. The water has been put to beneficial use on the farm. and is needed there. S25625

Your letter of recent date regarding cancelling the permit.

I am helpless. If this delay had been my fault, it would be different.

I had no way of knowing that every thing was not O. K., the

long delay in the mail of the

letter was certainly no fault of

mine, and can not see why I

would be held responsible for

the delay.

and I hope it can go thru with

Dear Mr. Jorgensen:

Enclosed are the depositions of holder and two witnesses and the affidavits of publication.

You, as holder, should answer questions 7 to 11 inclusive, especially 10 and 11. Under 6 you show irrigation in only one "40" acre subdivision.

The witness did not give the land description under question 7 and Frank L. Gamett also omitted description of the place of diversion.

Complete the answers and return all papers to this office.

Dear Mr. Jorgensen:

We acknowledge the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25675. The proofs are to be made at 10:00 A. M. on the 11th day of May, 1959, before O. T. Jones, Notary Public, at Arco, Idaho.

As of this date we have mailed the Notice to the Arco Advertiser, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two dis-interested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

RE: Permit No. G-25675

Date March 5, 1959

Mr. Ephriam J. Jorgensen

Moore, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-25675 are due not later than May 11, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
