RECEIVED
FEB 29 1960
Department of Reclamation

I, Dolly Cross, of the
Arco Advertiser, a weekly newspaper of general
circulation, published weekly at Arco, Idaho, since
March, 1909, do solemnly swear that a copy of
this notice, per clipping attached, was published
weekly in the regular and entire issue of said
newspaper, and not in any supplement thereof,
for 4 (four) consecutive weeks, commencing
with the issue dated January 29, 1960
and ending with the issue dated February 19, 1960

Dolly Cross
Subscribed and sworn to before me this

23 day of Feb, 1960

Margaret E. Pearson
Notary Public.

Residence, Arco, Idaho.

My commission expires 1-16, 1961.

LEGAL NOTICE

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 10 a. m., on the 27th day of February, 1960, at Arco, County of Butte, State of Idaho, before O. T. Jones, Notary Public, at Arco, Idaho, proof will be submitted of the completion

of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25373, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is A. Etsel Moss, Moore, Idaho, Butte County.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use of which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 8, Twp. 5 N., Rge. 26 E., B. M.

5. The place where said water is used is SW $\frac{1}{4}$ Sec. 8, NW $\frac{1}{4}$ Sec. 17, Township 5 North, Range 26, E., B. M., Butte County, Idaho.

6. The date of priority which said user is prepared to establish is Nov. 30, 1954.

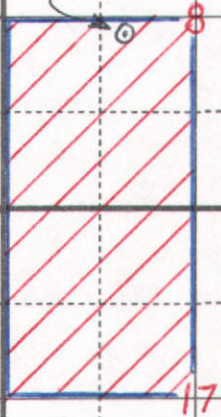

GEO. N. CARTER,
State Reclamation Engineer.

ORDER GRANTING
EXTENSION OF TIME TO
COMPLETE TRANSFER

On July 20, 1992, the Department approved the above
referenced Application for Transfer with a condition that:

The change authorized by this transfer shall be
accomplished within one (1) year of the date of this
approval.

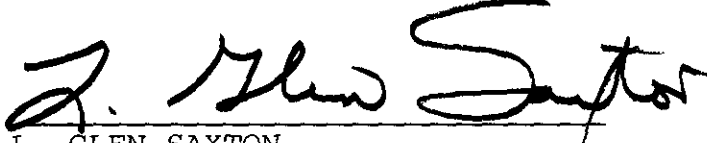

The Department has requested notification that the transfer
has been completed.

The right holder has notified the Department that the
transfer has not yet been accomplished.

The right holder has requested an extension of time for
completion of the transfer and has shown reasonable cause for the
delay.

IT IS, THEREFORE, HEREBY ORDERED that the right holder of
Transfer No. 3930 is granted a one year extension period in which
to accomplish the transfer.

6 General Information

a Description of diversion system _____ 3 wells and pumps to pivots, wheel lines and hand lines.

b Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes

c Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer

N/A

d Remarks
Water rights listed are the proposed recommendations for the current Directors Report issued 1/23/92. *Remarks on claims state that total cfs for groundwater will not exceed 8.67 cfs. Claim 34-12053 is an expansion claim that gets no extra water. Undoubtedly cfs is the capacity of the two wells.

CONDITIONS OF APPROVAL
Transfer of Water Rights
Nos. 34-2318/2414/2503/7027 & A34-12053

1. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
2. If construction of the well under this right was not initiated prior to July 1, 1987, commencement of well construction or diversion of water under this right is prohibited unless a drilling permit is obtained from the Department.
3. Use of water under this transfer is limited to a combined annual volume of 2093.0 acre feet for the irrigation of 598 acres. Each **licensed** right, when used individually, is limited as follows:
 - 34-2318 - 315 acres/1102.5 acre feet
 - 34-2414 - 157 acres/549.5 acre feet
 - 34-2503 - 180 acres/630.0 acre feet
 - 34-7027 - 37 acres/129.5 acre feet
4. The combined rate of diversion under these rights shall not exceed 8.67 cfs.
5. The well shall be cased with unperforated casing and sealed to a minimum depth of 150 feet or to the first confining layer, whichever is deeper. Both the owner and the well driller are charged with the responsibility of taking whatever steps might be necessary to prevent groundwater from the cased and sealed interval of the well from entering the well.
6. The right holder shall notify the department at least five (5) days prior to the start of well construction in order that the department can observe the work.
7. The Director retains jurisdiction of this transfer in order to instruct the watermaster of Water District No. 34, Big Lost River, in the diversion and use of the right in order to protect prior water rights as determined by the Director.
8. The Director retains jurisdiction of the construction of the well to require mitigation or reconstruction of the well if prior water rights are injured as determined by the Director.

Dated this 20th day of July, 1992.

The undersigned hereby protest the attached
Notice of Proposed Change of Water Right for at
least, but not limited to the following reasons
to wit;

1. There is a moratorium in Pasin 34.
2. The water supply is insufficient.
3. It would reduce the artesian pressure.
4. Against the public interest.

MEMORANDUM

TO: Files 34-2318/2414/2503/7027, A34-12053

FROM: Sharla

DATE: July 1, 1992

RE: Transfer Review (No. 3930)

The above referenced transfer application proposes to add a point of diversion (well) under these rights and the associated adjudication claims. Since this filing is for the addition of a point of diversion only, the standard conditions requiring the change to be accomplished within one year will not be added.

Advertising was completed correctly. A drilling permit is required for the new well; there is no indication that one has been filed. The standard condition requiring a drilling permit will be placed on the transfer.

The sheets containing Part 2 of the transfer application were filled out in reflection of the adjudication claims. Part 1, however, identified the rights being transferred as the original licenses (with the exception of 34-12053, which obviously is a new Beneficial Use Claim). This creates difficulty in reviewing the document as well as data entering the information. Returning the transfer to the region for creation of additional Part 2 sheets in reflection of the original licenses is not warranted. It is obvious that a larger permissible place of use is now irrigated under the original licenses and the beneficial use claim. The permissible place of use will be entered under each of the licenses and a condition limiting the annual volume and number of acres under each individual right will be added. Further, a condition limiting the combined rate of diversion will be added.

The transfer can be approved with the following conditions:

T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

If construction of the well under this right was not initiated prior to July 1, 1987, commencement of well construction or diversion of water under this right is prohibited unless a drilling permit is obtained from the Department.

Use of water under this transfer (reflected by Licensed Right Nos. 34-2318/2414/2503/7027 and Beneficial Use Claim A34-12053) is limited to a combined annual volume

MICROFILMED

of 2093.0 acre feet for the irrigation of 598 acres.
Each licensed right, when used individually, is limited
as follows:

34-2318 - 315 acres/1102.5 acre feet
34-2414 - 157 acres/549.5 acre feet
34-2503 - 180 acres/630.0 acre feet
34-7027 - 37 acres/129.5 acre feet

The combined rate of diversion under these rights shall
not exceed 8.67 cfs.

INTER - DEPARTMENT MEMO

TO: RON CARLSON
FROM: ERNEST CARLSEN
DATE: APRIL 28, 1992
RE: RECOMMENDED CONDITIONING FOR RONALD DEE
TRANSFER APPLICATION

Part 2 of this Application for Transfer was prepared based on the "R" record recommendations for the Notice of Claim filed by Mr. Dee in the SRBA. The application lists 4 (four) licensed rights and 1 (one) expansion claim pursuant to 42-1416(2).

Mr. Dee filed his SRBA Notices to reflect the entire acreage irrigated by his sprinkler system amounting to 599 acres. Since the combined licensed acreage totals only 485 acres, he also filed Notice 34-12053 as a second presumption expansion for the difference of 114 acres, with no increase in the combined rate of diversion of 8.67 cfs. Analysis of the closed system sprinkler irrigation determined there is sufficient licensed water for irrigation of the 599 acre permissible place of use.

Mr. Dee wants to convert from laterals to a center pivot at the South end of his system and to add a third well for operation of the pivot.

The proposed location of the well is about 1 1/4 miles West of the Big Lost River. Hydrology should be consulted for determining construction standards on the new well. The system does cover more land than licensed although adjudication of the expansion claim 34-12053 will provide for irrigation of the entire acreage. The conversion proposed by Mr. Dee does not increase irrigated acres when considering the acreage included under 34-12053.

MICROFILMED

AUG 12 1992

INTER-DEPARTMENT MEMO
PAGE - 2 -

The proposed change will not affect existing rights nor expand the rights being modified.

The addition of another well to his system will not change the recommended adjudication conditions for the individual and combined irrigated acreage, total diversion volume and combined rate of diversion. These conditions are listed on the attached reports for each right.

The conditions regarding future regulation of ground water will be addressed in the conjunctive management plan for the Big Lost River Drainage.

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Arco Advertiser on 3-5 & 12-1992. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Re: Permit No. **0-25373**

A. Etsel Moss
Moore, Idaho

Dear **Mr. Moss**:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **0-25373** shows the well is ~~(are)~~ capable of conveying **225** miner's inches, or **4.5** c.f.s. of water for the irrigation of **315** acres.

Upon receipt of the statutory fees, totaling \$ **25.00**, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ **20.00**, based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of **November 30, 1954** to the use of **4.5** second feet of subterranean water with the point of diversion in **NW $\frac{1}{4}$ Sec. 8** for irrigation of **315** acres in the **W $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 8; N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 17, T. 5 N., R. 26 E., B.M.**

Since your permit shows the point of diversion to be in the **NE $\frac{1}{4}$ SW $\frac{1}{4}$** and place of use in **SW $\frac{1}{4}$ Sec. 8** and **NW $\frac{1}{4}$ of Section 17** there will have to be amendments to the point of diversion and the place of use. Complete the enclosed amendment forms, submit them with \$1.00 for recording each (total \$2.00), and the above mentioned fees and your Certificate of Completion of Works and License and Certificate of Water Right will be issued.

Very truly yours,

Dear Mr. Moss:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 25373. The proofs are to be 60 made at 10:00 o'clock A.M., on the 27th day of February, 1960, before O. T. Jones, Arco, Idaho, Notary Public.

As of this date we have mailed the Notice to the Arco Advertiser with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G- ~~25373-25373~~

Date: Nov. 1, 1949

Mr. H. H. Jones
Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- ~~25373~~ are due not later than January 24, 1950. ~~25373-25373 & 25373~~

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
