Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In 1921 and 1922, I saw .9 cubic feet per second used for irrigating the above described land, for about 30 days each year. In 1923, the amount of rain fall made irrigation unnecessary, and in 1924, there was no water.

W. G. SWANSON,

Very truly yours,

Referring to your notice of proof of beneficial use of water under the above numbered permit would say that one copy has been mailed to the Arco Advertiser for the required four weeks publication prior to April 8, the date set for making proof. Deposition blanks, one for the holder and one each for two witnesses, will be mailed to Mr. F. C. Salt, U.S. Commissioner, at Arco, in time for proof to be made on the date set. In view of the fact that the proof is being made later than the date specified in the permit, the date of priority has been brought down accordingly to March 17, 1922, being the length of time elapsing between the date proof should have been made and the date proof is actually made.

Under the terms of your permit No. ~~13898~~..... you are required to complete your diversion works on or before ~~Feb. 26, 1922~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
