RE: All Objections Before the Court Placed by Logan
and Linda Williams of Mackay, Idaho

Dear Judge Hurlbutt:

The purpose of this letter is quite simple. I quit. That is to say I am withdrawing all my objections to the claims in Basin 34 placed by the United States, either Forest Service or BLM.

I am a rancher, not an attorney. Our financial condition will not permit us to employ an attorney to defend our decreed water rights, and I simply do not know how to do it myself. Even if I could, the time and money that it would cost me simply is not worth the outcome. You may consider this letter as a plea, motion, stipulation, or whatever you wish to call it, but to me it is notice to the Court and all others that I will no longer take part in any proceedings.

I am doing this primarily for peace of mind. In the recent settlement conference with all the Forest Service attorneys and the Idaho Department of Water Resources attorneys, I was told that in order to resolve our differences, it would be very costly to me. I believe them, and can see that even our own IDWR attorneys feel that the Federal Government can have these claims -- claims that I have paid IDWR and the State to administer and safeguard.

Therefore, if I am going to lose the established senior priority date for all the waters decreed in Pinto Creek (as decreed in a Federal Court), then I am better off to set idly by and allow it to happen rather than to fight both the State and the Feds and lose anyway. At least when I sell the ranch, the proceedings will come to me, not a bunch of attorneys.

Hon. Judge Daniel Hurlbutt
August 15, 1995
Page 2

I am saddened by the events that have taken place within this adjudication. It appears to me that the original intent to inventory water has long passed. Even our own legislature and the state Supreme Court have lost sight of the intent.

I can see that I cannot get my concerns resolved without it costing me more than what the water rights are worth. With that in mind, please remove all our objections and let the Federal Government have their way. They made it very clear to me that I may win, but their plan is to bankrupt me in the process. I can only assume that under our fine system, the Justice Department will be coming after my land next.

Sincerely,

A handwritten signature in cursive script that reads "Logan Williams".

The *Stipulation* asserts that the claimant and the United States agree to the withdrawal of the United States' objection. At a Status Conference held on June 19, 1997, counsel for the United States requested that both the objection filed by the Bureau of Land Management and the objection filed by the Department of Justice be dismissed and that the United States be dismissed as a party to these subcases.

Therefore, based on the file and record herein, IT IS ORDERED that the objections filed by the United States to these subcases are **dismissed with prejudice**. IT IS FURTHER ORDERED that the United States is **dismissed as a party** to these subcases.

Dear Roy;

I am incloseing Edward H. Williams application for water transfer. I hebbed Eddie make this application out and as I remember he was to sign it before a Notary and return to me for my signature. Sorry.

We are having very good weather here, not very cold since the cold snap we had in November, but no storms to amount to anything. I was up the river as far as Corral Creek on the 2nd and found dusty roads and no snow only on the higher mountains and very little there.

I am going to miss working with the water Roy. Next spring when this years term ends will make 27 years as ditch rider, deputy watermaster and watermaster, as you remember I missed in 1934, I think you will always remember that year. During this time we have been closely associated in our work. Any time you are in the valley we want you to drop in and see us. With kind regards to you and Mrs Thompson, I am
