RE: Permit No. G-25371
G-25372

Reuben C. Anderson
Moore, Idaho

Dear Mr. Anderson:

These permits have the same date of priority and the water comes from the same well to irrigate adjacent land. Permit No. G-25371 claims 3.2 cubic feet per second and Permit No. G-25372 claims 4.0 cubic feet per second.

Our field engineer's report on his inspection for proof of completion of works and application of water to beneficial use under Permits G-25371 and G-25372 shows the well is capable of conveying 170 miner's or 3.4 cubic feet per second of water for the irrigation of 220 acres. We suggest you relinquish Permit G-25371 and amend Permit G-25372.

Upon receipt of the statutory fees, totaling \$19.00 we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$14.00, based at the rate of \$2.00 for each 40-acre subdivision), confirming the right with priority of November 30, 1954 to the use of 3.4 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8 for irrigation of 220 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 8; NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 9, Township 5 N., R. 26 E., B.M. under Permit No. G-25372.

The permit shows the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 8, and the land list is different. Before the license can be issued there will have to be two amendments to the permit. Kindly complete the two enclosed amendment forms, send them, the relinquishment form, the above mentioned fees and an additional fee of \$2.00 for recording the two amendments to this office. The Certificate of Completion of Works and License and Certificate of Water Right will then be issued.

If you prefer you may amend both permits and two sets of certificates will be issued, totaling 3.4 cubic feet per second at a cost to you of an additional \$2.00 for two extra amendments and \$5.00 additional for the extra Certificate of Completion of Works.

Dear Mr. Anderson:

Enclosed is receipt No. G-4683 for \$5.25 fees for making photo copies of the one set of depositions for the two permits. Thank you for the prompt reply.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds. .

Dear Mr. Anderson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25371, G-25372. The proofs are to be 60 made at 11:00 o'clock A.M., on the 27th day of February, 1959, before O. T. Jones, Arco, Idaho, Notary Public.

As of this date we have mailed the Notice to the Arco Advertiser with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Re: Permit No. G- 25371-72-73-74

Date: Nov. 1, 1959

Mr. W. H. Jones
Moore, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 25371 are due not later
than January 26, 1960 " " G-25372- J-25373 & G-25374

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
