Dear Mr. Parkinson:

In reviewing the above referenced application for transfer, we find that you are requesting to remove the water from 100 acres within the NW $\frac{1}{4}$, Sec. 13, T. 3N, R. 27E, and are making it appurtenant to 100 acres within the SE $\frac{1}{4}$, Sec. 14, T. 4N, R. 26E. Before this transfer can be approved, it is necessary for you to specify the number of acres within each 40-acre subdivision that you intend to irrigate, a total of which cannot exceed 100 acres.

Please supply this information at your earliest convenience to prevent further delay in the processing of your application for transfer.

Ron the appears to be an expansion of the use. Before the transfer can be approved the number of acres to be irrigated in each 40 acre parcel must be shown.

We cannot ~~be~~ determine what right the applicant has to continue to pump from the river to irrigate the land this water is being removed from. If he has no ~~se~~ right then this would also constitute an enlargement.
