Re: City of Burley

Dear Corey:

This will confirm our telephone conversation of August 31, 2004. I recently submitted an application for amendment of permit number 45-13411. In our discussion you pointed out that the original application designated six well sites such that the effect of my application was to change those six points of diversion to a single point. We discussed the original application which had requested that an additional point of diversion be added to the above permit. Based upon that discussion I requested that you change the most recently submitted application to show that we are adding a point of diversion. As a result of this we will have seven authorized points of diversion. Five of which have been drilled and two of which have not. Furthermore, I requested that on the map you add the word "new" to the designation of the seventh well location.

Thank you for your help in getting this straightened out.

Sincerely,

PARSONS, SMITH & STONE, LLP

R.C. Stone
