Mr. Wilse A. Nielson
Arco, Idaho

Dear Mr. Nielson:

We acknowledge receipt of the Depositions of Holder and two witnesses, also affidavits of publication in The Arco Advertiser, all submitted in proof of beneficial use on Permit No. 21070 and Permit No. 21071.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. M. CARTER

APPLICATION FOR AMENDMENT FOR
 PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE
 OF IDAHO, NO. 21070.

Comes now Wilse A. Neilson of Arco, Idaho, the owner and holder of Permit No. 21070, and requests that the amount of water applied for in said Permit be reduced from 300 inches (or 7.2 cubic feet per second) to 160 inches.

That his reasons for this is that he has not been able to develop the number of wells included in his original application and permit.

Signed at Arco, Idaho, this 27 day of May, 1954.

WILSE A. NIELSON

APPROVAL OF STATE RECLAMATION ENGINEER.

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the public waters of the State of Idaho, No. 21070. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Mr. Nielson:

Our field engineer's report and inspection of proof of application of water to beneficial use under the terms of Permit No. 21070 shows the well is capable of conveying 50 miner's inches (1.0 c.f.s.) of water for the irrigation of 280 acres.

Upon receipt of the statutory fee of \$14.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of May 13, 1949, to the use of 1.0 second feet of subterranean water, with the point of diversion in the NE 1/4, Sec. 14, T. 3 N., R. 26 E., for the irrigation of 280 acres in SE 1/4, Sec. 14, NE 1/4, SE 1/4, Sec. 23, T. 3 N., R. 26 E.

On Permit No. 21071 the well is capable of conveying .02 c.f.s or 1 miner's inch for stock water and lawn.

Upon receipt of the statutory fee of \$5.00, we will issue the License and Certificate of Water Right, confirming the right, with priority of May 13, 1949, to the use of .02 second feet of subterranean water, with the point of diversion in NW 1/4, Sec. 7, T. 3 N., R. 27 E., B. Permits No. 21070 - 21071

Mr. Wilse A. Nielson
Arco, Idaho

Dear Mr. Nielson:

May 27 we returned to you the depositions of holder and two witnesses, affidavits of publication for each of the permits and the receipt for the legal notice.

It was noted that you could keep the receipt for the legal notice, however when the forms were returned, the affidavits of publication were missing.

Kindly return the affidavit of publication for each permit.

Very truly yours,

Dear Mr. Nielson:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. 21070. The proofs are to be made at 10:00 A. M. on the 22nd day of May, 1959, before Ed L. Gaumer, Notary Public, at Arco, Idaho.

As of this date we have mailed the Notice to the Arco Advertiser, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time, and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each, and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of publication.

DEPARTMENT OF RECLAMATIONRE: Permit No. 21070Date March 5, 1959Wilse A. Neilson

Mr. Ben B. Johnson
Attorney at Law
Preston, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21070 is due not later than May 22, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Dear Mr. Johnson:

We have your letter of June 8 enclosing affidavit offered in proof of completion of works on Permit No. 21070 of Wilse A. Nielson.

We return the affidavit in order that it may be completed, by stating the depth of the well, the size and depth of the casing, and kind and power of the pump.

Also, we call attention to the fact that before we can accept this short form of proof, it will be necessary for Mr. Nielson to make formal application to amend the Permit by reducing the amount from 7.2 second feet to the 3.2 second feet upon which he is making proof. This was mentioned in our letters to Mr. Nielson of May 27, copies of which, were sent you.

There is also a fee of \$5.00 required by statute in connection with this proof.

RE: Permit No. 21070

Mr. Wilse A. Neilson

Idaho

Dear Mr. Neilson:

The same condition seems to exist in regard to Permit No. 21070, as referred to in our letter relative to Permit No. 21071.

Permit No. 21070 is for 360 inches or 7.2 second feet of water from 3 wells and the proof is due on or before May 27, 1954.

If you are prepared to make proof on only a part of this, it can be handled in the same way as mentioned in our letter regarding Permit No. 21071, that is, by filing an application to amend the permit by reducing the amount and by submitting proof on the reduced amount on Form 6 enclosed.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Wilse A. Neilson

Boise, Idaho

Boise, Idaho, March 1, 1954

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21070.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before May 27, 1954. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

ARK L. KULP
State Reclamation Engineer

Re: Permits Nos. 21070 and 21071

Mr. Ben Johnson
First Security Bank Building
Preston, Idaho

Dear Mr. Johnson:

We enclose Permits Nos. 21070 and 21071 in the name of Wilse A. Neilson and direct his attention to the limitations and conditions as given on the fourth page, under Approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. 21527 for the \$13.50 filing fees. As your check was in the amount of \$13.75, there is a refund of twenty-five cents (.25) *due* to you, which we enclose in stamps.

Very truly yours,

MARK R. KULP

Dear Mrs. Anderson:

Thanks for your letter of May 17th. I would appreciate it if you would change the Wilse A. Neilson applications so that it shows an inch to the acre or 360 inches instead of the 280 inches.

Thanks for calling this matter to my attention.

Sincerely yours,

Ben Johnson

Dear Mr. Johnson:

We acknowledge receipt of your letter of May 12th, enclosing applications of Wilse A. Neilson, of Arco, Idaho, for water permits, and accompanied by your check for \$13.75 to pay the filing fees.

We note that the application for water to be used on 360 acres of land in sections 14, 20 and 24, Twp. 3 North, Range 26 E., B.M. is for only 280 inches of water, and we wonder if that is all the applicant wishes, as he would be entitled to 360 inches for that amount of land, if that amount can be developed from the wells in question.

Please advise us as to this, and if so instructed we can change his application to 360 inches.

Very truly yours,
