Re: Evaluation of Sufficiency of Information Submitted

Transfer 71478 proposes adding a second well, already drilled, to a system used to supply domestic and stock water use. The original well dries up when the irrigation well is used so a replacement well was drilled. Since the original well is still usable during the winter, applicant wishes to keep it as a back up well.

during the winter, applicant wishes to keep it as a back up well.

- Authority to File:

Applicants own the property according to IDWR records and Cassia County Tax Lot information. There are no lien holders involved.

- Water Right Validity:

Water right has been decreed in the SRBA.

- Injury to Other Water Rights:

None anticipated.

- Enlargement of Use:

None if appropriate conditions and limits are implemented.

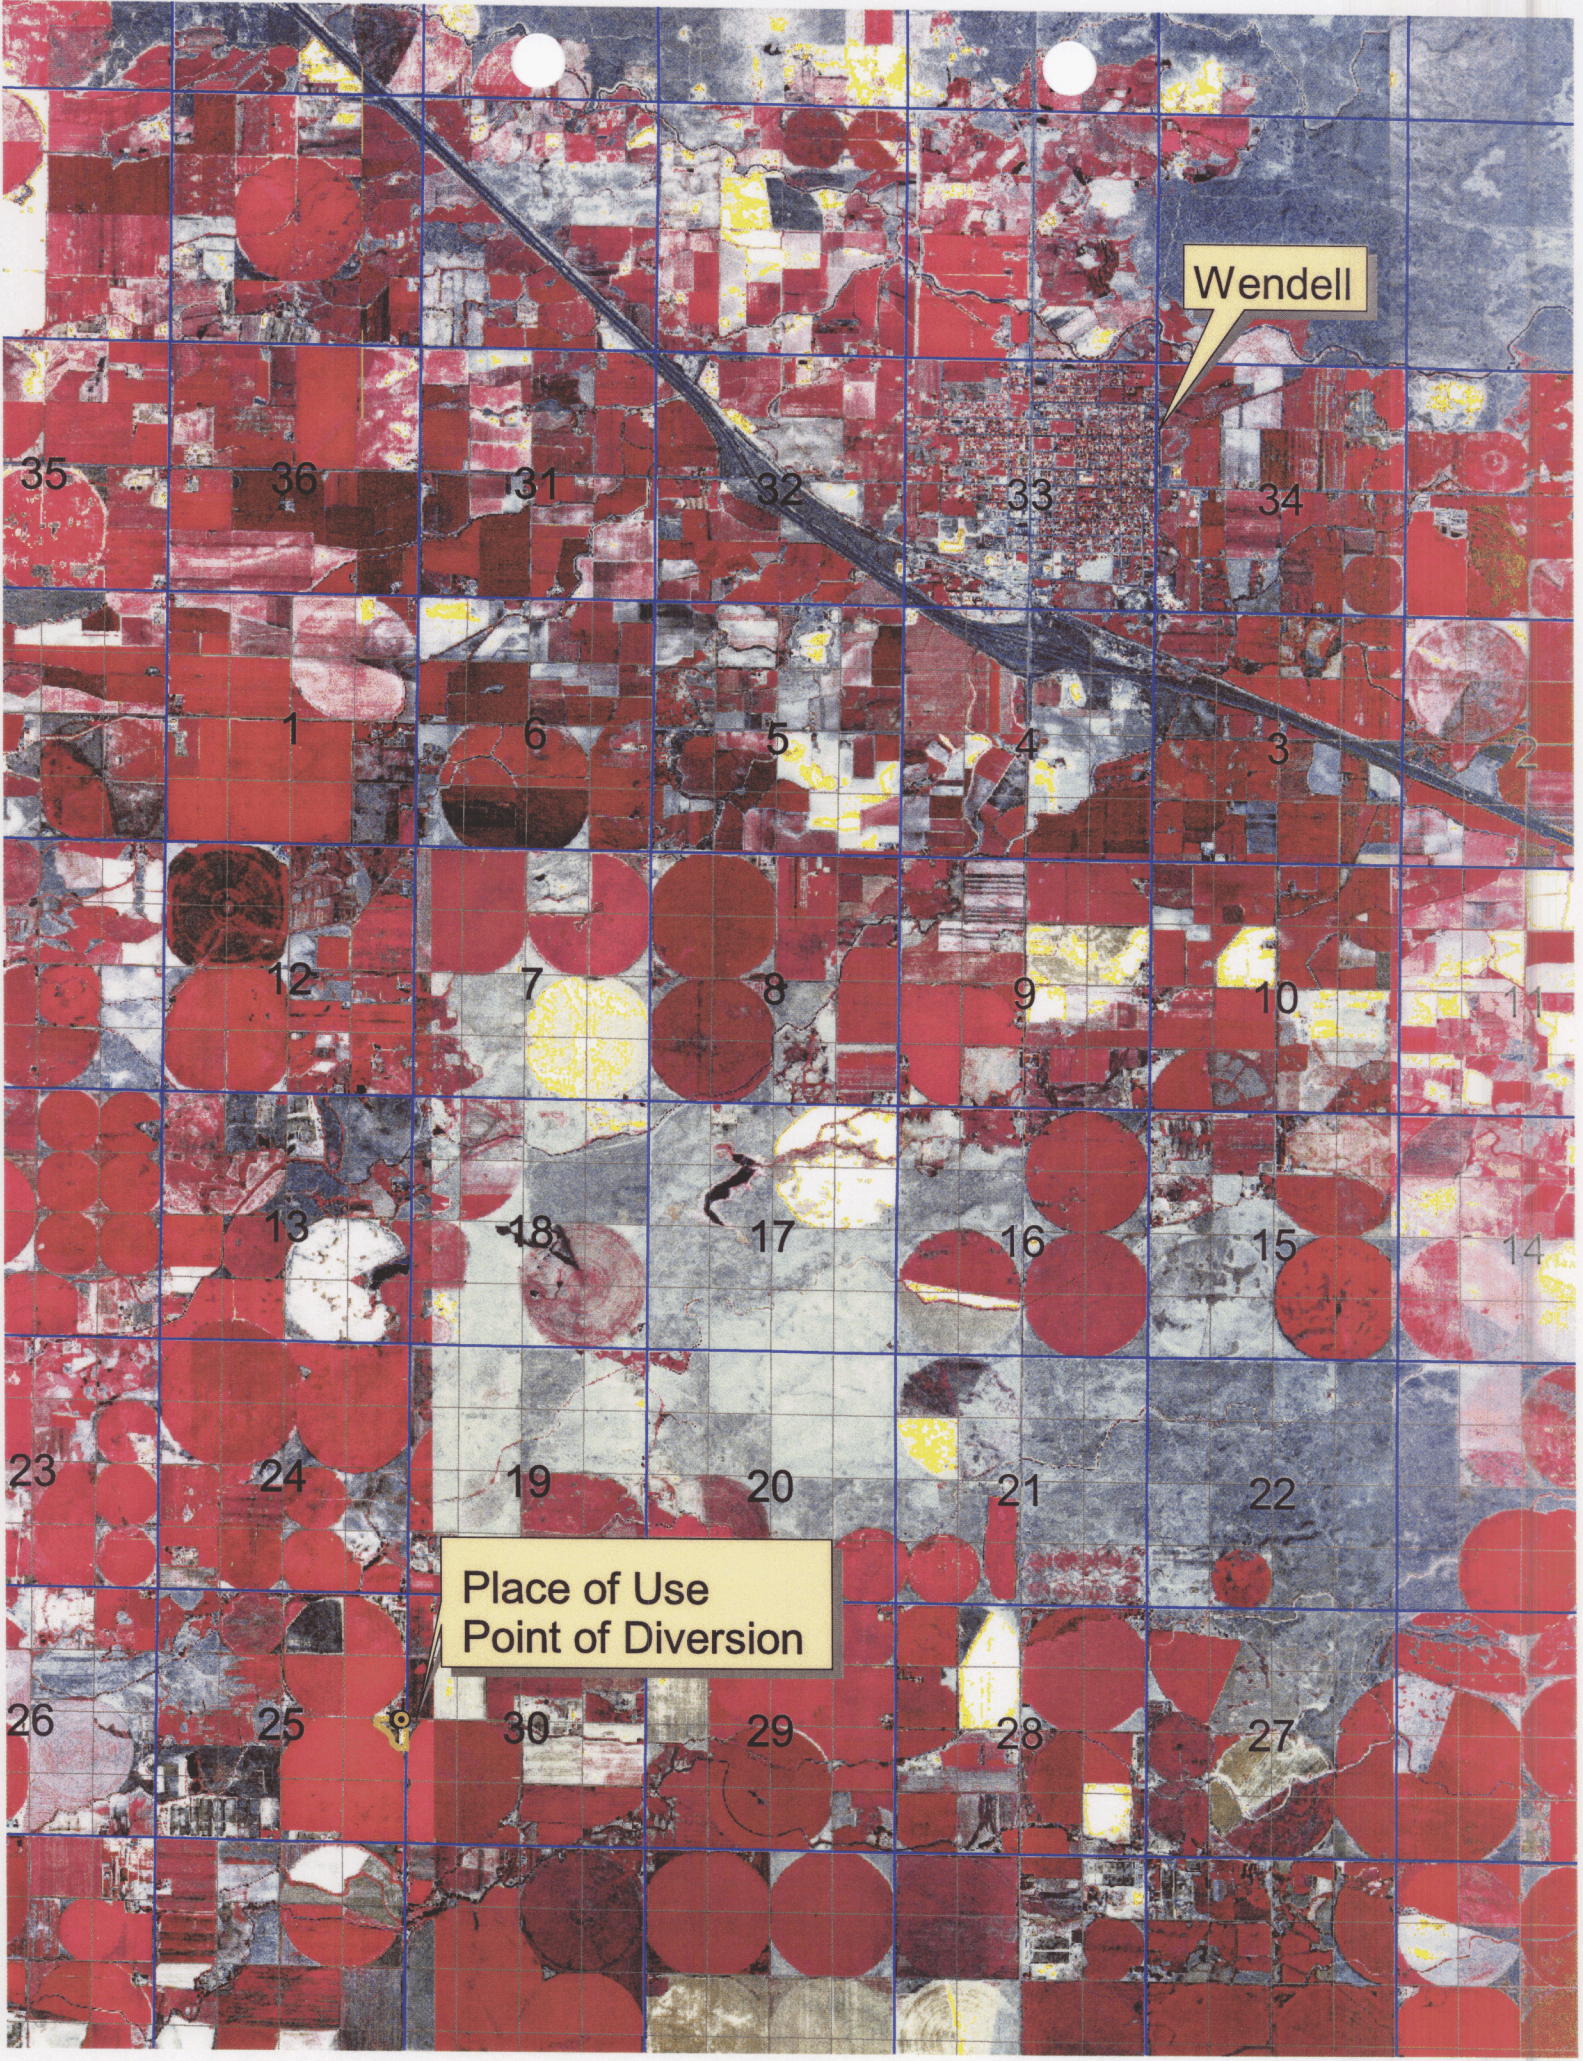

- Local Public Interest:

No negative impacts anticipated.

- Beneficial Use/Conservation of Water Resources:

Proposed use is recognized as beneficial use of water and sprinklers are used for irrigation.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
