INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Burton B. Harger,
Lost River, Idaho

Boise, Idaho, April 1, 1911

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 4877

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which it is to be submitted, which proof MUST be on or before July 5, 1911

Upon receipt of this blank properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

D. G. MARTIN,

State Engineer.
