RE: App For Transfer, Carey Water & Sewer District

Dear Rex;

As we discussed, I am returning this transfer and your Check #3057 in the amount of \$200. The transfer need to made on Right 37-7766, not on Permit 37-20384. An application for amendment needs to be filed to change the point of diversion on the permit. Both the transfer and the amendment should describe both the original well in Sec. 22 and the new well that was recently drilled in Sec. 34. The transferred requires a notarized signature, while the amendment does not; in both cases, indicate the position of the signator within the water and sewer district. The processing fee for the transfer is \$250, while the amendment fee is \$50. An additional \$125. drilling-permit fee will be due once the transfer is approved, but should not be submitted until then. The new well was drilled as a test well for \$75, but the full fee for a non-exempt well is \$200.

New transfer and amendment forms are enclosed for your use. If I can be of further assistance, feel free to contact me.

Regards,

James E. Stanton
Sr. Water Resource Agent
