APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 19190

Comes now Ross Babcock and represents to
the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate
the Public Waters of the State of Idaho, No. 19190 ;
amendment to

That the point of diversion is described in/said Permit as
being located in the NW¹ SW¹ Section 21, Twp. 4 North, Range 25 East, B.M.
and conveyed to the place
of use through Babcock Ditch ditch, ~~as per map~~
~~filed herewith.~~

That he now requests that the point of diversion be changed
to a point located in the NW¹ SE¹ Section 21, Twp. 4 North, Range 25
East, B.M., and conducted to the place of use
through the same ditch ~~X ditch, as per map above referred~~
~~to.~~

That his reasons for ~~desiring~~ ^{amended} to make such change are as fol-
lows: The description given in the permit was in error, as shown by the
report of the Field Engineer of the State Department of Reclamation,
who made an examination of the project on August 29, 1946

That no one will be injured by such change, and that such
change will be made at Permit Holder's own risk.

Signed * Ross Babcock this 22 day of Jan 1947

Date of receipt at Department of Reclamation Jan. 24, 1947

Remarks: There is a previous filing on this water by G. H. Beck (Cris Beck). All I desire to file on is the amount of water that passes his property. I desire to make a small reservoir to hold water for sheep and if conditions will permit to raise a small garden. I have used this water for the purposes above mentioned since the year 1915. This water does not run only in the spring of the year, and first part of the summer, does not reach my place in the late summer and fall, I want to make a reservoir to hold the water for stock watering purposes and to irrigate a garden if conditions will permit.

Permit No. 19190

APPLICATION FOR EXTENSION OF TIME
FOR COMPLETION OF WORKS

Ross Babcock, of Moore, Butte Co., State of Idaho, being first duly sworn, upon his oath deposes and says:

No. 19190 He is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho

Under the terms and conditions of said permit, construction work thereunder was required to be completed by Sept. 3rd, 1942.

That he has heretofore performed the following work described under said permit, Built dam about five feet high of an original estimate of ten feet needed. Because of the unexpected silt filling dam the whole plan must be changed and new work commenced in different location, costing \$150.00 for work done

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

Inconsistence of first plan in not providing for sediment. New plan is intended to make this project workable.

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the completion of works under said permit to November 3rd, 1943.

AFFIDAVIT FOR CHANGE OF POINT OF DIVERSION
OF WATER RIGHT PERMIT NO. 19190

Ross Babcock, being first duly sworn, deposes and says: That his postoffice address is Moore, Idaho. That he is the owner of and using a certain water right, for one cubic feet per second of the water of Beck Canyon, County of Butte, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 19190.

That he intends to change the point of diversion as described in said permit to the following described point: NW1/4SW1/4, Section 21, Twp. 4 North, Range 25 E. B. M.

That such change will be made for the following reasons, to-wit: The reservoir site chosen previously was in the main channel of the stream and whendam was made the reservoir filled with silt and left no room for water. Applicant desired to change point of diversion and dam site in such a way that the reservoir can be filled after the high water has receded and it is possible to store water without so much sediment.

That no one will be injured by such change and that such change will be made at affiant's own risk.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO,
NO. 19190

Comes now ROSS BABCOCK and represents to the State Reclamation Engineer of the State of Idaho:
That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 19190;

That the point of diversion is described in amendment to said Permit as being located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 21, Twp. 4 North, Range 25 East, B.M., and conveyed to the place of use through Babcock Ditch.

That he now requests that the point of diversion be changed to a point located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21, Twp. 4 North, Range 25 East, B.M., and conducted to the place of use through the same ditch.

That his reasons for desiring to make such change are as follows: The description given in the amended permit was in error, as shown by the report of the Field Engineer of the State Department of Reclamation, who made an examination of the project on August 29, 1946.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Permit No. 19190

Mr. Ross Babcock
Moore, Idaho

Dear Mr. Babcock:

Upon receipt of the statutory fee of \$5.00, and application for amendment on the form enclosed, a license will be issued for one second foot of water from Beck Canyon, as applied for.

This amendment is necessary in order to have the description of the point of diversion correct in the license and permit record.

However, in order that there may be no misunderstanding, a license with exactly the same priority on the same stream is also being issued to Fred R. Pearson, Rodney A. Pearson, E. Putnam and Wallace Thays, all of Moore, Idaho.

Very truly yours,

REPORT ON PROOF OF Beneficial use

Moor, Idaho
Dec. 9, 1946

Department Of Reclamation
Boise, Idaho

Dear Mr. Kulp -

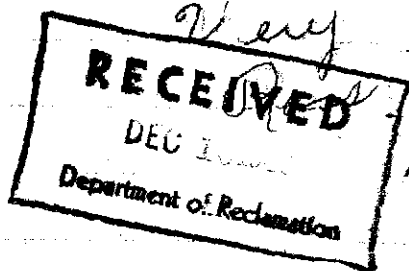

I have not
received my final papers on
the 50 inches of water I made
proof on Aug. 16, 1946.

My permit No. is 19190.

Mr. Tolman made examina-
tions soon after I made my
proof.

I wish you would please
give this matter your
attention soon as I would
like to get it all straight.

Very truly yours,

Re: Permit No. 19190

Mr. Ross Babcock
Moore, Idaho

Dear Mr. Babcock:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Arco Advertiser, all in connection with beneficial use proof under the above numbered permit.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

Very truly yours,

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Earthen dam 300 ft. long, 4 $\frac{1}{2}$ ft. high; ¹²~~240~~ feet at base; cost \$225; water is conveyed to place of use in Babcock ditch, 340 yards long and capable of conveying 50 miners' inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Stock watering purposes; during my residence at place I used water also for garden purposes, when there was sufficient for that use.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used only for stock watering.

19190

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 50 miners' inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not a coporation. Have used water for beneficial purposes since 1915.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Been used by self since 1915. Stream is merely a trickle at this date. Water has been used for stock watering and garden purposes since 1915, but was filed on on July 31, 1941.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water appurtenant to this land.

(Sign) *Ross Babcock*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was

Re: Permit No. 19190

Mr. Ross Babcock
Moore, Idaho

Dear Mr. Babcock:

We acknowledge receipt of your letter of July 16th, in reply to notice of completion of works due under the above numbered permit on September 3, 1945.

This permit is dated September 3, 1941- and although your last application for extension requested until November 3, 1945, it was only allowed until September 3, 1945, or the anniversary date of the permit.

However, the law allows a maximum of five years for completion of works, so you may file another application for extension until September 3, 1946, on the form enclosed.

Very truly yours,

Dear Sirs:

I wonder stood my permit No. 19190, that I was required to complete the works and make proof on or before November 3, 1945 instead of Sept 3, 1945 or you have it in your letter, one of us have made a mistake. If it is Sept. 3 I will have to ask for one more year & if it is Nov. 3 I might be able to complete the work by then.

If I can I will prove up on Nov. 3, 1945

Please let me know if it.

Dear Sir:

Under the terms of your permit No. 19190 you are required to complete your diversion works and make proof of beneficial use on or before September 3, 1945.

We enclose herewith a blank affidavit to be filled out, sworn to by you before a Notary Public of Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the Completion of the Works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We also enclose blank notice for proof of application of water to Beneficial Use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is September 3, 1945, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Affidavit for Change of Point of Diversion of Water Right

Permit No. 19190

STATE OF IDAHO,

County of Butte } ss.

Ross Babcock being first duly sworn, deposes and says: That his postoffice address is Moore, Idaho. That he is the owner of and using a certain water right, for 1 cubic feet per second of the water of Beck Canyon, County of Butte, State of Idaho, obtained by virtue of Permit to appropriate the public waters of the State of Idaho, No. 19190, issued by the Department of Reclamation, dated Sept 3rd, 1941, bearing date of priority of 7-31-41, for the purpose of irrigating the following described lands, situate, lying and being in Water District No. none, in the County of Butte and State of Idaho, to-wit: NW 1/4 of SE 1/4 Sec. 21, Twp. 4 North, Range 25 E. B. M.

and is the person (or representative of the person or persons) to whom such right was so issued, (or has become the owner thereof in the following manner:)

That said waters are now diverted from said stream in the 1/4 of 1/4 of Sec. 21, Twp. 4 N., Range 25 E. B. M. and conducted to the above described lands through the private ditch, as per map filed herewith and of this affidavit made a part;

That affiant desires to change the point of diversion of said waters from the point above described to a point located in NW 1/4 of SW 1/4 of Sec. 21, Twp. 4 N., Range 25 E. B. M. and thereafter conduct same to the above described land through the private ditch, as per map above referred to;

That his reasons for desiring to make such change are as follows: The reservoir site chosen previously was in the main channel of the stream and when dam was made the reservoir filled with silt and left no room for water. Applicant desired to change point of diversion and dam site in such a way that the reservoir can be filled after the high water has receded and it is possible to store water without so much sediment.

That no one will be injured by such change and that such change will be made at affiant's own risk.

Ross Babcock

Affiant.

Momm expires May 23, 1946.

NOTE:—If this water right has heretofore been carried jointly in a ditch with other water, affiant should secure written consent of other owners or users to removal from its original carrier and file such consent with this affidavit.

Dear Mr. Babcock:

Re: Permit

We wish to acknowledge receipt of your letter of July 28, requesting an extension of time in making your Completion of Works Proof on Permit Number 19190.

We are enclosing herewith an application for extension of time which you can fill out and have notarized and return to this office, giving ample reason for such extension and we will gladly grant the same.

We are also enclosing a form of Affidavit for change of Point of Diversion in case you are going to change the place of Diversion from said stream. Your permit is flexible enough so that by changing reservoir site from the bed of the stream a few hundred feet, provided you divert the water from approximately the same location as shown in the permit, that it will not be necessary to change the point of diversion. However, if you are changing said diversion for instance to another forty acre sub-division, it will be necessary to file this said form.

Mr. Berg is planning a trip to Lost River and surrounding country some time during September and will try and look you up at that time.

Dear Sirs:

I would like to get my time extended for one year before making proof on my water filing permit No. 19190.

I completed about $\frac{1}{2}$ of the work on my reservoir last fall, but it filled up with mud, rocks and sediment and would do the same if I completed it at the present right.

I would like to change my reservoir right out of the old creek bed and build a ditch to carry the water to it, so I could

turn the water in the ditch
and put it in the reservoir
after the muddy flood
water has passed, my new
right would be due south
of the old one about 200 yds.
I would still want my
priority to be dated at my
filing.

The creek is dry now & has
