Dear Mr. Kidwell:

Thank you for your letter of February 8, 1968 on the above referenced permit. To the best of our knowledge there is no means to include the 5 acres in the NE¹/₄ Sec. 2, T. 11 N, R. 33 E, E... unless a correction notice is published to advertise this land as part of the beneficial use of the water for this permit.

All the department is requiring of the applicant is that he publish a correction notice for two weeks at his expense. Additional depositions will not be required. Therefore, if the applicant will sign the departments form 11 and return it to our attention, we will be glad to proceed with the processing and issuance of the license.

If you have any questions in this matter, please feel free to contact us.

Our File: 1169

Dear Mr. McEldowney:

We have discussed with Ned Gneiting your letter of January 23, dealing with the apparent omission of a portion of the Northeast Quarter of the Southeast Quarter of Section 2. We have reviewed all of the file, but unfortunately do not have a copy of the notice that ultimately was published.

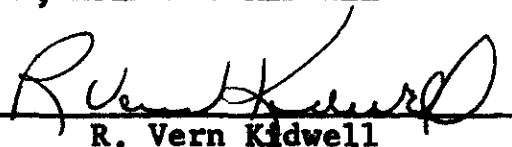

In view of the fact that this is a supplemental right, the bulk of which is used on other grounds, we are writing to request consideration by the Department of Reclamation to the issuance of the permit to include the balance of the properties. We note, at the most there would be a minimum amount of acreage involved in the Northeast Quarter of the Southeast Quarter. We would appreciate your comments, rather than the expense of an additional publication, depositions, etc.

Thank you for your consideration.

Very truly yours,

Dear Mr. Gneiting:

On September 19, 1967, the Department of Reclamation conducted a field examination in connection with the above referenced permit. In reviewing the results of the field examination and the proof you have submitted in evidence of your beneficial use, it is noted that the ~~NEWSEX~~, Sec. 2 was never advertised as proof of beneficial use. Therefore, before we can license your permit, including the ~~NEWSEX~~, Sec. 2, you will be required to publish a correction notice to include this 40-acre description.

We are enclosing the Department of Reclamation's Form 11, authorization to publish. Please sign the authorization, returning it to the Department so that we may proceed with the correction advertisement at your expense.

Upon completion of this, we will advise you as to any fees in connection with licensing. Your prompt attention to this matter is appreciated.

A New York agitator is seeking to organize the half-million welfare clients in that city into a union. The purpose of the union would be to bring about the elimination of a half-billion dollar a year relief program. In its place, says the promoter of the union, the organizers advocate an "adequate guaranteed annual income" for the poor. He says there are twice as many persons in New York who are entitled to relief, and should receive it, as are now on the rolls. That would be a million people, and would double the relief budget to more than one billion dollars a year.

Dear Mr. Harn:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30049 are due not later than Aug. 11, 1966

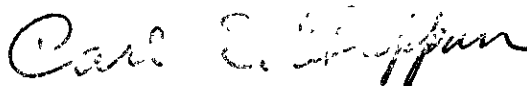

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Box 297,
Dubois, Idaho.

Dear Mr. Harn:

We enclose Permit No. G-30049 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6372 which was issued covering payment in the amount of \$5.75 for the filing fee of the above mentioned permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
