

State of Idaho

License and Certificate of Water Right

Water License No. 20896

Amount 1.3 second feet

Water District No. _____

Priority January 14, 1949

THIS IS TO CERTIFY that T. C. YOUNG

of Moore, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 14, 19 49; that Permit No. 20896 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1.8 second feet, was issued thereunder on April 30, 19 51, showing that said works were completed on the 18th day of November, 19 50; and that on the 28th day of December, 19 51,

T. C. YOUNG

of Moore, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well ~~contributing~~ (subterranean flow), for the purpose of irrigation and domestic use, under Use Permit No. 20896 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 8 of Licenses at page 5040, on the 26th day of December, 19 52;

The right hereby confirmed dates from January 14, 19 49;

The Point of Diversion is located

in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 16, Tp. 5 N., R. 26 E., B. M. Butte County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.3 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
<u>5 N.</u>	<u>26 E.</u>	<u>15</u>	<u>SW $\frac{1}{4}$ NW $\frac{1}{4}$</u>	<u>10</u>	<u>--</u>
		<u>16</u>	<u>NE $\frac{1}{4}$ NE $\frac{1}{4}$</u>	<u>40</u>	<u>35</u>
			<u>SE $\frac{1}{4}$ NE $\frac{1}{4}$</u>	<u>40</u>	<u>30</u>
			Number of Acres Actually Irrigated - -		<u>65</u>

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

26th day of December, 19 52.

MARK R. KULP

State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 20896

Mr. T. C. Young
Moore, Idaho

Dear Mr. Young:

We are sorry that we have to again return your Proof of Completion of Works under Permit No. 20896, for the following reasons:

Your Permit calls for 180 inches of water to be used on the E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 16, and the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 15, Township 5 North, Range 26 East, B.M., but your proof does not include the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15, and only describes 150 inches of water. Are these typographical errors or do you only intend to prove up on a portion?

You understand, of course, that if this proof is accepted and Certificate of Completion of Works issued, you cannot make additional proof at a later date on the balance.

Question 3 should also give the point of diversion to a 40-acre subdivision. The Permit describes it in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 16.

Very truly yours,

MARK R. RULP
State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 28543
 PERMIT No. 20896
 DISTRICT No.

1. Name of Applicant: T. C. YOUNG

Postoffice address: Moore

County: Butte

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

(b) Treasury stock:

(d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: 1.80

cubic feet per second.

3. Source of water supply: Subterranean (well)

which is a tributary of

4. Location of point of diversion: 200

feet distant from the Northeast

corner of Section 16, T. 5 N., R. 26 E., B.M., and is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$

of Section 16, T. 5 N., R. 26 E., B.M., County of Butte

5. Water is to be used for Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B.M., in the
 of Section, T., R., B.M.

7. Estimated cost of works: \$ 4,000.00

8. Kind of works: Well, pump and laterals

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 2 feet; width at water line 4 feet; depth of water 1 $\frac{1}{2}$ feet;

dimensions of flume:

Diameter of pipe inches; length of conduit 1/2 miles.

Average grade per mile 10 feet.

12. The time required for the completion of such work is Two (2) years.

13. The time required for the complete application of the water to the proposed use is One (1) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? ☐ No ☐ Yes If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

T. C. YOUNG Applicant.

Notice for Publication
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 00 A. M. on the 28th day of December, 1951, at Arco, County of Butte, State of Idaho, before I W. Boyer, Notary, proof will be submitted of the application to beneficial use of 1.80 cubic feet per second of the waters of Subterranean Flow, from a well in accordance with the terms and conditions of Permit No 20896 heretofore issued by the Department of Reclamation of the State of Idaho

The name and postoffice of the person or corporation holding said permit are T. C. Young of Moore, Idaho.

The use to which said water has been applied is Irrigation and Domestic purposes.

The amount applied to beneficial use is 1.80 cubic feet per second

The place where said water is used: West 10 acres of the SW $\frac{1}{4}$ -NW $\frac{1}{4}$ Section 15, and the E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 16, Twp. 5, N R 26, E B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditches.

The right to take water from such works is based upon Permit No. 20896.

The source of supply from which such water is diverted is Subterranean Source, FROM A WELL in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 16, Twp. 5 N., Range 26, E B. M

The date of priority which said user is prepared to establish is January 14, 1949

MARK R KULP,

Re: Permit No. 20896

Mr. T. C. Young
Moore, Idaho

Dear Mr. Young:

We now have on file the report of our Field Engineer on examination for beneficial use on Permit No. 20896, which shows that you have irrigated 65 acres in the $E\frac{1}{2}$ $NE\frac{1}{4}$ Section 16, Township 5 North, Range 26 East, B. M., from your well in the $NE\frac{1}{4}$ $NE\frac{1}{4}$ of said section.

Therefore, upon receipt of the statutory fee of \$4.00 a license will be issued for 1.3 second feet of water from said well, as applied for.

Very truly yours,

MARK R. KILP
State Reclamation Engineer
By

Chief Clerk

20896

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20896This proof is for beneficial use In Water District No. _____1. Name of applicant T. C. Young, Moore, Idaho2. Source of water supply: Subterranean from a well3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 16T. 5 N. R. 26 E. County of Butte

4. Describe works as they exist, giving dimensions and capacities of same: The well is 96' deep by 24" in diameter, cased to the bottom. Perforated in the bottom 20'. Pump sets down 60'. 3 stage pump. Bowl size probably 10". Static h is 25'. Draws down to 61'. There is no pump house, no protection of any kind. No curbing. Pump and motor rest on casing. Pump is Layne Bowler no. 15961. Motor is V. M. 25 h.p., 220 v., 62.6 amps., 1760 r.p.m. No. T F J 799016. Water is 240 V. G.E. No. 28763924. Square L. control panel on a post to the west approximately 8' distance.

5. Water is used for: Irrigation and domestic purposes.6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

West 10 acres of SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 15;E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 16;Twp. 5 North, Range 26 East, B. M.See map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: water was measured over 2' cippoletti weir. it equals .39', & equals 1.65 c.f.s. or 81.5". It equals 45° F. discharge through 10" pipe 3' long to the south into open pit.

This examination was made on the 17th day of July, 1952.(Signed) E. H. Humphrey Examiner.20896

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Dear Mr. Young:

I checked the airplane map in Arco as you suggested and find a fairly liberal estimate of the land irrigated from your well would be 35 acres in the NE¹/₄ NE¹/₄ and 30 acres in the SE¹/₄ NE¹/₄ of Section 16, and none in the SW¹/₄ NE¹/₄ of Section 15.

If you feel that this is not correct, please let me know by return mail and I will not turn in the report until I have had an opportunity to see you and make a recheck regarding the land area.

If I do not hear from you within a week, I will assume that you are in agreement regarding acreage irrigated.

Re: Permit No. P0896

Mr. T. C. Young
Moore, Idaho

Dear Mr. Young:

I have been requested to write you in regard to your Completion of Works Proof which has been returned to you for correction and has not been returned to this office.

This proof was due January 6, 1951, and therefore should be returned to this Department in the near future. Otherwise, the Permit is subject to cancellation.

In looking over your Permit, we would suggest that in your Proof of Completion of Works that you state that the works are completed to handle the 1.8 cubic feet per second, the amount filed on, and also include the full amount of the acreage as shown in the Permit, described as the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 15 - 10 acres, and the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 16 - 80 acres, all in Township 5 North, Range 26 East, B.M.

In case your well will not produce 1.8 cubic feet per second or if you are not irrigating all of the irrigable land above described, this can all be changed when you make your final or beneficial use proof.

I am writing this letter for the reason that I do not wish to see you lose out under this permit.

Very truly yours,

MARK R. KULP

Re: Permit No. 20896

Mr. T. C. Young
Moore, Idaho

Dear Mr. Young:

We have written you several times in regard to your Proof of Completion of Works on Permit No. 20896, our last letter being dated December 29, 1950.

If your Permit is to be kept in good standing, it is necessary that this matter be given your early attention and the corrected affidavit in proof of completion of works returned to this Department for consideration and approval.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Notary Public.

Residence, Arco, Idaho.

My commission expires 8-30, 1954

Notice for Publication NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 28th day of December, 1951, at Arco, County of Butte, State of Idaho, before I. W. Boyer, Notary, proof will be submitted of the application to beneficial use of 1.80 cubic feet per second of the waters of Subterranean Flow, from a well in accordance with the terms and conditions of Permit No. 20896 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice of the person or corporation holding said permit are T. C. Young of Moore, Idaho.

The use to which said water has been applied is Irrigation and Domestic purposes.

The amount applied to beneficial use is 1.80 cubic feet per second.

The place where said water is used: West 10 acres of the SW $\frac{1}{4}$ -NW $\frac{1}{4}$ Section 15, and the E $\frac{1}{4}$ NE $\frac{1}{4}$ Section 16, Twp. 5, N. R. 26, E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditches.

The right to take water from such works is based upon Permit No. 20896.

The source of supply from which such water is diverted is Subterranean Source, FROM A WELL in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 16, Twp. 5 N., Range 26, E B M

The date of priority which said user is prepared to establish is January 14, 1949

MARK H. KULE,
State Reclamation Engineer.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20896

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. T. C. Young, Moore, Idaho, Farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 20896 January 14th, 1949. January 14th, 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean flow from Well located in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ Section 16, Twp. 5 North Range 26 East of Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. From Private Well, located on NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 16, Twp. 5 North, Range 26 East of the Boise Meridian. 96 feet deep, 24 in casing 96 feet, Perforated 20 feet, 23 feet to water pulls down to 61 feet. Electric Pump 10 inch discharge. Private ditch from pump on premises to private lands capable of holding 2.00 cubic feet per second. Estimate pump capacity of over 2.00 cubic feet per second.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation & domestic. Irrigating Fr. of SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 15; & Fr. of E $\frac{1}{2}$ of NE $\frac{1}{4}$ of Sec. 16; Twp. 5 North, Range 26 East Boise Meridian. Approximately 55 acres irrigated in the premises to date. Lands changed from sage brush to cultivated lands.

20896

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. none

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Irrigation Seasons of 1950 & 1951. Irrigating approximately 55 acres being fairly evenly devided over the three 40 acre tracts as included in premises, as herein before described.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Same answer as No. 10.

No additional water rights claimed or used. However Lost River does run through the premises and furnishes domestic water part of season.

(Sign T. C. Young)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Arco, County of Butte, State of Idaho, on this 28th day of December, A. D. 1951,

My commission expires 5-23-54.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20896

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. D. C. Jones , age 51, Moore, Idaho, Farmer

Ques. 2. Are you acquainted with T. C. Young, the holder of Permit No. 20896? How long have you known him and where does he reside? 32 years. Moore, Idaho.

Ans. Yes, 32 yrs. Moore, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20896, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean Flow from Well. Through Private ditches from well to the various places of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 2.00# cubic second feet. Through private ditch

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approximately 2.00 cubic second feet. Estimated from size and flow in ditch as observed and compared with experience as a farmer on irrigated lands.

20896

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 15, Twp 5 N. R. 26 EBM. about 15 acres.
E $\frac{1}{2}$ of NE $\frac{1}{4}$ of Sec. 16 Twp. 5 N. R. 26 EBM about ten & 20 acres on each 40
acre tract.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. none.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Mixed gravel and loam soil.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Seasons of 1950 & 1951. Irrigating approximately 55 acres total

(Signed)

D E Jones

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, December 18, 1951

Re: Permit No. 20896
T. C. Young

Mr. I. W. Boyer
Notary Public
Arco, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 20896.....

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On December 28, 1951....., the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at.....
Arco, Idaho..... before I. W. Boyer, Notary Public.....

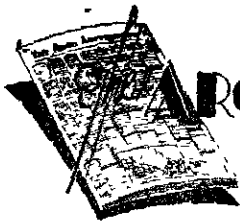

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

MARK R. KULP
Commissioner of Reclamation
State Reclamation Engineer

Re: Permit No. 20896

Mr. T. C. Young
Moore, Idaho

Dear Mr. Young:

We are sorry that we have to again return your proof of Completion of Works under Permit No. 20896, for the following reasons:

Your Permit calls for 180 inches of water to be used on the NE 1/4 Section 16, and the SW 1/4 Section 15, Township 5 North, Range 26 East, E.T., but your proof does not include the SW 1/4 of Section 15, and only describes 150 inches of water. Are these typographical errors or do you only intend to prove up on a portion?

You understand, of course, that if this proof is accepted and Certificate of Completion of Works issued, you cannot make additional proof at a later date on the balance.

Question 3 should also give the point of diversion to a 40 acre subdivision. The Permit describes it in the NE 1/4 of Section 16.

Very truly yours,

MARK L. MOORE
State Reclamation Engineer

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. T. C. Young

Moore, Idaho

Boise, Idaho

November 1, 1950

Dear Sir:-

Under the terms of your permit No. ~~20896~~-----you are required to complete your diversion works on or before ~~January 26, 1951~~---. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK T. KULP

State Reclamation Engineer
