IN THE MATTER OF APPLICATION FOR)	
TRANSFER NO. 3304 OF WATER RIGHTS)	
34-0812/0813/0815/0816/0817/0963)	ORDER
IN THE NAME OF MARVIN GODDARD)	
_____)	

This matter having come before the Idaho Department of Water Resources (department) as a result of the review of pending applications for transfer and review of Snake River Adjudication claims filed in the Big Lost River Drainage, the department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On February 10, 1987, Marvin Goddard (applicant) filed Application for Transfer No. 3304 (application) with the department in connection with water rights 34-0812, 34-0813, 34-0815, 34-0816, 34-0817, and 34-0963.

2. On February 23, 1987, the application was protested by Bar Donna Zollinger.

3. A review of the Snake River Adjudication claim(s) filed in connection with the above captioned water right(s) shows that the points of diversion shown on the application do not agree with the point(s) of diversion claimed in the later in time document(s), the adjudication claim(s).

4. The adjudication claim(s) have been filed pursuant to Section 42-1416A, Idaho Code, as if the change(s) proposed on the pending application can be approved and decreed without the necessity of filing for a change as provided in Sections 42-108 and 42-222, Idaho Code.

5. On September 24, 1990, the department corresponded with the applicant to determine continued interest of the applicant and requested appropriate information from the applicant to justify separate consideration of the application from the more recently filed Snake River Adjudication claim(s).

6. The applicant has not responded to the department and has not shown any reason why the application should be considered separately from the adjudication claim(s).

CONCLUSIONS OF LAW

1. Section 42-1416A, Idaho Code, provides in part that:

(1) If any person entitled to the use of water has made a change in point of diversion, place of use, period of use or nature of use of all or a part of the water, including a

change as part of an exchange as defined in section 42-105, Idaho Code, prior to the entry of an order commencing a general adjudication pursuant to section 42-1408, Idaho Code, and the person entitled to the use of water has not complied with the requirements of sections 42-108 and 42-222, Idaho Code, regarding such changes, the following shall apply:

(a) the water right may be claimed in the general adjudication as changed and an application for change of the water right is not required to be filed pursuant to section 42-222, Idaho Code, and

(b) the water right may be determined by the director in the director's report pursuant to section 42-1411, Idaho Code, and decreed by the district court pursuant to section 42-1412, Idaho Code, as changed, if the change meets the substantive criteria of section 42-222, Idaho Code, for approval of such changes, provided that the change may be approved subject to conditions necessary to satisfy the substantive criteria of section 42-222, Idaho Code, for approval of such changes.

2. The department should set aside Application for Transfer No. 3304 and should consider the change(s) proposed in the application which have been claimed in the related adjudication claim(s) as being combined with and included in the review and recommendation of the adjudication claim(s) in the Director's report as required by Section 42-1411, Idaho Code.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Application for Transfer No. 3304 in connection with water rights 34-0812, 34-0813, 34-0814, 34-0815, 34-0816, 34-0817 and 34-0963 is set aside and will not be separately considered by the department.

IT IS FURTHER, HEREBY ORDERED, that the change(s) proposed in the application for transfer which have been claimed on the related Snake River Adjudication claim(s) be included in and considered by the department in the Director's report required by Section 42-1411, Idaho Code.

Dated this 13th day of November, 1990.

REMARKS:

Though the source of water for the rights listed on this transfer was decreed as the Big Lost River, historically two other streams which flow through the ranch have also been relied on to provide irrigation water. These streams known as Haystack Creek & Parsons Creek are both recognized as tributaries of the Big Lost River, though they actually flow into Mackay Reservoir. There are two diversions on Haystack Creek located in the SW1/4SW1/4, SE1/4SW1/4, Sec. 32, T. 8N, R. 23E. Water diverted at these locations irrigates land in the NE1/4NW1/4, NW1/4NW1/4, Sec. 5, T. 7N, R. 23E, north of Warm Springs Creek and the S1/2SE1/4SW1/4 and SW1/4SW1/4SE1/4, Sec. 32, T. 8N, R. 23E. Water diverted from Parsons Creek in the NW1/4SW1/4, Sec. 32, T. 8N, R. 23E, irrigates land in the NE1/4SW1/4, N1/2SE1/4SW1/4, NW1/4SW1/4SE1/4, Sec. 32, T. 8N, R. 23E. All of this property was included in the decreed place of use and to our knowledge has always been irrigated. But the irrigation water had to have been diverted from Parsons and Haystack Creeks since these creeks act as a natural barrier to conveying irrigation water from the Big Lost River on to the land described above.

The remaining lands reflected on the application have been irrigated with water strictly from the Big Lost River.

NOTICE OF PENDING ORDER TO REJECT
APPLICATION FOR TRANSFER

The department is reviewing the backlog of protested matters to determine which ones are appropriate for hearing or other action. In this review, I came across the above referenced application for transfer which you filed in February 1987. Since the application was protested by Bar Donna Zollinger, the department scheduled a hearing in the matter on October 29, 1987. The hearing was ultimately cancelled at the request of the attorneys involved and has not been rescheduled.

My review of the adjudication claims shows that the claims apparently were filed as if the points of diversion shown on the application for transfer are accomplished points of diversion, i.e. "an accomplished transfer". The discrepancy which I note, however, is that the application for transfer shows the points of diversion as follows:

NWNWSW Section 32, T8N, R23E, BM.
SESWSW Section 32, " " "
SWSESW Section 32, " " "

The adjudication claims show the points of diversion as follows:

SWSWNW Section 3, T8N, R22E, BM
SESWNE Section 32, T8N, R23E, BM
NWNWSW " " " " "

It appears the application for transfer at this point is moot, particularly since it does not agree with the later in time adjudication claims which you filed.

FEB 07 1992

September 24, 1990

Please advise this office within thirty (30) days of any continued interest with respect to the application for transfer, since the department is trying to update its records to the extent possible. If you wish to pursue the application for transfer, provide appropriate justification. If the department does not receive a response, we will void the application and let the question of the points of diversion be pursued in the adjudication proceeding.

Please feel free to contact the department if you have questions.

Sincerely,

Dear Mr. Goddard:

Enclosed please find a copy of the protest filed against the above referenced application. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed use under this transfer conflict with the local public interest?

You will be notified at a later date as to the time and place set for conference and/or hearing. Legal counsel is not mandatory at an proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of further assistance, please contact us.
