Jerome County Planning & Zoning
121 3rd Avenue East
Jerome, ID 83338

Gentlemen:

Please find enclosed a copy of a pending water right transfer application filed in the name of William & Susan Millenkamp. The application proposes modifying two existing water rights to provide 65.9 acre-feet of water per year for stock water and commercial use associated with the expansion of a feedlot operation located within Sections 27 and 28, Township 07 South, Range 16 East in Jerome County.

Our Department would appreciate your written comments regarding the proposed use of water at the location described in the application. In particular, the Department is interested in whether or not the applicant has met, or is in the process of meeting, any requirements that Jerome County may have regarding their operation.

Your prompt attention regarding this request would be appreciated in order to continue further processing of the water right transfer application. If after 21 days from the date of this letter the Department has not received your written comments, the Department will presume you do not oppose approval of the application and you have no comments for the Department to consider. If you have any questions, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, PE
Water Resource Engineer
