Dear Mr. Aikala:

Enclosed are your deposition and depositions of two witnesses regarding proof of completion of works and beneficial use of the water.

* In holder's deposition - Question 4 - one well is shown in NW¹/₄ NW¹/₄, Sec. 17, whereas deposition of both witnesses shows SW¹/₄ SW¹/₄, Sec. 17, also the permit does not show the NW¹/₄ NW¹/₄, Sec. 17.

In all land descriptions NW¹/₄ SW¹/₄, Sec. 29 is shown. That may be correct, however we believe it should be NW¹/₄, SW¹/₄, Sec. 29. A comma properly placed would be sufficient.

In holder's deposition Questions 7, 8, 9, 10 are blank. There should be answers to at least three of these questions. Under Question 11 is shown irrigation only. The question is how much and to what extent water other than the water under Permit G-25355 have been diverted and applied to beneficial use upon the lands herein described. Give full particulars, etc.

All corrections should be made before the Notary Public, though he would not have to certify to the corrections.

Dear Mr. Aikele:

Enclosed is the application for amendment to Permit No. G-25355 which was approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 90 of Permits at Page 25355 amending the point of diversion to read as follows: "To include a point located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, Township 4 North, Range 26 East, B.M., in addition to the four other ones." This should now be attached to the original permit to which it refers and of which it becomes a part.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G 25355

RECEIVED
DEC 23 1957
Department of Reclamation

Comes now Andreas Aikele and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G 25355.

That the point of diversion is described in said permit as being located
SW $\frac{1}{4}$ SW $\frac{1}{4}$, S. 17; NW $\frac{1}{4}$ NW $\frac{1}{4}$, S. 20; SW $\frac{1}{4}$ NW $\frac{1}{4}$, S. 20; SW $\frac{1}{4}$ NW $\frac{1}{4}$, S. 20; T. 4 N., R. 26 E.

That he now requests that the point of diversion be changed to ^{include} a point
located SW $\frac{1}{4}$ SW $\frac{1}{4}$, S. 17, T. 4 N., R. 26 E. B. M. in addition to the four
other ones.

That his reasons for desiring to make such change are as follows:

A well was drilled in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, S. 20 and had to be abandoned because of
sand, thus it became necessary to drill two wells in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, S. 17

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

Signed at Moore, this 18 day of Dec., 1957

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby
approve the above and foregoing application for amendment to Permit to appropriate
the Public Waters of the State of Idaho, No. G-25355. This approval constitutes
a new permit and is issued as an amendment to the original permit, to which it re-

Dear Mr. Aikele:

I am returning the amendment you sent in because I do not believe the amendment you sent in will do what you intend. There is already permission to put one well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17. Your amendment does not specify that this is an additional well.

Accordingly I have filled in an amendment blank that I hope will make the change you desire, read it carefully before signing. Also I am sending a blank form for your use in case you desire to make it differently.

Re: Permit No. G-25355

Mr. Andreas Aikale
Moore, Idaho

Dear Mr. Aikale:

Reference, your telephone request this morning that you wanted to change the point of diversion from the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, Township 4 North, Range 26 East, B. M. to the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, Township 4 North, Range 26 East, B. M. in order to facilitate the issuance of a loan.

An inspection of the permit copy in this office shows that there are four points of diversion in the permit as follows:

- # 1 - SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17
- # 2 - NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20
- # 3 - SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20
- # 4 - SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20

Since there is already permission to drill a well in that forty (SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17) there is no need for any change in the point of diversion unless you anticipate more than one well in that forty (SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 17).

However, I am enclosing a blank form for your use in case it is necessary to make an amendment.
