From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes creating a 1275-acre permissible place of use for four ground water rights allowing a total diversion of 15.70 cfs on a farm located approximately 3.0 – 4.5 miles west and 7.0 – 9.0 miles north of Paul. Four existing interconnected wells located on the farm will serve as the points of diversion. The four wells are within the ESPA, Water District 130, and the Magic Valley Ground Water District. All four wells are located within the same cell in the groundwater model so no analysis or mitigation is required for the point of diversion additions.
