

MEMORANDUM

Date: June 07, 2004
To: Transfer 69381
From: ameritt
Re: recommendation

This transfer was received and advertised in 2001 prior to parallel processing procedure was initiated. The application was advertised without protest. The watermaster submitted comments that he opposed approval of the transfer. SRBA recommendation as drafted recommends right in the name of Stringham with overlapping Oakley Canal Shares. Stanton Memo of 5/27/2004 documents reasons for denial of application. No acres are being dried up to make this change. Applicant has recently been sent a letter giving him a deadline for submission of additional information to prevent denial but has not responded. File has been scanned. RECOMMEND ORDER BE ISSUED TO DENY APPLICATION.
