CONDITIONS OF APPROVAL

- Beginning on the date of approval of Transfer 71071, Right 35-13490 is limited to the following schedule of allowed diversion volume. The diversion of water shall be evenly distributed throughout the authorized season of use, except that minor variations are allowed for seasonal fluctuations in water requirements. The right holder shall file a notice of intent with the Department prior to increasing the annual diversion volume each time an increase according to the schedule is sought.
Year 2004 the right is limited to 2 afa.
Year 2005 the right is limited to 7.5 afa.
Years 2006 through 2007 the right is limited to 9 afa.
Years 2008 through 2010 the right is limited to 12 afa.
Years 2011 through 2023 the right is limited to 15 afa.
Years 2024 and beyond the right is limited to 18 afa.
- The model used to calculate depletion effects and mitigation for the Shelley to Neeley reach may also show gains in other reaches of the Snake River. Such gains have not been quantified at this time. The right holder retains the right to seek quantification of such gains resulting from Transfer approval 71071. Protestants retain the right to object to the quantification of such gains. If such reach gains are quantified and acknowledged by the Department, credits for such gains shall be available for use only after the Department has implemented a system for administering such credits.

WATER RIGHT NO. 35-13490
As Modified by Transfer No. 71071

CONDITIONS OF APPROVAL

3. Prior to the diversion and use of water under Transfer approval 71071, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
6. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
7. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
8. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
9. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
10. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
