Necia,

Thank you for the update. IDWR will continue processing Transfer 70394 with 95-4027 and 95-7107 removed from the package.

Shelley:

Please disregard this mornings e-mail. We have exhausted all possible avenues of historical information on rights 95-4027 and 95-7107. Thus, we would like to remove these two rights from Transfer package 70394, and have you finalize the approval on the remaining rights. We will file new water rights to cover this diversion capacity. Please contact me with any questions or comments.

Thanks,
Necia

Shelley

We have been searching through records for more information on 95-4027 and 95-7107 all week. I think we are nearing the end. However, I just got two leads on 95-4027 today. Would it be pushing it, if we asked you to hold on to Transfer 70394 for one more week? Let me know, if so, we will have you go ahead and finish the Transfer without these two rights.

Thanks,
