Subject: Application for Transfer – Elroy and Leroy Brandt

Dear Steve:

On behalf of Lochsa Falls, LLC, I am pleased to submit the enclosed Application for Transfer of Water Right related to a portion of water right 63-11199.

The Application for Transfer of Water Right proposes a new point diversion for a 63-acre portion of water right 63-11199. The 63-acre portion of the water right is the remainder of the water right that was not involved in a transfer application by Lochsa Falls, LLC submitted in December 2003 for a 64-acre portion of the water right. The 64-acre portion was appurtenant to lands sold by the Brandts to Lochsa Falls (a.k.a., Marty Goldsmith). The 63-acre portion of the water right is appurtenant to lands retained by the Brandts. The retained lands do not have a well. Therefore, a new well is proposed to serve these lands.

A check for the \$250 filing fee is enclosed. Proof of ownership for the 63 acres will be provided under separate cover.

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E.
