RE: Potential Illegal Points of Diversion

Dear Mr. Rosenkrance:

The Idaho Department of Water Resources (IDWR) has collected GPS data locating physical diversions from Parsons Creek used by Mountain Springs Ranch. According to our records, two of these locations are not legal points of diversion for your water rights.

According to our records, Mountain Springs Ranch owns five surface water rights with points of diversion downstream of the Chilly Bridge. Water right numbers 34-00142, 34-00611B, 34-00612B, 34-00613B, and 34-10553B have a combined place of use of 471 acres and have five legal points of diversion. Transfer number 4706, which was approved in September 1999, changed the place of use for these water rights and split water right number 34-10553 between Mountain Springs Ranch and Dennie Donahue. This transfer did not change the points of diversion, which are described as follows.

1. PARSONS CREEK SW ¼ SE ¼ SE ¼ Sec. 3, Twp 08N, Rge 22E, B.M.
2. BIG LOST RIVER NE ¼ NE ¼ SE ¼ Sec. 11, Twp 08N, Rge 22E, B.M.
3. BIG LOST RIVER NW ¼ NE ¼ SE ¼ Sec. 11, Twp 08N, Rge 22E, B.M.
4. BIG LOST RIVER SW ¼ NW ¼ SW ¼ Sec. 12, Twp 08N, Rge 22E, B.M.
5. BIG LOST RIVER SW ¼ NE ¼ NW ¼ Sec. 13, Twp 08N, Rge 22E, B.M.

The legal point of diversion locations are shown as purple circles on the attached map. Based on IDWR field visits conducted between October 2002 and June 2003, IDWR has identified four physical diversions for your ranch. These physical diversions are shown as red triangles on the attached map. As illustrated on the map, two of your physical diversions from Parsons Creek (Mountain Springs 2 and Mountain Springs 4) are not legal points of diversion for your water rights. ↑ ↑

Spatial Data ID 298205 Spatial Data ID 298203

In order for Mountain Springs Ranch to change the location of your points of diversion for these water rights, you must file an Application for Transfer of Water Right with IDWR, as required by Idaho Code §42-222. A copy of the application form is attached. Additional copies of the application form can be obtained from our website at http://www.idwr.state.id.us/water/rights/water_rights_forms.htm, or from any IDWR office. The application needs to be submitted to the Eastern Region office at the address listed on the last page of the instructions. Please contact the Eastern Region office at 208-525-7100.

SEP 17 2003

have questions regarding the application process. I recommend that you **apply** for the transfer as soon as possible, because diversion of water at the locations of Mountain Springs Ranch 2 and 4 will not be legal until the transfer has been approved by IDWR.

If you believe our records are in error regarding your point of diversion locations, or have questions concerning this notice, please contact me at 208-327-7871.

TO: Files 34-00142, 34-00611B, 34-00612B, 34-00613B & 34-10553

FROM: Pam Skaggs ^{SS} State Office

SUBJECT: Transfer 4706

DATE: September 3, 1999

Transfer 4706 changes the place of use under all of Rights 34-00142, 34-00611B, 34-00612B and 34-00613B, and a portion of Right 34-10553, splitting this right into Parts A & B

The applicant owned the entire property and sold 44 acres with 0.88 cfs of Right 34-10553. The transfer proposes to change the permissible place of use under the rest of the rights to reflect the remaining 471 irrigated acres, with a small adjustment moving 8 acres from the SESW to the SWSW of Section 12, T08N, R22E to consolidate the acres.

A change of ownership form from the Donahues for the 44 acres will be processed following the approval of this transfer for Right 34-10553A. These rights in the SRBA already reflect a change in ownership to Mountain Springs Ranch LLC as the owner of the 471 irrigated acre parcel of land. Custer County Assessor's office confirmed the chain of ownership of these acres, first to the Donahues and then the remainder to Mountain Spring Ranch LLC.

These rights have been resubmitted to the SRBA court in an amended report to address the irrigation season. Other recommended conditions include measuring devices & lockable controlling works, watermaster control, irrigation overlap, permissible place of use limits, combined right limits and standard transfer conditions.
