License and Certificate of Water Right

Water License No. 19587

Amount 0.69 second foot

Water District No.

Priority January 30, 1945

THIS IS TO CERTIFY that TRAVERS WARREN
of Challis, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 30, 1945; that Permit No. 19587
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
two second feet, was issued thereunder on December 3, 1949, showing that said works
were completed on the 25th day of November, 1949; and that on the 8th
day of January, 1954,
TRAVERS WARREN

of Challis, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, ~~artesian~~ (subterranean flow), for the purpose of irrigation
, under Use Permit No. 19587 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5328, on the 16th day of August, 1954;

The right hereby confirmed dates from January 30, 1945;

The Point of Diversion is located

in the NE 1/4 NE 1/4, Sec. 20, Tp. 7 N., R. 24 E., B. M. Custer County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.69 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 N.	24 E.	20	NE 1/4 NE 1/4	40	34 1/2
			NE 1/4 SW 1/4	20	---
			Number of acres Actually Irrigated		34 1/2

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

16th day of August, 1954.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

Application No. 27105
Permit No. 19587
District No.

1. Name of Applicant: TRAVERS H. WARREN

Postoffice address: Mackay

County: Custer

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand: \$500.00
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources: 80 acres ranch, truck, tractor, 2 horses, 3 cows

2. Quantity of water claimed: Two (2) cubic feet per second.

3. Source of water supply: Well which is a tributary of

4. Location of point of diversion: 50 feet distant from the North
NE $\frac{1}{4}$ SW $\frac{1}{4}$
corner of Section 17, T. 7 N., R. 24 E., B. M., and is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 17, T. 7 N., R. 24 E., B. M., County of Custer

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B. M., in the of Section, T., R., B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B. M., in the
of Section, T., R., B. M.

7. Estimated cost of works: \$ 1,000.00

8. Kind of works: The water is to be pumped from the well into a ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width 2 feet; height 2 feet;

11. Ditch: Width at bottom 2 feet; width at water line 2 feet; depth of water 5-3/8 inches; feet;
dimensions of flume:

Diameter of pipe 8 inches; length of conduit 3/4 miles.

Average grade per mile 6.75 ft. drop in a mile feet.

12. The time required for the completion of such work is Three (3) years.

13. The time required for the complete application of the water to the proposed use is Two (2) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

TRIVERS H. WARREN Applicant.

By _____, Agent.

Date of first receipt at Department of Reclamation: 3:00 P. M. January 30, 1945

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 19587

Recorded in Book 70 Page 19587 Approved January 31, 1945

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before March 31, 1945 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before July 31, 1946

The whole of said work to be completed on or before January 31, 1948

Beneficial use of water appropriated in accordance herewith, to be made on or before January 31, 1950

Witness my hand this 31st day of January, 1945

AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION OF WATER RIGHT

PERMIT NO. 19587

STATE OF IDAHO)
COUNTY OF ADA) ss.

Travers H. Warren, being first duly sworn, deposes and says: That his postoffice address is Challis, Idaho; That he is the owner of and using a certain water right for two (2) cubic feet per second of the water of- subterranean water) a well), County of Custer, State of Idaho, obtained by virtue of Permit to appropriate the Public Waters of the State of Idaho, No. 19587, issued by the Department of Reclamation, dated January 31, 1945, bearing date of priority of January 30, 1945, for the purpose of irrigating the following described lands, situate, lying and being in Water District No. 27, in the County of Custer, and State of Idaho, to-wit: NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, and NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, Township 7 North, Range 24 East, B.M.; and is the person to whom such right was so issued;

That said waters are now diverted from said stream in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 17, Twp. 7 N., Range 24 E., and conducted to the above described lands through a private ditch, as per map filed herewith and of this affidavit made a part.

That affiant desires to change the point of diversion of said waters from the point above described to also include a point located in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 20, Twp. 7 N., Range 24 E., and thereafter conduct same to the above described land through the same private ditch, as per map above referred to; by the construction of an additional well.

That his reasons for desiring to make such change are as follows: It is more advantageous to have two wells than one, on account of saving carriage and ditch losses.

That no one will be injured by such change and that such change will be made at affiant's own risk.

/s/ TRAVERS H. WARREN

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

AFFIDAVIT OF PUBLICATION

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 8th day of January, 1954, at Challis, County of Custer, State of Idaho, before Jack B. Furey, Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of the waters of 1 well in accordance with the terms and conditions of Permit No. 19587 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Travers H. Warren, Challis, Idaho.

The use to which said water has been applied is irrigation and agriculture.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 20, Township 7 North, Range 24 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is One Well.

The right to take water from such works is based upon Permit No. 19587.

The source of supply from which such water is diverted is 1 well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 20, Township 7 North, Range 24 East, B. M.

The date of priority which said user is prepared to establish is January 30, 1945.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
JAN 11 1951
Department of Reclamation

Permit No. 19587

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Travers Warren; residence: Challis, Idaho; occupation: Assessor
and farmer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 19587; date of permit: January 31, 1945; date of priority January 31, 1945

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water supply is underground (well) which is located about
650 feet East and 450 feet South of the Northwest corner of the
NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp 7 N., R. 24 E., B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. The diversion works consist of a centrifugal pump, gas driven, placed
immediately above a dug well; the amount of water capable of being conveyed
from this point of diversion is 200 inches or 4 second feet; water does
not fall into any canal and is distributed by laterals located on the realty
(gravity flow). This well is a dug well, 20 feet deep, cased by a cement
wall 10 feet by 20 feet in which the water reaches a depth of 6 feet. A
pump is used capable of discharging 200 inches at 1300 RPMs although this
pump has been used to the extent of approximately 150 inches through a
discharge pipe with a 10 inch diameter. This water has not been measured
at the pipe outlet but it has been noted the water fills a lateral app. 2' wid

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for agriculture (irrigation) upon the following
described real estate:

NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp 7 N., R 24 E., B. M. Thirty-seven acres of this
subdivision have actually been put into cultivation. The ground is
all cultivated land and as a direct result of the use of the water
mentioned, this ground has produced a crop of peas, potatoes, hay,
grain, and white proso.

19587

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 100 inches or 2 cubic feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. at least 150 inches or 3 cubic feet of water mentioned herein was diverted and put to beneficial use upon the above described realty in the year 1947 by use of the pump and well system heretofore described.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. no other waters have been diverted and used on the above described realty.

(Sign)

Travers H. Warren

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Challis, County of Custer, State of Idaho, on this 8th day of January, A. D. 1954,

My commission expires 4-4-57

James B. Zuercher
Notary Public for Idaho
Residing at Challis

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19587

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John Emil Lehman; age, 61, residing at Mackay, Idaho,

Ques. 2. Are you acquainted with Travers H. Warren, the holder of Permit No. 19587? How long have you known him and where does he reside?

Ans. I have known the holder of this permit at least 35 years and know that he now resides at Challis, Idaho

Ques. 3. Have you read or heard read said Permit No. 19587, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The water comes from underground as a result of a dug well and a pump placed on top; located about 650 feet East and 450 feet South of the Northwest corner of the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp 7 N., R. 24 E., B. M. which is the place of diversion and after water is pumped out of a 10 inch spout it is conveyed to the place of use by irrigation laterals and ditches (gravity flow).

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I would estimate the works will safely conduct to the place of use 4 second feet of water and I have seen this amount, in my opinion, being conveyed to the place of use.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver, in my opinion, 150 miners inches of water which I estimated as a result of my experience through the years of seeing water flow through ditches and laterals.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

The water is used for agriculture (irrigation) upon the NE 1/4, Sec. 20, Twp 7 N., R. 24 E., B. M. and I would estimate at least 35 acres of the 40 acre tract have been irrigated. The land is cultivated, land used sometimes for row-crop farming and including the raising of hay, grains, including white proso, peas and potatoes. These have been grown as a direct result of the water pumped and put to beneficial use on this land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. In some places this land is very gravelly and in others it has a clay type soil and I would estimate 100 inches (miners) would be required to profitably cultivate this land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or lands above mentioned

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

I have seen the water pumped and used on this land from the time it was first used in the year 1947 until present date.

(Signed)

John Emil Lebran

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Challis, County of Custer, State of Idaho, on this 8th day of January, A. D. 1954.

Notary Public

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 19587

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Earl L. McAfee; age, 49; residing at Mackay, Idaho

Ques. 2. Are you acquainted with Travers H. Warren, the holder of Permit No. 19587? How long have you known him and where does he reside?

Ans. I have known Travers H. Warren since 1937 and know that he is now residing at Challis, Idaho.

Ques. 3. Have you read or heard read said Permit No. 19587, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The Source of water is from a dug well over which is placed a gasoline pump. It is located 650 feet East and 450 feet South of the Northwest corner of the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, Twp 7 N., R 24 E., B. M. The works for conveying the water from the point of diversion to place of use consist of ditches (laterals) on grade permitting gravity flow of the water pumped from the well. ~~There are no other works.~~

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

The works will handle 200 inches or 4 second feet of water and Ans. safely conduct it to the place of use and I have seen approximately 150 inches of water being so pumped and so conveyed to the place of use.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver approximately 3 cubic feet per second or 150 miners inches of water which I estimated after the water left the spout and fell into an irrigation lateral. The ditch or lateral in which the water was pumped was approximately 2 feet wide and 10 inches deep.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

The water is used for agriculture (irrigation) purposes and has been
Ans. used upon the NE¹/₄NE¹/₄, Sec. 20, Twp. 7 N., R. 25 E., E. M. and I would estimate that at least 35 acres and from there up to 37 acres have been irrigated by this system. The land is cultivated land which has produced, as a result of the use of this water, potatoes, peas, grain, hay, and white prose.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is mixed gravelly and clay and I would estimate that at least 2 $\frac{1}{2}$ inches per acre would be required to profitably cultivate this land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

I witnessed this land being irrigated by the waters under this
Ans. permit for the first time in the year 1947 when a pea crop was put in and at that time I would estimate about 200 inches or 4 cubic feet of water were being pumped and used. The water has been used for that and different crops ever since that date to the present time.

(Signed) Earl L. Meffer

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Challis, County of Custer, State of Idaho, on this 8th day of January, A. D. 19 54.

RE: Permit No. 19587

Challis Messenger
Challis
Idaho

Gentlemen:

Mr. Travers H. Warren called us up this morning in regard to an error in the notice for proof of Beneficial Use on his Permit No. 19587, now being published in your paper.

He states that the source of supply is from one well in the NE 1/4 NE 1/4 Section 20, Township 7 North, Range 24 East, B.M., instead of from two wells as stated in the notice.

He has, no doubt, requested you to make this change in the remaining two publications and this is to confirm such change.

We shall appreciate receiving a copy of your December 16th issue containing the amended notice.

Very truly yours,

L. R. H. RULP

Gentlemen:

We have checked the notice for proof on Permit No. 19587 of Travers H. Warren, appearing in your issue of December 2, 1953, and find the following typographical errors:

In the 5th line, the word Notary is misspelled.

In the next to last line of the first paragraph, the word Reclamation is misspelled.

In the 9th and 10th lines of the first paragraph, the last letter of the word Permit and the last letter of the word the are omitted.

Please make these corrections in your subsequent issues.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 19587

Mr. T. H. Warren
Challis
Idaho

Dear Mr. Warren:

We have your letter of November 24, 1953, and note that you only wish to make proof of beneficial use on the one 40 acre tract, namely the NW¹, NE¹ Section 20, Township 7 North, Range 24 East, B.M.

We have sent a copy of the notice to the Challis Messenger with instructions to publish it once a week for four weeks prior to January 8, 1954, the date set for proof, and to send you the affidavit of publication together with statement of costs.

At the time set, you should appear before Mr. Jack B. Furey, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

MARK R. KULP

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 8th day of January, 1954,
at Challis, County of Custer, State of Idaho, before
Jack B. Furey, Notary Public, proof will be submitted of the
application to beneficial use of two cubic feet per second of the waters of 2 wells
in accordance with the terms and conditions of Permit No. 19587
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Travers H. Warren, Challis, Idaho

The use to which said water has been applied is irrigation and agriculture

The amount applied to beneficial use is two cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 20, Township 7 North, Range 24 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

Two Wells

The right to take water from such works is based upon Permit No. 19587

The source of supply from which such water is diverted is 2 wells in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20, and
the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, Twp. 7 North, Range 24 East, B. M.

The date of priority which said user is prepared to establish is January 30, 1945

MARK R. KULP

State Reclamation Engineer.

RECEIVED
NOV 27 1953

Department of Reclamation

Miss Jeanne L. Anderson,
Chief Clerk,
Dept of Reclamation.

Dear Madam:

RE: # 19587

In 1945 I obtained a permit to use (2) wells for irrigation, one on each forty, but since that time I sold the NE¹/₄SW¹/₄ Section 17, Twp 7 N.R. 24 E to Jim Pritchett who had enough water to irrigate this forty.

Not having the knowledge to remove this forty from the original permit I omitted it from the beneficial use proof statement.
The NE¹/₄NE¹/₄ of Section 20 is the one that I wish to make beneficial proof on.

Very truly yours,

T. H. Warren

T. H. Warren.

RE: Permit No. 19587

Mr. Travers H. Warren
Challis
Idaho

Dear Mr. Warren:

We acknowledge receipt of duplicate notices for Beneficial Use proof to be made January 8, 1954 on your Permit No. 19587.

We note that this is for water from two wells, one of which is located in the NE₄ NE₄ Section 20, and the other in the NE₄ SW₄ Section 17, Township 7 North, Range 24 East, B.M., and that the water is to be used to irrigated land in both fortys. However, the notice only describes the NE₄ NE₄ of Section 20. Was the NE₄ SW₄ Section 17 intentionally omitted?

We shall await your further advice before sending notice to the newspaper for publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Travers H. Warren

, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 19587, and that his postoffice address is Box 353 Mackay,
State of Idaho.

Second: That the name of the stream ^{FROM} which said water is to be ~~directed~~ is none.
The water is derived from a well.

Third: That the point of diversion of said water is at the well-50 feet distant from the North corner of NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 17, Twp. 7 N.R. 24 E.B.M. and in said NE $\frac{1}{4}$ SW $\frac{1}{4}$
~~4-796-24-7 Sec 17~~

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by January 31, 1950.

Fifth: That the use for which said water is intended is irrigation.

Sixth: That on the date above mentioned, the works constructed under said permit were (~~substantially~~) fully completed and consisted of the following: 1. and Parma water

I. Kind of works: Well, water pumped from well by two pumps/into ditches.

II. Dimensions of work: Well is 25 feet deep. 4 12 ft

(a) Height of dam..... xfeet, length of dam at top..... xfeet, length of dam at bottom..... xfeet. Material used in construction.....

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir.....^x.....acre feet.

(c) Size of headgate: Width x feet, height x feet.

(d) Conduit ditch width at bottom 2 feet, width at water line 3

(State whether ditch, flume or pipe) _____ inches

feet, depth of water.....^{5" inches}feet; diameter of pipe.....inches, average grade
per mile is.....feet. Length of conduit is.....miles.

Seventh: That said works are capable of conducting to the place of intended use.....
220 miners inches.
~~second inch of water.~~

Eighth: That water appropriated under said permit is available for 80

acres of land described as follows: ~~NE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ in Sec. 17,~~
NE $\frac{1}{4}$ NE $\frac{1}{4}$ in Sec 20 and NE $\frac{1}{4}$ SW $\frac{1}{4}$ in Sec. 17, all in Twp. ~~24~~ N.R. 24 E.B.1.

Ninth: Remarks: That the works consist of 2 wells with two pumps being used to pump the water from the well to the irrigation ditches. ~~That the water is pumped through 8 and 10 inch pipe for a distance of 50 feet before the water reaches the irrigation ditches.~~

Mr. Travers H. Warren

PROOF OF COMPLETION OF WORKS

November 1, 1949

Maokay, Idaho

Boise, Idaho

Dear Sir:-

19587

Under the terms of your permit No. ~~January 31, 1950~~-----you are required to complete your diversion works on or before----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
MARK H. KUIP

State Reclamation Engineer

19587

November 8, 1947

Re: Permit No. 19587

Mr. Travers H. Warren
Mackay, Idaho

Dear Mr. Warren:

The formal notice sent out to you on November 1st overlooked the fact that you had been allowed an extension of time for completion of works under Permit No. 19587, until January 31, 1950.

For that reason it is not necessary to make proof at this time, and we suggest that you wait until your pumps are in place, and your cribbing completed, before submitting any proof of completion of works.

This can be done at any time that the works are so completed between now and January 31, 1950.

For that reason we are returning the proof enclosed in your letter of November 4th, and also return your check for the \$5.00 fee.

Very truly yours,

MARK L. KULP

State Reclamation Engineer

June 4, 1947

Mr. T. H. Warren
Challis, Idaho

Dear Mr. Warren:

We are in receipt of your letter of May 31st, but are not quite clear as to its meaning.

The records in this Department show that your old Permit No. 19587^{new} for two second feet (or 100 inches) of water from a well, which was originally to be drilled on the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20, Township 7 North, Range 24 East, B. M., but which was later changed to the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, same Township and Range. This water was to be used for the irrigation of 20 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17 and 40 acres in the NE $\frac{1}{4}$ N $\frac{1}{2}$ of Section 20.

The proof of completion of works on this permit is not due until January 31, 1948, although it can be made at any time.

Do we understand from your letter that you have wells in these two locations for use on the same land?

If so we can send you the necessary form of amendment to your permit. But we call attention to the fact that the maximum amount allowed by statute for irrigation purposes is one inch per acre, which would amount to 60 inches on the acreage described.

Very truly yours,

MARK H. KULP
State Reclamation Engineer

19587

Affidavit for Change of Point of Diversion of Water Right

Permit No. 19587

STATE OF IDAHO,

County of Ada

} ss.

Travers H. Warren, being first duly sworn, deposes and says: That his postoffice address is Challis, Idaho. That he is the owner of and using a certain water right, for 2 cubic feet per second of the water of subterranean water (a well), County of Custer, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 19587, issued by the Department of Reclamation, dated January 31, 1945, bearing date of priority of January 30, 1945 for the purpose of irrigating the following described lands, situate, lying and being in Water District No. 27, in the County of Custer and State of Idaho, to-wit: NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17, and NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 20; Township 7 North, Range 24 East, B.M.

and is the person (~~or representative of the person or persons~~) to whom such right was so issued, (~~or has become the owner thereof in the following manner:~~)

That said waters are now diverted from said stream in the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 17, Twp. 7 N., Range 24 E., and conducted to the above described lands through the private ditch, as per map filed herewith and of this affidavit made a part;

That affiant desires to change the point of diversion of said waters from the point above described to also/ a point located in NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 20, Twp. 7 N., Range 24 E., and thereafter conduct same to the above described land through the same private ditch, as per map above referred to; by the construction of an additional well.

That his reasons for desiring to make such change are as follows: It is more advantageous to have two wells than one, on account of saving carriage and ditch losses.

That no one will be injured by such change and that such change will be made at affiant's own risk.

Travers H. Warren
Affiant.

Subscribed and sworn to before me this 5 day of January, 1946.

Michael S. Bailey
Notary Public
Boise Idaho

NOTE:—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

Re: Permit No. 19587

Mr. Travers H. Warren
Box 353
Mackay, Idaho

Dear Mr. Warren:

We enclose herewith the above numbered permit,
and also Departmental Receipt No. 18766 for the
\$5.25 filing fee.

You will note that we have reduced the amount
applied for from 2.02 cubic feet per second, to
2.00 cubic feet per second, as to include the
additional .02 of a second foot would have required
a filing fee of \$5.50, instead of the \$5.25 which you
had paid. Also, since the statutes only allow an
inch to the acre of land irrigated, it is probable
that not more than 1.2 cubic feet per second could be
allowed, on final proof, for the 60 acres of land
which you describe.

BE SURE AND NOTE THE LIMITATIONS AND CONDITIONS AS
GIVEN ON THE FOURTH PAGE OF THE PERMIT.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

Dept. of Reclamation

Dear Sir:

Could you please send
me another "Application for Water
permit" as the one I had I have
lost somewhere.

Yours truly
Lavers H Warren.

January 9, 1945

Mr. T. H. Warren
Box 353
Mashay, Idaho

Dear Mr. Warren:

Several weeks ago we received from you an application for permit to appropriate certain public waters of the State of Idaho, which was incomplete in several particulars, and which was returned to you under date of December 1st, 1944, for correction.

We have had no reply from you since then- and we still hold to your credit your check for the \$5.25 filing fee.

Please let us hear from you in regard to the matter-

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. T. H. Warren
Box 383
Mackay Idaho

Dear Mr. Warren:

We acknowledge receipt of your application for permit to appropriate the public waters of the State of Idaho; and also your check for the \$5.25 filing fee.

However, the application is incomplete in several particulars, and we are returning it herewith for the following corrections:

1. Under Question 2, give the quantity of water only- that is, the maximum amount to be pumped at any given time.
2. Under question 3- we assume that the water is to be pumped from a well- and if so you should so state- as "Subterranean- from pumped well.
3. In Question 4 - fill in the second part, showing the 40-acre subdivision in which the water is diverted.
4. Under Question 8, state the kind of works by which the water will be conducted to the place of use- That is, in addition to the pump-ditches, etc.
5. Under question 11- fill in size of ditch, length, etc.
6. Under question 14- The land description in the tabulation does not agree with the sketch map. Show the land on the sketch map that you expect to irrigate, and also the location of the well, inside a 40-acre subdivision.
7. Under Remarks, state what kind of pump and power you intend to use.
8. Application should be signed, on the 3rd page, on the line marked "Applicant".

Upon return of the application, with these corrections, it will be given a number and a starting date.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
