Dear Mr. Hone:

I have researched the ground-water plats pertaining to the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2, T. 6N, R. 25E, B.M. The information I have been able to obtain indicates that there is presently no filing for ground-water development of water in that quarter section, or that it is to be the location for a ground-water well.

If there is no well drilled at that location and is presently or proposed to be used for irrigation, it is the statutory requirement that you file on this development by either, 1) an application for permit, or 2) constitutional claim to a water right.

If you could collect the following information, I will be glad to help you determine the correct filing course: 1) date well was drilled, 2) date well was first put to use, and 3) lands irrigated by this well.

It has been a pleasure assisting you in this matter. If you have any further questions, please feel free to contact me.

Sincerely yours,
