

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
PROOF OF BENEFICIAL USE

RECEIVED

APR - 2 2003

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 95-9035 Telephone No. 208-686-8686

2. Name of Permit Holder(s):
Thomas F. Janson/Linda B. Janson DBA Sun Meadow Utilities

3. Mailing Address: 30400 Sun Ray Trail

City Worley State ID Zip 83876

4. Source of Water: well If **GROUNDWATER** (well), Date Drilled: mo. 11 / yr. 93

Well Driller: Vernillion Well Drilling Drilling Permit Number: 95-9793067
9793068

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: Municipality

6. Total rate of diversion and/or volume for which proof is submitted: .2 cfs OR _____ acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes X or No _____
Has the measuring device been installed? Yes X or No _____

8. Fee Enclosed: \$ 50 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Thomas F. Janson Telephone Number: 208-686-8686

Address: 30400 Sun Ray Trail, Worley, ID 83876

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Thomas F. Janson Date: 3/31/03
(include your title, if on behalf of company or organization)

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
REQUEST FOR EXTENSION OF TIME RECEIVED
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT **FEB 20 2001**

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 95-9035
Name(s) of Permit Holder: Thomas F Janson / Linda B Janson
Address: 2423 Conkling Rd City Worley State Id Zip 83876
Telephone No. 208-686-8686 Date Proof is Due: 4-1-2001

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

2 wells are in - one pump has been installed, storage tank has been installed, water lines & fire hydrants are installed.

Costing \$ 35,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The county had to reissue conditional use permit in September 2000 because of legal proceedings against our project.

Permit holder(s) request an extension to 4-1, 2002

Linda B Janson
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to April 1, 2003.

Signed this 2nd day of April 2001

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-9035

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Northern** Regional Office of the department in Coeur d'Alene (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 95-9035

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant
Water Allocation Bureau

RE: PERMIT NO. 95-09035

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use of water to **April 1, 2003**.

Please note that the department granted this extension based on **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed since the department may not be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please feel free to contact the department if you have questions.

RE: Permit No. 95-9035

Dear Permit Holder(s):

The Department acknowledges receipt of your request for extension of time. However, I recommend that you base this extension on the delay caused by the litigation. If you agree, then I will need evidence of the length of time you have been delayed. Please send me a copy of the pleading(s) showing the dates the case began, and the most recent pleading filed. Any additional correspondence or pleadings regarding this case would be of assistance. The extension you receive will be based on the length of time you have been involved in this litigation.

I could base your extension on due diligence, however, if for some reason you have additional delay affecting this project not based on litigation or government delay, I would be unable to grant another extension based on due diligence.

I will set aside your request until I receive your response. Please provide the documents to me before the proof due date of April 01, 2001, or contact me at (208)327-7953.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-09035

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Dear Ms. Curtis:

I am enclosing the latest approval from DEQ which approves both the water and sewer system we are attempting to construct. I am assuming that since we are under their jurisdiction, that is enough to prove that we will qualify as a public water system. If we had not had the requirement to go through DEQ, we certainly would not have. If you need further documentation, please do not hesitate to ask, but I would appreciate some idea as to what would satisfy your requirements.

Sincerely

Linda B. Janson

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED
APR 14 2007

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Sun Meadows RV Park and Planned Unit Development - Construction Approval for Drinking Water and Waste Water Systems

Dear Mr. and Mrs. Janson:

Plans and specifications submitted by Thomas Moore, P.E. of Ruen-Yeager and Associates on December 30, 1999 for construction of the public drinking water and community wastewater systems serving the above referenced project have been reviewed. The submittal included a written response to DEQ's November 17, 1999 review comments, an application for a wastewater Land Application Permit (WLAP), and other water and sewer related information.

Enclosed please find our response to the twenty-eight previous DEQ review comments reflecting the engineer's resolution.

The application for a WLAP has been reviewed and found complete. DEQ will be developing a draft WLAP during the upcoming days and will forward a copy of the draft to you and your engineer for review and comments.

The submitted plans and specifications were found to be in accordance with the Idaho Rules for Public Drinking Water Systems and the Water Quality Standards and Wastewater Treatment Requirements, and are **approved for construction purposes** in accordance with Section 39-118 of Idaho Code.

This approval is contingent upon the following:

1. Seepage testing shall be performed of the wastewater lagoon and certified to DEQ as satisfying the Idaho wastewater lagoon seepage standard. This test and report shall be made as soon as the level of wastewater in the lagoon reaches an acceptable level for the test but no later than January 1, 2002.
2. Execution of a WLAP for the wastewater system.
3. Documentation of sufficient water production from the PUD well and acceptable quality from the Resort well to serve the proposed development.

MICROFILMED

RE: **Sun Meadows RV Park and Planned Unit Development**
February 17, 2000
Page 2

Inspection of construction activities approved herein must be done by an Idaho licensed Professional Engineer (P.E.) or someone under the direct supervision of a P.E. If major modifications to this accepted design are necessary, approval by this office must be secured prior to implementation of the changes.

Section 39-118 of Idaho Code requires that as-built plans as certified by the inspecting engineer be submitted to this office for review and approval within thirty (30) days of completion of construction. If construction is not completed within one year of the date of this letter, this construction approval expires and you must request in writing for reapproval of the plans and specifications by DEQ.

There are some aspects of this project (e.g., sewer service lines) that may need to be permitted by the Plumbing Bureau of the Idaho Department of Building Services at 769-1579. Before water or sewer construction is initiated, we recommend that you or your engineer contact this office to see if plumbing permits and inspections are required for this project.

Sincerely,

Gary J. Gaffney, P.E.

Dear Mr. and Mrs. Janson:

The application for permit to appropriate water that you recently submitted describes your proposed use of water as municipal use.

Section 42-202B(3)(c), Idaho Code, defines a municipal provider as a "corporation or association which supplies water for municipal purposes through a water system regulated by the state of Idaho as a "public water supply" . . .". Section 39-103(15), defines a public water supply as "all mains, pipes and structures . . . actually used or intended for use for the purpose of furnishing water for drinking or general domestic use in incorporated municipalities; or unincorporated communities where ten (10) or more separate premises or households are being served or intended to be served; or any other supply which serves water to the public and which the Department of Health and Welfare declares to have potential health significance.

It appears that the water delivery system you propose in the water right application may qualify as a municipal provider as described above. In order for us to complete our review for permit approval, we need some documentation to show that Sun Meadow Utilities' water system qualifies as a public water supply by the State of Idaho, Dept. of Health and Welfare.

Please submit evidence of your qualification as a municipal provider within 30 days. Once we receive sufficient documentation to this effect, our review for permit approval can be completed. If you have any questions, please call me.

Sincerely,

SHARLA CURTIS
Sr. Water Resource Agent

Re: Water Appropriation Application No. 95-09035

Dear Mr. and Mrs. Janson:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If your source is groundwater, a Well Drilling Permit is required for all wells constructed after July 1, 1987.

A "Domestic" well drilling permit should be obtained for a rate of diversion of up to 18 gallons per minute (0.04 CFS) and a daily volume of up to 2,500 gallons per day. The cost for this permit is \$75.00. For any other use, including multiple homes, or municipal, etc., the Drilling Permit fee is \$200. These Permits can be obtained by your driller, also. It is sometimes possible to upgrade an existing Domestic Drilling Permit by submitting a fee for the difference. This, however, depends on the individual well.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
