<u>Water Right</u>	<u>All or Part of Right</u>	<u>Rate(cfs)</u>	<u>Volume(af)</u>	<u>Acres</u>

Details for each right are presented below. See attached map for place of use locations.

2-2240

This licensed right is proposed for lease, in its entirety, to the bank. The right overlaps right 2-2431 and SRBA review recommends limits of 3.5 cfs, 175 acres and 875 acre-feet.

2-2431

This licensed right is proposed for lease, in its entirety, to the bank. Right 2-2240 overlaps this right to the extent of 112.5 acres; see recommendations for combined limits above. Right 63-361 also overlaps this right to the extent of about 32 acres and right 63-8389 overlaps this right to the extent of about 26 acres.

Based on the lease applications, this right cannot be accepted into the bank in its entirety. Only the 112.5 acre part overlapping right 2-2240 can be accepted. The applications indicate that the rest of the place of use will continue to be irrigated.

This decreed right is proposed for lease, in part, to the bank. The total right is 1.1 cfs and 248 af for 55 acres. A portion of the right (about 32 acres) overlaps part of right 2-2431. A portion of the right (about 14 acres) overlaps a part of permit 63-9807. A portion of the right (about 13 acres) also overlaps a part of right 63-8389. The amount to be leased to the bank is 14 acres overlapping right 63-9807. The portion overlapping 2-2431 and 63-8389 will not be placed in the bank and will continue to be irrigated.

63-8389

This licensed right is proposed for lease, in part, to the bank. The total right is 1.16 cfs and 261 af for 58 acres. A portion (about 26 acres) overlaps a part of right 2-2431. That part will not be placed into the bank and will continue to be irrigated.
