From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes modifying the recorded place of use of a ground water right used on a farm located approximately 5.5 - 6.0 miles north and 2.0 - 2.5 miles west of Oakley. The water right will continue to be diverted from an existing well located near the southeast corner of the farm. The transfer involves the same property that is involved with companion transfer 71229, which involves surface water rights. The proposed place of use for transfer 71229 consists of the places of use proposed by transfer 71225 and companion transfer 71223.
