LICENSE OF WATER RIGHT

License of Water Right No. 22400/34-2296 Priority Oct. 3, 1951 Amount 3.06 cfs

THIS IS TO CERTIFY, that EMIL GUDERJOHN
of Idaho Falls, Idaho, has complied with the terms and conditions of Permit
No. 22400/34-2296 issued pursuant to Application for Permit dated October 3, 1951,
and has submitted proof to the Department of Water Administration on August 5, 1952,
that he has applied water to a beneficial use, an examination by the Department indicates that the
works have a capacity of 3.06 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 3.06 cfs for Irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 3.06 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 1, Twp. 5 N, Rge. 25 E, B. M.

in the county of Butte; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 458 acre feet per year or _____
3.0 acre feet per acre.

Description and location of place of use:

TWP	RANGE	SEC	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				TOTALS
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$

Total number of acres irrigated 152.75

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands
or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 27 day of
November, 19 72.

Director

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 30135
 Permit No. G- 22400
 District No.

1. Name of Applicant: **EMIL GUDERJOHN**
 Postoffice address: **Box 1214, Idaho Falls** County: **Bonneville** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **3.2** or Idaho
 Miners' inches **160** or gallons per minute. **1140**
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: **Underground from a well**
4. Location of point of diversion or well is in the **SW** $\frac{1}{4}$ of the **NW** $\frac{1}{4}$ of Section **1**
 Twp. **5 N.** , Rge. **25 E.** , B M, County of **Butte**
5. Water is to be used for: **Irrigation**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B. M
 - (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B. M.
7. Kind of works: **Twenty inch casing- Drilled well.**
8. Estimated cost of works: \$ **8,000.00**
9. (a) Is reservoir to be used?
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Work completed** years.
11. If applicant is a corporation, give:
 - I (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash onhand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **157 inches of 1888**
Antelope Creek water, which is only good to the first of July in a normal year. We have been
cut off as early as June 20th.
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By _____, Agent.

P.O. Box 64
Mackay, Idaho 83251

Dear Mr. Dorst:

Enclosed herewith is a copy of the Water License issued on the above referenced permit. Also enclosed is departmental receipt No. 9056 in the amount of \$8.00 covering the licensing fee.

Although this license is not in Mr. Keller's name, he controls that portion of the license that covers his land. Please note the limits of the water right.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Permit No. 34-2296

Dugl. H. Dorst
Salmon River Realty
Box 64
Blackfoot, Idaho 83251

Dear Mr. Dorst:

We have checked our records with respect to the well located on property owned by Earl Keller and find the following:

There is no driller's report on the well on file, however proof of beneficial use of the well was made, and the well was inspected by our field engineer.

His reports indicate that the well delivered 200 inches or 4.0 cfs of water, and that a license would be issued for 153 inches of water to irrigate 152.75 acres of land in the NW $\frac{1}{4}$ of Section 1, Township 5 North, Range 25 East, B. M.

It appears that the license was never issued as the statutory fees were never paid. The letter of July 20, 1961 to Mr. Keller is in error in so far as the license is concerned as it was never issued. A license can be issued upon payment of the fees in the amount of \$8.00.

Very truly yours,

A. Kenneth Dunn

Dear Mr. Dorst:

We have received your request for information concerning a well owned by Earl Keller at Darlington, Idaho. However, your letter does not contain enough information for us to check the matter thoroughly. Our alphabetical index does not indicate that Earl Keller applied for a water right permit. If you will provide us with the legal description of the point of diversion of the well we will search our files for the driller's report on the well, and will look for a water right application on it. It would also be helpful if we had the name of the person who drilled the well.

Very truly yours,

A. Kenneth Dunn
Assistant Director

AKD:MR

Dear Mr. Dunn,

In checking back I find that the original well on the above mentioned property was drilled for the owner Mr. Emil Guderjohn by the Cope Well Drilling Co. of Idaho Falls, Idaho. It seems that the well was crooked and a new well had to be drilled. In the meantime the ranch changed hands and the new owner Mr. Earl Keller applied for a permit and was informed that he would not need one as the first permit would cover the replacing of the crooked well. The two wells were drilled in the southwest corner of the following property by Mr. Leland Haney of Moore, Idaho. Lots 3-4 (N $\frac{1}{2}$ of NW $\frac{1}{4}$) (S $\frac{1}{2}$ of NW $\frac{1}{4}$) Sec. 1, TWP 5N, R25EBM. This property is in Butte County, Idaho.

Thank You,

Hugh H. Dorst

Re: License No. G-22400

Mrs. Earl Keller
Darlington, Idaho

Dear Mrs. Keller:

License No. G-22400 was issued to Mr. Goderjohn for 153 miner's inches to irrigate 153 acres of land. The well was measured to produce 200 miners inches.

A new well adjacent to an old well is generally considered a proper replacement and would hold the original priority for the same amount of water.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

G-22400

D-22400

July 19
Dear Sir:

We have a well
driller on the place
but it never occurred
to us until yesterday
that we may have to
have a permit to drill.
The reason for drilling
is that the well we
have Permit No. D-22400
in 1952 isn't pumping
but less than a half
of a stream & being the
hole is so choked the
driller refuses to go into
it to drill deeper so
we are drilling the
new hole next to it.

Please inform us right
away whether we have
to have a new permit
or not. The hole
been approved by the
government for the
new drilling

Frank Egan
Mrs Earl Keller

The well was drilled by
Cope for Emil Godejohn
which resides at Eagle
Lake at present

RE: Permit No. G-22400

Mr. Emil Guderjohn
Box 1214
Idaho Falls, Idaho

Dear Mr. Guderjohn:

The report of our field engineer on examination for beneficial use on your Permit No. G-22400 shows that your well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Township 5 North, Range 25 East, B.M., will deliver 153 inches of water and that you have irrigated 152.75 acres in the NW $\frac{1}{4}$ of said section.

Therefore, upon receipt of the statutory fee of \$8.00, a license will be issued for 153 inches, or 3.06 second feet of water from said well.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Notice for Publication NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 00 A M on the 5th day of August, 1952, at Arco, County of Butte, State of Idaho, before O T. Jones, Notary Public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of an underground source in accordance with the terms and conditions of Permit No G-22100 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Emil Guderjohn, P. O. Box 1214, Idaho Falls, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.2 cubic feet per second or 160 Idaho Miner's inches.

The place where said water is used. The Northwest Quarter (NW 1/4) Section One (1) Township 5 North, Range 25, E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is, None.

The right to take water from such works is based upon Permit No G-22400

The source of supply from which such water is diverted is Underground source, from well in the SW 1/4, NW 1/4, Section 1, Twp. 5 N, Range 25, E.B.M.

The date of priority which said user is prepared to establish is October 3, 1951

MARK R. KULP,
State Reclamation Engineer.

Permit No. G-22400

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Emil Gudenhohn, 529-11th St. Idaho Falls, Idaho. Farm owner.
Box 1214, Idaho Falls, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Ind.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-22400, October 3, 1951 date of priority. Date of permit May 1, 1951

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Un-enclosed. Well located in Southwest Corner of NW1 Section 1,
Township 5 North, Range 25 ERM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Well, 130 feet deep, cased 20 inch steel casing, water 65 feet from surface, static drawdown 12 feet. Water raised directly into my lateral and flows by gravity to all points of the farm. Flow estimated at 150 to 180 inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For Irrigation on NW1 of Section 1, Township 5 North, Range 25 ERM. whole 160 acres is cultivated except where buildings set. Crop production has been increased as the decreed water was not sufficient during latter part of season to mature crops.

11-52400

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation only

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 100 inches (Idaho Miner's inches)

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original individual

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water was used during July, August, and part of September 1951-52 to irrigate growing crops on the farm as needed. The full flow of the well was used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 157 inches of 1888 decreed water from Tubalona Creek was used as long as it was available before pumping was started.

(Sign)

Emil Gudejohn

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Arco, County of Butte, State of Idaho, on this 5th day of August, A. D. 1952.

O. F. Jones

My commission expires

Nov 6, 1954

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-22400

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Byron J. Sherman, 45 years old, Arco, Idaho, Real Estate
Salesman, Arco, Idaho

Ques. 2. Are you acquainted with Eril Guderjohn, the
holder of Permit No. G-22400? How long have you known him and where does
he reside?

Ans. Yes. I have known him for about seven years. He resides in
Idaho Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G-22400, and are you
familiar with its provisions and conditions?

Ans. I have not read this permit, but I am familiar with the provisions
of this type of permit generally.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Well. Well is situated in the Southwest Corner of Mr. Guderjohn's
farm and discharges its flow directly into his ditch. This is the
highest portion of his farm and the water will flow to any other point
on the place from the well. The pump is driven by an electric motor
the well is cased with a 20 inch casing and pump and motor are mounted
on a concrete foundation above the top of the ground above the casing.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. About 3 second feet. I don't know that water has been officially
measured, but I estimated the stream to be 150 to 175 inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I estimated flow at 15 to 175 inches. I have run quite a lot of
water, having been a ditch rider and assistant water master.

Handwritten:
11-25-10

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~Water is used on Northwest Quarter of Section One, Township 5 North, Range 25 E.R.N. to irrigate this entire 160 acres which is all cultivated land producing hay, grain, and potatoes. This land has water decreed from Antelope Creek which does not produce sufficient flow to mature crops. Water from well is used to suppliment decreed water and has greatly improved and insure pro-activity of the farm.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. ~~for irrigation only~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~Land is very good farm land. This water as stated above is used as a suppliment to decreed water and is insurance to crop maturity.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~I have none.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~During month of August I visited the well at which time water was beinz used to irrigate growing crops. I know from reports of neighbors and others that the well was used both this crop season and last.~~

(Signed) *John J. Sherman*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Arco, County of Butte, State of Idaho, on this 5th day of August, A. D. 1952.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-22400

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Orville Smith, 40 years old, Farmer, Earlinton, Idaho

Ques. 2. Are you acquainted with Emil Eiderjohn, the holder of Permit No. G-22400? How long have you known him and where does he reside?

Ans. 4 years. He resides at Idaho Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G-22400, and are you familiar with its provisions and conditions?

Ans. No. I am generally familiar with the provisions of this type of permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, 130 feet deep, drilled and cased with 20 inch steel casing. Well is on Southwest corner of farm and water pumped directly into the ditch from where it flows to all parts of the farm.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the flow of water from the well to be about 175 to 180 inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Estimate 175-180 inches

J. A. A. 1900

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used on NW¹ Section 1, Township 5, North, Range 25 EBM. Used in addition to decreed water from Antelope creek which is not sufficient to mature crops. Can mature an properly water all crops since installation of well.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is good. It was farmed before, but did not have enough water. Well produces sufficient water to irrigate farm when other water fails.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

water or works,

Ans. I have no interest in the land./ I am farming the place on a share-crop basis and probably know as much as anyone about the well and amount of water it supplies.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. As stated above, I have farmed the place since well was put into operation and I am more familiar with the operation of this well and amount of water than any one I know.

(Signed) Orville E. Smith

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, July 26, 1952

Re: Permit No. 6-22400
Enil O. Serjohn

Mr. C. T. Jones
Notary Public
Arco, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 6-22400.....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On ~~August 5, 1952~~, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
~~Arco, Idaho~~ before ~~C. T. Jones, Notary Public~~

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

~~W. H. H. H.~~
Commissioner of Reclamation
State Reclamation Engineer

Arco Advertiser

Arco, Idaho

Gentlemen:

We have checked the notice of Beneficial Use proof on Permit No. G-22400, appearing in your issue of July 4, 1952, and find one error.

The name of the permit holder is Guderjohn, and not Gunderjohn.

Please make this correction in your subsequent issues.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 5th day of August, 1952,
at Arco, County of Butte State of Idaho, before
O. T. Jones, Notary Public, proof will be submitted of the
application to beneficial use of 3.2 cubic feet per second of the waters of an under-ground
source in accordance with the terms and conditions of Permit No. G-22400
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Edil
Guderjohn, P.O. Box 1214, Idaho Falls, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 3.2 cubic feet per second or 160 Idaho Miner's inches.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

The Southwest Quarter (SW $\frac{1}{4}$) of the Northwest Quarter (NW $\frac{1}{4}$)

Section One (1) Township 5 North, Range 25, E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

None

The right to take water from such works is based upon Permit No. G-22400

The source of supply from which such water is diverted is Under
Ground source; from well in the

SW $\frac{1}{4}$, NW $\frac{1}{4}$, Section 1, Twp. 5 N., Range 25 E., E.B.M.

The date of priority which said user is prepared to establish is October 3, 1951
Supplemental to priority date
of 1888, Antelope Creek.

MARK R. KULP

State Reclamation Engineer.

RE: Permit No. G-22400

Messrs. J. t. Clair & St. Clair
Lambrock building
Idaho Falls, Idaho

ATT: Mr. Gilbert C. St. Clair

Dear Mr. St. Clair:

We enclose Certificate of Completion of Works issued under Permit No. G-22400 in the name of Emil Guderjohn, for the diversion of 3.5 second feet of water from a well in the S.W. 1/4 Section 1, Township 3 North, Range 15 East, B.M., for the irrigation of land in the N.W. of said Section 1.

We also enclose departmental receipt No. 24564 for the \$5.00 fee paid in connection with proof of completion of works.

We shall send to the Arco Advertiser notice of beneficial use proof to be made under this permit on August 5, 1952, with instructions to publish it once a week for four consecutive weeks prior to that date and to send the affidavit of publication to Mr. Guderjohn together with statement of costs.

At the time set, Mr. Guderjohn should appear before O. T. Jones, Notary Public together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing depositions, form for which will be mailed to Mr. Jones prior to the date for making proof.

Very truly yours,

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Barnesville

ss.

Emil Guderjohn, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. G-22400, and that his postoffice address is P.O. Box 1214, Idaho Falls, State of Idaho

Second: That the name of the stream which said water is to be ~~directed~~ ^{diverted} is None, being a well.

Third: That the point of diversion of said water is in the Southwest corner of the Southwest Quarter of the Northwest Quarter of Section 1, Township 5 North, Range 25

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by October 10, 1953

Fifth: That the use for which said water is intended is irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (~~substantially~~) fully completed and consisted of the following:

I. Kind of works: drilled well
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: 20 inch casing

(a) ~~Length~~ ^{DEPTH} of ~~well~~ ^{Well} 130 feet, length of dam at top feet, length of dam at bottom feet. Material used in construction steel casing

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir None acre feet.

(c) Size of headgate: Width None feet, height None feet.

(d) Conduit None width at bottom None feet, width at water line None
(State whether ditch, flume or pipe)

feet, depth of water feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is miles.

Seventh: That said works are capable of conducting to the place of intended use 3.2 second feet of water.

Eighth: That water appropriated under said permit is available for 160 acres of land described as follows: Northwest Quarter (SW 1/4) of Section One (1), Township Five (5) North, Range Twenty-five (25), East of the Boise Meridian.

Ninth: Remarks: That Johnston Pump has been installed having 60 horsepower.

RE: Permit No. G-22400

Messrs. St. Clair & St. Clair
Hesbrouck Building
Idaho Falls, Idaho

ATT: Mr. Gilbert C. St. Clair

Dear Mr. St. Clair:

We acknowledge receipt of your letter of June 5, 1952, enclosing affidavit of Emil Guderjohn in proof of completion of works under Permit No. G-22400, also duplicate notice of beneficial use proof to be made under this permit on August 5, 1952.

We return the proof of completion of works in order that Question 8 may be completed by giving the legal description of the land upon which the water is to be used.

Also, if a pump has been installed, please give the kind and power of same under Question 9.

In the notice for beneficial use proof, we notice you only describe the place of use as the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ Section 1, Township 5 North, Range 25 East, B.M., but we think this is a error as the permit describes the entire NE $\frac{1}{4}$ of the section, and with your permission we shall change the notice accordingly.

We also direct attention to the fact that the earliest priority that can be established under a permit is the date the application was filed in this department, which, in this case, is October 3, 1951. If an earlier priority is desired, it could possibly be obtained through the district court by showing continuous use from an earlier date.

October 11, 1951

RE: Permit No. G-22400

Messrs. St. Clair & St. Clair
Hesbrouck Building
Idaho Falls, Idaho

ATT: Mr. Gilbert C. St. Clair

Dear Mr. St. Clair:

We enclose Permit No. G-22400 in the name of Emil Guderjohn, together with departmental receipt No. 23820 for the \$5.75 filing fee.

You will note that we have allowed two years or until October 10, 1953, within which to make the two proofs required to complete the water right. However, the applications states that the works are completed, and these proofs can be made at any time before that date.

The first proof, or proof of completion of works, should be made on Form 6 enclosed, executed before a Notary Public, and returned to this Department with the statutory fee of \$5.00.

The statutes require publication of a notice in a county newspaper for four consecutive weeks prior to making proof of beneficial use. This notice should be made in duplicate on Form 10, setting time and place, and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks' publication.

Both copies of Form 10 to be returned to this Department, together with Form 11, which is your authorization for us to have the notice published at your expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Application No. G-30135

Messrs. St. Clair & St. Clair
Hasbrouck Building
Idaho Falls, Idaho

ATT: Mr. Gilbert C. St. Clair

Dear Mr. St. Clair:

We have received the application of Emil Guderjohn to appropriate 160 Miners inches or 3.2 second feet of underground water from a well.

However, we must return the application herewith for the following corrections:

Question 2 does not give the complete address of the Applicant.

Question 4 and Question 12 describe land in Section 1, Township 5 North, Range 25 East, B.M., which Question 4 states is in Bonneville County.

There is evidently an error either in the location or the county, as Township 5 North, Range 25 East, B.M., is not in Bonneville County. Please make the necessary corrections and return promptly in order that there may be no unnecessary delay in the approval of the application.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Enc.

G-22400

September 27, 1951

Messrs. St. Clair & St. Clair
Hosbrouck Building
Idaho Falls, Idaho

ATT: Mr. Gilbert C. St. Clair

Dear Mr. St. Clair:

We have your letter of September 25, enclosing application of Emil Guderjohn to appropriate 200 inches of underground water. However, the duplicate sketch maps required with all applications were not enclosed and in case the forms included in the application blank have been misplaced, we are enclosing others. These sketch maps should show the location of the well, and the land to be irrigated should be colored or cross-hatched.

In this connection, we note that while Question 4 of the application gives the location of the well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1, the little pencil drawing on the third page seems to show it in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, and as Question 12 describes the land to be irrigated as the entire NW $\frac{1}{4}$, we assume the correct location is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 1.

Since the maximum allowed by statute for irrigation is one inch per acre, the application can only be approved for 160 inches. The filing fee on which amounts to \$5.75.

After the application is correctly filed, it would probably not take more than 10 days for it to be approved and returned to the applicant.

Very truly yours,

MARK R. KULP

**Notice for Publication
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that a 10:00 A M on the 5th day of August, 1952, at Arco, County of Butte, State of Idaho, before O. T. Jones, Notary Public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of an underground source in accordance with the terms and conditions of Permit No. G-22400 heretofore issued by the Department of Reclamation of the State of Idaho

The name and postoffice address of the person or corporation holding said permit are Emil Gunderjohn, P. O. Box 1214, Idaho Falls, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.2 cubic feet per second or 160 Idaho Miner's inches.

The place where said water is used: The Northwest Quarter (NW $\frac{1}{4}$) Section One (1) Township 5 North, Range 25, E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is, None.

The right to take water from such works is based upon Permit No G-22400.

The source of supply from which such water is diverted is Underground source, from well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 5 N, Range 25, E.B.M.

The date of priority which said user is prepared to establish is October 3, 1951.

MARK R. KULP,
State Reclamation Engineer.
(Publish July 4, 11, 18, 25, 1952)
