RECEIVED
MAR 15 2004
Department of Water Resources

Attn. Shelley Keen
Water Rights Supervisor

Dear Mr. Keen

This is a request for a water rights revision on the number of acres for permit number 36-8569 and number 36-4193.

The number of acres that are irrigated with this pivot is 110 acres.

This pivot irrigates cropland and irrigated pasture.

Enclosed is a copy of the 1994 ASC flight map. Upon close examination this shows a full circle. It is more obvious on the original map in the Jerome Office. This pivot was irrigating cropland and pasture.

The pasture was seeded and the pivot irrigated it in 1993 so beneficial use was established.

ASC only recognizes cropland, in their figures of acreage, not everything under the pivot which is the pasture, rocks etc, suitable for cattle grazing.

The original Mel Brown pivot on this ground was a full circle and beef cattle have been grazing there for a long time. on the ground not suitable for cropland farming.

Michael Sirucek

E. NARRATIVE/REMARKS/COMMENTS

The system consists of a deep well with a 50hp pump that discharges to an 8" steel pipe. The steel pipe goes SE for 30' and then is buried where it converts to a 380' x 8" PVC pipe. The PVC pipe discharges to a center pivot with 7 stages totaling 1194'. (See the attached "pivot system chart" by Rembe Mfg. Co.) The pump, pivot, meter and system are new and installation had just been completed at the time of the exam. It was being tested at the time of the exam. It pivots expands a smaller pivot previously used. It covers about 60% of a full circle which was confirmed by the 1994 HSCS flight.

This permit adds 11 additional acres and additional water to the same land covered by 36-04193. (See attached for diversion rate and volume calculation)

Have conditions of permit approval been met? ☒ yes ☐ no

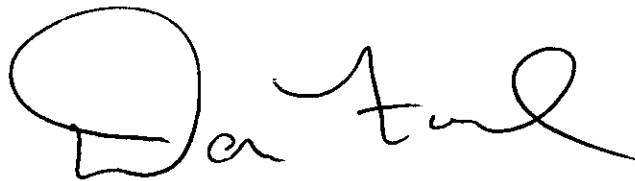

March 9, 2004

Copy of Sales agreement from Farmore Irrigation 10/15/93

This new pivot was operational in the fall of 1993

It was installed as a full circle pivot and was never a windshield wiper pivot.

Don Ford installer
208 539 1347, 208 644 9206

A handwritten signature in black ink, appearing to read "Don Ford". The signature is written in a cursive style with a large, rounded "D" and a long, sweeping "F".

Conditions of Approval:

1. R55 This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
2. R56 Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
3. R57 The Director retains jurisdiction of the right and may change, add, or remove any requirement as determined to be appropriate.

Remarks:

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 36-8569

1. General This right uses the same well as Right 36-04193 and when combined with Right 36-04193 is limited to a total combined annual diversion volume of 268 af for the lands above. This right when combined with Right 36-04193 and all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
