As soon as Mrs. Greene's application for

Dear Carter,-

I have yours of recent date advising of approval of abstract of title of Mrs. Greene in re transfer of water right, and setting date at Boise for hearing. I know of no objections to this transfer and it is altogether probable that no objections will be made. After the matter is completed I wonder if you would return the abstract of title to Mrs. Greene, and also return the abstracts in similar future transfers from this section. The parties who are making these transfers usually have an abstract of title for the property that they own, which they have brot up to date, and then send in with the application to transfer, and if this can be returned to them it will save them the cost of having another abstract prepared, which in many cases would amount to \$15 or \$20.

Referring to the notice for publication for transfer of water right upon the application of Medora B. Greene, would say the publication is required to run only two weeks instead of four, as stated in the circular letter. It was oversight in not making the correction when mailing the notice to you.

Mr. G.N. Carter,
Deputy Comm. of Reclamation,
Boise, Idaho

Dear Mr. Carter,-

I told Mrs. Green to send you an abstract of title with her application for transfer of water right, but she is an elderly lady and probably forgot about it. I will tell her to do so within a day or two when I next see her. I think it a very desirable procedure to have these abstracts, and I have often thought that the transfers should not be granted without the consent of mortgage holders on lands from which the water is being transferred. I know of one case here where a transfer was granted without the knowledge of a mortgage holder who held a \$10,000 mortgage on the property whose value consisted almost entirely in the water right, and considerable trouble resulted in getting the transfer cancelled. I think that the title is O.K. in all of the cases of proposed transfers but my knowledge is not exact, such as would be supplied by the abstract of title, and I have told all of the various parties to send abstracts with the transfer papers. In several of the pending cases the water has already been decreed and sold subject to transfer being approved by your office, and we have delivered the water to the new purchaser this past season. In cases of this kind I have advised the original owner of the land to which the water was decreed, to make the transfer, as I understood from some previous correspondence with you that this was the proper procedure, rather than to have the new purchaser make the transfer, even tho the abstract showed that the latter had purchased the

right.

Very truly yours,

Lynn Crandall

Re: Application for Transfer of Water Right

Mr. Lynn Crandall
Mackay, Idaho

Dear Sir:

This will acknowledge receipt of application for transfer of decreed right, owned by Darlington Land and Irrigation Company, Edward B. Greene, applicant.

It is the usual policy to require abstracts of title showing that the right vests with the applicants. In one particular case in Lost River valley, the applicant was finally proven not to be the record owner of the land to which the water was made appurtenant by the decree and thus, the proposed transfer was frustrated. I presume in this case you are satisfied of the applicant's ownership in fee-simple of the land and water. You state that there likely will be a number of transfers in this vicinity. I would suggest, therefore, if abstracts will not be exceedingly lengthy, that they be prepared and filed with the applications for transfer.

In the meantime, I will hold the Greene application pending further advice from you relative to feasibility of abstracts for the forthcoming applications.

Very truly yours,

Assistant Commissioner
of Reclamation
