RE: App For Permit 45-7731

Dear Mr. Turner;

Kelly Christensen has now finished the SRBA recommendations on this well, and is showing 110.2 acres irrigated instead of the 115 acres originally licensed. If this is acceptable, I would like to have you amend your application to reflect the recommendation. Also, I suggest that you add your father as an applicant to reflect the SRBA data. Our Boise office has agreed to process your application for the additional flow rate based on the 792 gpm measured by Brian Higgs in 2000; this leaves 1.21 cfs not already licensed.

I have tried unsuccessfully to reach you by telephone. If my suggestions are acceptable, please contact me for an appointment.

Regards,

James E. Stanton
Sr. Water Resource Agent
